*The Pan American Book Shelf*, 1941      **The Andes** Jason Wilson, 2009-09-03 The Andes form the backbone of South America Irradiating from Cuzco the symbolic navel of the indigenous world the mountain range was home to an extraordinary theocratic empire and civilization the Incas who built stone temples roads palaces and forts The clash between Atahualpa the last Inca and the illiterate conquistador Pizarro between indigenous identity and European mercantile values has forged Andean culture and history for the last 500 years Jason Wilson explores the 5 000 mile chain of volcanoes deep valleys and upland plains revealing the Andes mystery inaccessibility and power through the insights of chroniclers scientists and modern day novelists His account starts at sacred Cuzco and Machu Picchu moves along imagined Inca routes south to Lake Titicaca La Paz Potos and then follows the Argentine and Chilean Andes to Patagonia It then moves north through Chimborazo Quito and into Colombia along the Cauca Valley up to Bogot and east to Caracas Looking at the literature inspired by the Andes as well as its turbulent history this book brings to life the region s spectacular landscapes and the many ways in which they have been imagined      *The Horsemen of the Americas and the Literature They Inspired* Edward Larocque Tinker, 2014-11-11 Wherever cattle have been raised on a large scale horsemen have been there to handle them and wherever these horsemen have existed they have left an indelible mark upon the history of the land Frequently they have been ignorant violent and brutal Always they have been vigorous and individualistic They have taken their herds into frontier areas opened new country fought and driven off earlier inhabitants participated in revolutions battled among themselves and generally lived lives which colorful and somewhat frightening to their contemporaries have become robust legends to those who followed them Edward Larocque Tinker portrays the life of these people in the two Americas the conditions which created them and those that ultimately destroyed or transformed them Ever since I was a small boy when my parents returned from Mexico bringing me a charro outfit complete with saddle and bridle Latin America has beckoned with the finger of romance Mr Tinker recalls As soon as I was old enough I made many trips to Mexico and in the days of Porfirio Diaz learned to know it from the border to the Isthmus of Tehuantepec During the Revolution I was with General Ivaro Obregón when he was a Teniente Coronel in his Sonora Campaign and although I was only a lawyer on a holiday took care of his wounded in the battle of San Joaquín Later in Pancho Villa s train I was present at Celaya when he was defeated by Obregón Always an ardent horseman I worked many a roundup with the vaqueros of Sonora and Chihuahua and with the cowboys of our Southwest I saw the similarity between the American cowboy the Argentine Gaucho and the Vaquero of Mexico They all received their gear and technique of cattle handling from Spain and developed the same independence courage and hardihood I thought if these qualities were better known they might serve as a bridge to closer understanding throughout the Americas From his study of the lives of these horsemen Tinker proceeds to an examination of the literature that evolved among and then about them The first and largest part of the book deals with the gaucho of Argentina and Uruguay The

second and third sections examine the charro of Mexico and the cowboy of the United States *New York Herald Tribune Books*, 1929 *The Spanish American Novel* John S. Brushwood, 2014-07-03 In *The Spanish American Novel* John S. Brushwood analyzes the twentieth century Spanish American novel as an artistic expression of social reality In relating the generic history of the novel to extraliterary events in Spanish America he shows how twentieth century fiction sets forth the essence of such phenomena as the first Per n regime the Mexican Revolution the Che Guevara legend indigenismo and the strongman political type In essence he views the novel as art rather than as document but not as art alienated from society The discussion is organized chronologically opening with the turn of the century and focusing on novels from 1900 to 1915 that exemplify various aspects of the nineteenth century literary inheritance Brushwood then highlights the avant garde fiction influenced by Proust and Joyce of the 1920s as a precursory movement to the new Latin American novel a phenomenon that came into its own during the 1940s He then examines the boom in Spanish American fiction the period of extensive international recognition of certain works which he dates from 1962 or 1963 In each era considered the development of the novel is placed in dual perspective One view that of particularly significant novels in light of others published during the same year is a cross section of the genre at one particular moment The second view that of a panorama of novels published in intervals between significant moments in the history of the novel is more general and selective in the number of books discussed Combining the historical with the analytical approach the author proposes that the experience of a novel in which reality has been transformed into art is essential to our understanding of that reality *The New International Year Book*, 1928 **General Catalogue of Printed Books** British Museum.
