Michal's Moral Dilemma Jonathan Y. Rowe, 2011-06-21 Michal's Moral Dilemma proposes that attention should be paid to the moral goods that feature in the text before arguing that the family a central feature of Old Testament morality should be understood as a set of practices rather than an institution Jonathan Rowe discusses the use of models of social action to comprehend the social world of the Bible and suggests a modified version of Bakhtin's theory of heteroglossic voices can help readers appreciate how authors present a moral vision by approving some characters actions whilst undermining others The discussion of Michal's moral dilemma adduces anthropological theories and ethnographic data concerning violence lying and the relationship between fathers and daughters Given that the conflicts of moral goods are resolved by characters choosing to act in a certain way Rowe enquires after the author's assessment of each character's moral choices arguing that Michal's loyalty to David and deception of Saul was counter cultural By approving of her choice the author affirms the importance of loyalty to the Davidic dynasty

Philosophical Perspectives on Religious Diversity Dirk-Martin Grube, Walter Van Herck, 2018-10-19 Addressing the question of what kind of theoretical foundations are required if we wish to have a constructive attitude towards different religions this book scrutinizes aspects of the human condition personhood and notions of exclusive truth and tolerance In the book Wolterstorff suggests that persons have hermeneutic and related competences that account for their special dignity and that this dignity implies the right to practice religion freely Margolis emphasizes the contingent character of all religious pursuits being products of a unique form of evolution humans need to create convincing purposes in an otherwise purposeless world Respondents criticize both views with an eye on the question of whether those views promote religious tolerance Grube criticizes the tendency for interreligious dialogue to be pursued under the parameters of an exclusive bivalent notion of truth according to which something is necessarily false if it is not true Under those parameters religions that differ from the one true religion must be false This explains why religious pluralists attempt to minimize the differences between religions at all costs and why others suggest implausibly strong concepts of tolerance As an alternative Grube proposes to drop exclusive concepts of truth and to conduct interreligious dialogue under the parameters of the concept of

justification which allows for pluralisation The following discussion takes up this criticism of bivalence and its consequences for dealing with religious otherness This book was originally published as a special issue of the International Journal of Philosophy and Theology
