Goodbye America! Michael Rowbotham, 2000 Analyses globalisation and the international debt crisis as aspects of Western economic imperialism

Multinationals on Trial Professor Henry Veltmeyer, Professor James Petras, 2013-03-28 The role and economic power of corporations that dominate the world economy has generated considerable controversy The most heated debate and the most critical questions surrounding the role of multinational corporations relate to foreign direct investment FDI This key volume offers an entirely fresh perspective of the role of multinationals and the development impact of FDI Contrary to prevailing opinion it examines whether imperialism is a much more useful concept for describing and explaining the dynamics of world development than globalization FDI is a mechanism for empire centred capital accumulation a powerful lever for political control and for re ordering the world economy This is a much needed analysis of global capitalism and its impact around the world resulting in an excellent resource for students academics and activists

Fragile Finance A. Nesvetailova, 2007-10-17 *Fragile Finance* examines financial crisis in the era of global credit Drawing on the work of Hyman Minsky the book discusses the global financial system over the past decade suggesting that financial fragility stems from an explosive combination of financial innovation over borrowing and progressive illiquidity of financial structures

Bring on the Apocalypse George Monbiot, 2011-06-01 A new fusillade of provocative thinking from the author of the bestselling *Heat With Heat* George Monbiot confirmed his standing as one of the most important voices in the war against global warming But as *Bring on the Apocalypse* makes clear Monbiot is far from being a one issue thinker In this collection of his journalism none of which has been published in Canada before he tackles a wide range of issues drawn from recent headlines and does so with his familiar fierce intelligence and superb skills as a writer Grouped by theme into Arguments with science political power war religion economics and culture these pieces crackle with intellectual energy and frequently give off sparks of fury Always though their power is rooted in profound knowledge a solid set of principles and palpable sincerity The *Globe and Mail* said of *Heat* that it contains more intellectual challenges by the page than the Canadian media does in a year For *Bring on the Apocalypse* with its concise intense broadsides against everything from climate change deniers to the fundamentalist Christian Taliban to the evils of teen magazines and what continued interest in the Loch Ness monster says about our attitude to real ones make that by the paragraph

[Debt or Democracy](#) Mary Mellor, 2015-11-20 This is a challenge to conventional thinking around money and the debt crisis By re evaluating the source of money Mary Mellor presents a radical alternative to austerity and privatisation public wealth or money used for sustainability sufficiency and social justice *Debt or Democracy* debunks the received lessons of the financial crisis of 2007 Political elites shout about a house whose finances are in disarray a yawning deficit created by reckless spending in a bloated public sector The answer to this debt crisis has been harsh austerity

