Gorbachev's Reforms De Stalinization Through Demilitarization:

Gorbachev's Reforms Susanne Sternthal,1997 **Gorbachev's Reforms** Susanne Sternthal,1997-10-28 Gorbachev's reforms in domestic and foreign policy were motivated by the overriding objective of making Soviet socialism a legitimate and viable alternative among the world community of nations Drawing on recently opened archives this study examines the radicalization of Gorbachev's reforms and the resistance to them from the conservatives in the party apparat and the military Gorbachev sought to demilitarize the Soviet Union from the beginning but that process took on a more revolutionary hue as he came to understand how deeply embedded Stalinism was He sought to continue where Lenin had left off believing that Stalin had sidetracked and deformed Soviet socialism Toward this end Gorbachev redefined the image of the enemy by emphasizing common human values in international relations over class conflict and altered the nature of the threat by stressing the primacy of economic over military competition Gorbachev changed the terms of political discourse and by changing the way in which the Soviet Union viewed the world he sought to make improvements in relations with the West and to decrease the military burden of his overstretched country The Ideological Origins of Great Power Politics, 1789-1989 Mark L. Haas,2018-09-05 How do leaders perceive threat levels in world politics and what effects do those perceptions have on policy choices Mark L Haas focuses on how ideology shapes perception He does not delineate the content of particular ideologies but rather the degree of difference among them Degree of ideological difference is he believes the crucial factor as leaders decide which nations threaten and which bolster their state's security and their own domestic power These threat perceptions will in turn impel leaders to make particular foreign policy choices Haas examines great power relations in five periods the 1790s in Europe the Concert of Europe 1815 1848 the 1930s in Europe Sino Soviet relations from 1949 to 1960 and the end of the Cold War In each case he finds a clear relationship between the degree of ideological differences that divided state leaders and those leaders' perceptions of threat level and so of appropriate foreign policy choices These relationships held in most cases regardless of the nature of the ideologies in question the offense defense balance and changes in the international distribution of power *Reconstructing the Cold War* Ted Hopf,2012-04-12 This title explores how the early years of the Cold War were marked by contradictions and conflict It looks at how the turn from Stalin's discourse of danger to the discourse of difference under his successors explains the abrupt changes in relations with Eastern Europe China the decolonizing world and the West *The Struggle to Save the Soviet Economy* Chris Miller,2016-10-13 For half a century the Soviet economy was inefficient but stable In the late 1980s to the surprise of nearly everyone it suddenly collapsed Why did this happen And what role did Soviet leader Mikhail Gorbachev's economic reforms play in the country's dissolution In this groundbreaking study Chris Miller shows that Gorbachev and his allies tried to learn from the great success story of transitions from socialism to capitalism Deng Xiaoping's China Why then were efforts to revitalize Soviet socialism so much less successful than in China Making use of never before studied

documents from the Soviet politburo and other archives Miller argues that the difference between the Soviet Union and China and the ultimate cause of the Soviet collapse was not economics but politics The Soviet government was divided by bitter conflict and Gorbachev the ostensible Soviet autocrat was unable to outmaneuver the interest groups that were threatened by his economic reforms Miller's analysis settles long standing debates about the politics and economics of perestroika transforming our understanding of the causes of the Soviet Union's rapid demise *The Rise of the Global Imaginary* Manfred B. Steger, 2008-07-03 Neoliberalism Neoconservatism Postmarxism Postmodernism Is there really something genuinely new about today's isms Have we moved past our traditional ideological landscape Combining political history philosophical interpretation and good old fashioned story telling Manfred Steger traces ideology's remarkable journey from Count Destutt de Tracy's Enlightenment science of ideas to President George W Bush's imperial globalism Rejecting futile attempts to update modern political belief systems by adorning them with prefixes the author offers instead a highly original explanation for their novelty their increasing ability to articulate deep seated understandings of community in global rather than national terms This growing awareness of globality fuels the visions of social elites who reside in the privileged spaces of our global cities It erupts in the hopes and demands of migrants who traverse national boundaries in search of their piece of the global promise Stoked by cross cultural encounters technological change and scientific innovation the rising global imaginary has destabilized the grand political ideologies codified during the national age The national is slowly losing its grip on people's minds but the global has not yet ascended to the commanding heights once occupied by its predecessor Still the first rays of the rising global imaginary have provided enough light to capture the contours of a profoundly altered ideological landscape Pointing in this direction the book ends with a timely interpretation of the apparent convergence of ideology and religion in the dawning global age a broad phenomenon that extends beyond the obvious cases of Christian fundamentalism and Islamic jihadism **When Leaders Learn and When They Don't** Akan Malici, 2009-01-08 Develops a new and dynamic theory of foreign policy decision making and experiential learning [The Cambridge History of Russia: Volume 3, The Twentieth Century](#) Maureen Perrie, Ronald Grigor Suny, 2006-11-02 A major history of twentieth century Russia by leading scholars in the field [France's Security Independence](#) Xavier Fraudet, 2006 This book is about France's security policy during François Mitterrand's presidency which was dominated by the end of the Cold War and the German unification The author examines the successive layers of French security policy and analyses its nature essence and success The focus of the book is on France's independence in security matters and the role of France in European security policy **Knowing the Adversary** Keren Yarhi-Milo, 2014-07-21 States are more likely to engage in risky and destabilizing actions such as military buildups and preemptive strikes if they believe their adversaries pose a tangible threat Yet despite the crucial importance of this issue we don't know enough about how states and their leaders draw inferences about their adversaries long term intentions *Knowing the Adversary* draws on a wealth of historical archival evidence to shed new light

on how world leaders and intelligence organizations actually make these assessments Keren Yarhi Milo examines three cases Britain s assessments of Nazi Germany s intentions in the 1930s America s assessments of the Soviet Union s intentions during the Carter administration and the Reagan administration s assessments of Soviet intentions near the end of the Cold War She advances a new theoretical framework called selective attention that emphasizes organizational dynamics personal diplomatic interactions and cognitive and affective factors Yarhi Milo finds that decision makers don t pay as much attention to those aspects of state behavior that major theories of international politics claim they do Instead they tend to determine the intentions of adversaries on the basis of preexisting beliefs theories and personal impressions Yarhi Milo also shows how intelligence organizations rely on very different indicators than decision makers focusing more on changes in the military capabilities of adversaries Knowing the Adversary provides a clearer picture of the historical validity of existing theories and broadens our understanding of the important role that diplomacy plays in international security **Beliefs and Leadership in World Politics** M. Schafer,S. Walker,2006-09-02 Focusing on how policy makers make decisions in foreign policy this book examines how beliefs are causal mechanisms which steer decisions shape leaders and perceptions of reality and lead to cognitive and motivated biases that distort block and recast incoming information from the environment *After the Fall* Michael David-Fox,Peter Holquist,Marshall Poe,2004 **Russian-American Economic Relations, 1763-1999** James K.
