The Oxford Handbook of Nineteenth-Century Women Philosophers in the German Tradition Kristin Gjesdal, Dalia Nassar, 2024 This Oxford Handbook celebrates the work of trailblazing women in the history of modern philosophy Through thirty one original chapters it engages with the work of women philosophers spanning the long nineteenth century in the German tradition and covers women's contribution to major philosophical movements including romanticism and idealism socialism and Marxism Nietzscheanism feminism phenomenology and neo Kantianism It opens with a section on figures offering essays focused on fifteen thinkers in this tradition before moving on to sections of essays on movement and topics Across the volume's chapters essays examine women's contributions to key philosophical areas such as epistemology and metaphysics aesthetics ethics social and political philosophy ecology education and the philosophy of nature **Women Writers in German-Speaking Countries** Elke P. Frederiksen, Elizabeth G. Ametsbichler, 1998-02-28 Women have contributed to the literature of German speaking countries since the Middle Ages and they continue to write important works at the close of the 20th century While research on texts by women writers in German speaking countries has increased substantially most of these authors remain virtually unknown to English speaking scholars and students The first work of its kind in English this reference book contains alphabetically arranged entries for 54 Austrian German and Swiss women writers such as Hrotsvit von Gandersheim Louise Aston Elfriede Jelinek and Erica Pedretti from the tenth century to the present day Each entry includes a biography a discussion of major themes a survey of criticism and a bibliography of primary and secondary sources An introductory essay overviews the history of literature by women in German speaking countries and an extensive bibliography concludes the volume Women have actively shaped literature in German speaking countries from the Middle Ages to the present day These authors continue to enrich the world of letters and an increasing amount of scholarly attention is given to their writings In spite of their contributions however most of these writers are virtually unknown to English speaking scholars and students And though one of the explicit goals of feminist literary and cultural studies has been to provide a voice to a multitude of diverse authors feminist research still seems to focus heavily on texts by authors such as Christa Wolf Ingeborg Bachmann and Bettina von Arnim or on certain periods in 19th and 20th century German literature and culture As a result many other women authors have faded into obscurity Through entries written by expert contributors this reference book provides insights into the life and writings of 54 women authors from German speaking countries Entries are arranged alphabetically to facilitate use while an appendix lists the writers chronologically Included are profiles of authors from the tenth century to the present day such as Hrotsvit von Gandersheim Louise Aston

Elfriede Jelinek and Erica Pedretti Each entry includes a biography a discussion of major themes and stylistic features a survey of criticism and a bibliography of primary and secondary sources An introductory essay overviews the history of literature by women in German speaking countries and provides a theoretical context for the work and an extensive bibliography of secondary sources concludes the volume **Women from the Parsonage** Cindy K. Renker, Susanne Bach, 2019-02-19 This volume provides a new context for women's writing from the seventeenth through the end of the nineteenth century highlighting the significant role of the parsonage and the parson himself for women's education in those centuries Cindy K Renker and Susanne Bach's collection of essays is the first of its kind on the education lives and works of highly accomplished daughters of Protestant clergymen Since this volume only represents a limited number of women raised and educated in parsonages it will surely encourage more investigation of other women writers translators educators etc with similar backgrounds Moreover since this book takes a comparative and transnational approach by focusing on different regions of Europe and different centuries This collection of essays is thus aimed at scholars in multiple fields such as British literature German studies gender studies the history of women's education and social and cultural history *Geschichte der deutschen Literatur. Ein Lehr- und Lesebuch für Schule und Haus* Karl Julius SCHROEER, Carl Julius Schröer, 1853

Reference Guide to World Literature Tom Pendergast, 2003 Covers writers from the ancient Greeks to 20th century authors Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature Each author entry provides a detailed overview of the writer's life and works Work entries cover a particular piece of world literature in detail **Gender, Canon and Literary History** Ruth Whittle, 2013-08-28 It has been shown that the total number of women who published in German in the 18th and 19th centuries was approximately 3 500 but even by 1918 only a few of them were known The reason for this lies in the selection processes to which the authors have been subjected and it is this selection process that is the focus of the research here presented The selection criteria have not simply been gender based but have had much to do with the urgent quest for establishing a German Nation State in 1848 and beyond Prutz Gottschall Kreyig and others found it necessary to use literary historiography which had been established by 1835 in order to construct an ideal of Germanness at a time when a political unity remained absent and they wove women writers into this plot After unification in 1872 this kind of weaving seemed to have become less pressing and other discourses came to the fore especially those revolving round femininity vs masculinity and races The study of the processes at work here will enhance current debates about the literary canon by tracing its evolution and identifying the factors which came to determine the visibility or obscurity of particular authors and texts The focus will be on a number of case studies but instead of isolating questions of gender Gender Canon and Literary History will discuss the broader cultural context *Deutsches Lesebuch für Gymnasien und Realschulen* Maximilian Wilhelm Göttinger, 1852 **1870/71 - 1989/90** Walter Pape, 2013-08-08 No detailed description available for 1870 71 1989 90