measures but this is a dangerously deceptive discourse Turning against the prevalent narrative with its language of debt and deficit Mellor takes on the familiar question where does money come from The real solution is a return to the notion of public wealth and the public economy of a monetary system owned by and operated in the interests of the majority **Economics After Capitalism** Derek Wall,2015-06-20 There is no alternative has been the unofficial mantra of the neoliberal order since its utterance by Margaret Thatcher in the 1980s However there is an alternative to our crisis ridden austerity inflicted world and not just one alternative but many Challenging the arguments for markets mainstream economics and capitalism from Adam Smith onwards Economics After Capitalism provides a step by step guide to various writers movements and schools of thought critical of neoliberal globalisation These range from Keynesian inspired reformists such as Geroqe Soros and Joseph Stiglitz critics of inequality like Thomas Piketty and Amaitya Sen to more radical voices including Naomi Klein Marxists such as David Harvey anarchists and autonomists including Toni Negri and Michael Hardt By providing a clear and accessible guide to the economics of anti capitalism Derek Wall successfully demonstrates that an open source eco socialist alternative to rampant climate change elite rule and financial chaos is not just necessary but possible **Life, Money and Illusion** Mike Nickerson,2009-09-01 In recent years unchecked growth has brought us to the brink of economic and environmental collapse Life Money and Illusion was inspired by the dilemma of having an economic structure that has to grow to remain healthy while facing the finite limits of our planet This revised and updated edition launches a review of economic expansion It examines how growth came to be a goal and how that goal though once beneficial is now the propellant for catastrophe Then by showing how the economy can be restructured to remain within planetary limits it points the way to a sustainable future Life Money and Illusion advocates change by shifting the dominant economic paradigm from growth to sustainability Techniques include Measuring progress with social and environmental indicators along with economic ones Encouraging investment in community Practical changes such as full cost accounting tax shifting and monetary reform Honoring the Golden Rule instead of the Rule of Gold Focusing more on living than on stuff An engaging and empowering vision of a future that celebrates humanity s extraordinary ability to adapt and evolve Life Money and Illusion will appeal to social activists business people students environmentalists financial planners economists parents grandparents and anyone else with a stake in the future Green Alternatives to Globalisation Michael Woodin,Caroline Lucas,2004-04-20 What are the Green alternatives to economic globalisation Written by leader of the Green Party Caroline Lucas this manifesto argues that globalisation increases poverty undermines democracy and destroys the environment the authors demonstrate the urgent need for a new approach economic localisation that is based on the Green principles of equity ecology and democracy Applying their thesis to current international crises including climate change trade and development agriculture and international security we see how economic localisation could be adopted and applied to positive ends Economic Policies, Governance and the New Economics P. Arestis,2013-10-21 This volume concentrates on international issues that relate to

economic policies and governance It is essential reading for all postgraduates and scholars looking for expert discussion and debate of the issues surrounding the case for new economic policies at the global level

Money - The New Rules of the Game Christian Felber,2017-10-25 This book advocates a holistic reform of the current monetary and financial system dealing with the issues of money creation central banks loans stock markets tax justice pension security and the international monetary system Bretton Woods II Its innovative approach presents several alternatives for each cornerstone in addition to introducing a participatory democratic process whereby sovereign citizens can themselves determine the rules governing the new financial and monetary system With democratic money conventions in each municipality where the elements of this new money system are discussed and decided on in a participatory manner and a federal money covenant which then elaborates a template for a referendum about the future money constitution a true sovereign could progressively convert money from a financial weapon into a democratic tool The envisaged democratic monetary system by providing equal opportunities for every member of society to participate in the development of the new rules of the game turns money progressively into a public good which increases the freedom for all The new system furthermore drives the enhancement of constitutional and relational values such as human dignity solidarity justice sustainability or democracy Money should serve life and should serve the common good The Bank for the Common Good Project which was initiated in Austria by the author Christian Felber represents a practical example of his proposals

New Socialisms Robert Albritton,Shannon Bell,Richard Westra,2004-07-31 As neo liberal globalization pushes us further toward global inequality poverty war and militarism diverse movements are arising to voice their concerns These movements have in common a lack of credible alternatives and this book is a contribution to a more positive debate

The Philosophy of Debt Alexander X. Douglas,2015-11-06 I owe you a dinner invitation you owe ten years on your mortgage and the government owes billions We speak confidently about these cases of debt but is that concept clear in its meaning This book aims to clarify the concept of debt so we can find better answers to important moral and political questions This book seeks to accomplish two things The first is to clarify the concept of debt by examining how the word is used in language The second is to develop a general principled account of how debts generate genuine obligations This allows us to avoid settling each case by a bare appeal to moral intuitions which is what we seem to currently do It requires a close examination of many institutions e g money contract law profit driven finance government fiscal operations and central banking To properly understand the moral and political nature of debt we must understand how these institutions have worked how they do work and how they might be made to work There have been many excellent anthropological and sociological studies of debt and its related institutions Philosophy can contribute to the emerging discussion and help us to keep our language precise and to identify the implicit principles contained in our intuitions

