Approaching the Ancient Artifact Amalia Avramidou, Denise Demetriou, 2014-08-25 This volume consists consists of forty contributions written by an internationally renowned selection of scholars The authors adopt an interdisciplinary methodology examining both literary and archaeological sources and a comparative perspective that transgresses national chronological and cultural boundaries in order to investigate the nature of the links between text and image This multifaceted approach to the study of ancient artifacts enables the authors to treat art and artistic production as

activities that do not merely mirror social or cultural relationships but rather and more significantly as activities that create social and cultural relationships The essays in this book are motivated by their authors belief that there is no simple direct link between art and myths art and text or art and ritual and that art should not be delegated to the role of a by product of a literate culture Instead the contextual and symbolic analyses of artifacts and representations offered in this volume elucidate how art actively shaped myth how it changed texts how it transformed ritual and how it altered the course of local regional and Mediterranean histories

Gerstenberger, 2010-01-01 "Written for Our Discipline and Use" Agnethe Siquans, 2021-02-15 Patristic and rabbinic biblical interpretations are significant contributions to the identity construction of late antique Christian and Jewish groups The contributions in this conference volume illuminate the reception of biblical texts themes and figures in patristic and rabbinic writings from the 2nd to the 8th century They reveal processes of mutual demarcation which are sometimes extremely polemical sometimes only implicit and indirectly accessible The correct interpretation of Scripture is claimed for one s own we while at the same time distinguishing it from the others Nevertheless similarities and mutual positive references are clearly recognizable Especially the often so polemical Christian interpretation is from the beginning rooted in the Jewish tradition and based on it But also the rabbinic interpretation shows traces of the controversy with Christianity

Dämonen, Geister, dunkle Götter Hans Biedermann, 2023-01-05 Das schon vor mehr als 30 Jahren erstmals erschienene Nachschlagewerk wird bis heute als das fachlich beste Lexikon zum Thema bezeichnet Die bedrohlichen Seiten der Religionen aller Zeiten und L nder spiegeln in mannigfacher Verk rperung verschiedene menschliche Ur ngste wieder Die ungeb ndigte Natur das Schattenreich der Geister und Gespenster das bedr ngende Ph nomen des Todes und all dessen was die Existenz bedroht manifestierte sich in Form von D monen und dunklen G ttern So ist das Lexikon mehr als blo ein kulturgeschichtliches Nachschlagewerk es er ffnet dar ber hinaus einen aufschlussreichen Blick in die Tiefen des allgemein menschlichen psychischen Erlebens *Kaiser Karl seine Paladine* Felix Dahn, 1903 **Etruscan Life and Afterlife** Larissa Bonfante, 1986 The lively ferment in Etruscan studies generated in part by recent archaeological discoveries and fostered by new trends in interpretation has produced a wealth of information about the people historians traditionally considered as inaccessible Now scholars are reconstructing a portrait of the wealthy sophisticated Etruscans whose territory once extended from the Po River to the Bay of Naples Unfortunately the wider English speaking public has had no single resource which synthesizes these new findings and interpretations about the Etruscans In fact some sources continue to propagate the traditional myth of the enigmatic and isolated Etruscans In response the eminent Etruscan scholar Larissa Bonfante asked seven other internationally known classicists to join her in providing this handbook for the non specialist as an authoritative and readable guide to the burgeoning Etruscan scholarship As Bonfante explains in the introductory chapter The Etruscans

provide an excellent opportunity of turning archaeology into history this we tried to do in our chapters according to our individual directions Nancy Thomson de Grummond traces the interest in and knowledge of the Etruscans from the earliest days Mario Torelli provides an independent account of Etruscan history based on monuments and sources Jean MacIntosh Turfa belies the cliché of the Etruscans traditional isolation by surveying the material evidence for their trade with the Phoenicians Greeks and other neighbors in the Mediterranean Marie Fran oise Briguet Friedhelm Prayon David Tripp and I survey Etruscan art architecture coinage and daily lives respectively Emeline Richardson contributes what she calls a primer in the Etruscan language a basic archaeological introduction to the Etruscan language meant to help newcomers read the inscriptions on many of the monuments illustrated and to see these with the interdisciplinary approach so characteristic of and necessary in Etruscan studies The book is profusely illustrated with over 300 photos and maps Notes and bibliographic references lead to standard texts on the Etruscans and to the more specialized literature in the field The result is a reliable and lively volume which brings readers into the mainstream of the latest Etruscan scholarship
