Gorbachev Mandate For Peace:

Gorbachev Mikhail Sergeevich Gorbachev,1987 **Gorbachev : Mandate For Peace** Mikhail Sergeevich Gorbachev,1987 **Globalizing Human Rights** Christian Peterson,2012-03-12 This work elucidates the complexities of how Western governments private citizens and the Soviet Union used the issue of human rights violations as ideological weapon during the Cold War It will pay particular attention to how private citizens both shaped and became an important part of the U S government s efforts to weaken the international prestige of the USSR *The Myth of Triumphalism* Beth A. Fischer,2019-12-03 This historical study dismantles the myth of Reagan s hardline victory and sheds light on his true diplomatic success in cooperation with Gorbachev Did President Reagan s hawkish policies destroy the Soviet Union and enable the United States to win the Cold War Many Americans believe this to be the case In this view known as triumphalism Reagan s denunciations of the evil empire and his military buildup compelled Moscow to admit defeat The president s triumph demonstrates that America s leaders should stand strong and threaten adversaries into submission Drawing on both US and Soviet sources this study demonstrates that triumphalism is based on a series of falsehoods about President Reagan s intentions his policies and the impact his administration had on the Soviet Union In reality the president s initially hardline posture undermined US interests and brought the superpowers to the brink of war Success only came when Reagan changed his approach to one of cooperation Together President Reagan and General Secretary Gorbachev were able to accomplish what no one at the time thought possible the peaceful conclusion of the Cold War The president s opposition to nuclear weapons his determined leadership and his dedication to diplomacy are his most enduring legacies **Iron Curtain Twitchers** Jennifer M. Hudson,2018-11-23 The Cold War is often viewed in absolutist terminology the United States and the Soviet Union characterized one another in oppositional rhetoric and pejorative propaganda State sanctioned communications stressed the inherent dissimilarity between their own citizens and those of their Cold War foe Such rhetoric exacerbated geopolitical tensions and heightened Cold War paranoia most notably during the Red Scare and brinkmanship incidents Government leaders stressed the reactive defensive foreign policies they implemented to retaliate against their counterparts offensive maneuvers Only brief periods of détente gave glimpses into the possibility of concerted peaceful coexistence Yet such characterizations neglect the complexities and rhetorical nuances that created fissures throughout the long standing ideological conflict Grassroots diplomacy rarely coalesced with official governmental rhetoric and often contradicted the discourse emanating from the White House and the Kremlin Organizations such as Women Strike for Peace WSP the Committee for Nonviolent Action CNVA and the Moscow Trust Group MTG defied policy directives and sought to establish genuine peaceful coexistence Traveling citizens posited that U S and Soviet citizens possessed more underlying commonalities than their governmental leaders cared to admit phenomena underscored in events such as the San Francisco to Moscow Walk for Peace Spacebridge programs railed against the Strategic Defense Initiative SDI and proclaimed that

figurative and literal links between their country and the Other proved more conducive to public opinion than Star Wars Iron Curtain Twitchers examines such juxtaposing rhetorics through three lexical themes contamination containment and coexistence It analyzes the disparate perspectives of public politicians and private citizens throughout the Cold War s duration and its aftermath to better understand the political cultural and geopolitical nuances of U S Russia relations Vacillating rhetoric among politicians journalists and traveling citizens complicated geopolitical relationships sociopolitical disagreements and cultural characterizations These dialogues are contrasted with the cultural mediums of film and political cartoons to underscore fluctuating Cold War identity dynamics Manifestations of one s own country contrasted with propagations of the Other and indicate that the Cold War lasted much longer and remains more virulent than previously conceived

False Dawn Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly

plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org

Great Leaders, Great Tyrants? Arnold Blumberg, 1995-01-16 Can a political leader be effective without being tyrannical Most biographies tend to treat the tyrannical aspect of a great leader's career as a contradiction to be minimized This book examines both the creative and tyrannical aspects as the anticipated consequences of the exercise of power Biographical profiles of 52 major world leaders throughout history feature pro con essays reflecting contemporary views of the creative and tyrannical aspects of their record Coverage is global from Indira Gandhi to Fidel Castro and spans history from the Egyptian king Akhenaton to Mikhail Gorbachev Among the leaders profiled are Otto von Bismarck Oliver Cromwell Charles de Gaulle Elizabeth I Ho Chi Minh Lenin Louis XIV Mao Zedong Napoleon I Kwame Nkrumah Juan Peron and Tito All biographies are written by subject specialists This work encourages critical thinking and debate about the exercise of power Coverage is global from Indira Gandhi to Fidel Castro and spans history from the Egyptian king Akhenaton to Mikhail Gorbachev Among the leaders profiled are Otto von Bismarck Oliver Cromwell Charles de Gaulle Elizabeth I Ho Chi Minh Lenin Louis XIV Mao Zedong Napoleon I Kwame Nkrumah Juan Peron and Tito Each biography begins with full name dates of the leader's lifetime offices held and a general introduction placing the leader in historical context A full biographical essay follows The editor then presents two essays in debate format contrasting the creative and tyrannical roles of the subject from a contemporary viewpoint Each biography concludes with suggestions for additional reading about the subject An important resource tool students will use Great Leaders Great Tyrants for debate and critical examination of periods of world history and the exercise of power