Green Economics Molly Scott Cato,2012-05-16 The world as we know it needs a new economics Climate change financial crisis and out of control globalization all the major problems facing the world have their root in the dominant

economic system The globalised marketplace is the prevailing force in our lives undermining the real importance of our human communities and our planet Green Economics argues that society should be embedded within the ecosystem and that markets and economies are social structures that should respond to social and environmental priorities This highly readable text provides an introduction to green economics including views on taxation welfare money economic development and employment through the work of its inspirational figures including Schumacher Robertson and Douthwaite It also explores the contributions and insights of schools of thought critical of the dominant neo classical economic paradigm including ecofeminism views from the global South and the perspective of indigenous peoples Examples of effective green policies that are already being implemented across the world are presented as well as policy prescriptions for issues including climate change localization citizens income economic measurement ecotaxes and trade

The Transition to Sustainable Living and Practice Liam Leonard, John Barry, 2009-12-21 Offers a series of insights into real alternatives to the economic malaise with an examination of key themes such as transition towns traditional villages new green financial concepts the sustainable utopia sustainability and activism ecofeminism green protectionism intentional communities and a green philosophy of money

Critical Thinking Skills Stella Cottrell, 2023-03-23 The ability to demonstrate critical thinking is essential for students who seek to achieve good grades at university but it typically creates a lot of confusion and anxiety Critical Thinking Skills provides an easy to follow step by step guide to developing analytical reasoning skills and applying them to tasks such as reading note making and writing A complex subject is broken down into easy to understand blocks with clear explanations good examples and plenty of activities to develop understanding at each stage Students can use this book to Critically assess other people's arguments Recognise flawed reasoning Evaluate the material used to support arguments Apply critical thinking when reading writing and making notes Write excellent essays and reports The 4th edition features a new section on argument mapping techniques which help readers to visualize the structures of an argument It also contains new and updated examples that link to current affairs showing the importance of critical thinking as a lifelong skill Written by internationally renowned author Stella Cottrell this is an essential resource for students looking to refine their thinking reading and writing skills

Gaian Democracies Roy Madron, John Jopling, 2003 Gaian Democracies shows how to create a global network of just and sustainable societies that could co exist symbiotically with Gaia The authors stress the systems framework on which they have based their proposals and draw on real world examples such as the Mondragon Cooperatives of Basque Spain Visa International the Semco Corporation and the hundreds of participative budgets initiated by Brazilian Workers Party

Rethinking Development Geographies Marcus Power, 2004-08-02 Development as a concept is notoriously imprecise vague and presumptuous Struggles over the meaning of this fiercely contested term have had profound implications on the destinies of people and places across the globe Rethinking Development Geographies offers a stimulating and critical introduction to the study of geography and development In doing so it sets out to explore the spatiality of

development thinking and practices The book highlights the geopolitical nature of development and its origins in Empire and the Cold War It also reflects critically on the historical engagement of geographers with the Tropics the Third World and the South The dominant economic and political philosophies that shape the policies and perspectives of major institutions are discussed The interconnections between globalization and development are highlighted through an examination of local national and transnational resistance to various forms of development The text provides an accessible introduction to the complex and confusing world of contemporary global development Informative diagrams cartoons and case studies are used throughout While exploring global geographies of economic and political change Rethinking Development Geographies is also grounded in a concern with people and places the view from below the views of women and the view from the South

Critical Introduction to Law Wade Mansell,Belinda Meteyard,Alan Thomson,2004-06-25 This book challenges the usual introductions to the study of law It argues that law is inherently political and reflects the interests of the few even while presenting itself as neutral It considers law as ideology and as politics and critically assesses its contribution to the creation and maintenance of a globalized and capitalist world The clarity of the arguments are admirably suited to provoking discussions of the role of law in our contemporary world This third edition provides contemporary examples to sustain the arguments in their relevance to the twenty first century The book includes an analysis of the common sense of law the use of anthropological examples to gain external perspectives of our use and understanding of law a consideration of central legal concepts such as order rules property dispute resolution legitimation and the rule of law an examination of the role of law in women s subordination and finally a critique of the effect of our understanding of law upon the wider world This book is ideal for undergraduate and postgraduate students reading law
