Foundations Of New Socialism A Vision For The Third Millennium:

Foundations of New Socialism Robert Corfe, 2001 How can sincere support be given wholly to a political party unless it has clear principles underpinning its base Such a question is of particular relevance when asked of the Labour party in view of the events which have shattered the foundations of socialism worldwide over the past decade The author who has considerable practical experience as a Labour party activist sets out to re establish the concept of socialism as a vision for the future But the forward looking views of New Socialism need to be very different from the old The transformation of society over the past 60 years means that old doctrines have to be replaced by new if socialism is to be made attractive to the modern man or woman Freedom From America Robert Corfe, 2006-01-16 Anti Americanism has now become an

imperative for the sanity and stability of the world Over the past 30 years almost every foreign adventure of the US has led to failure in compounding existing problems and after the withdrawal of her forces conditions have been left worse than when she intervened Added to that is the resistance of her government to recognise the reality of global warming and most recently blundering policies have instigated a series of unexpected terrorist outrages on innocent victims which have made the world a more dangerous place There are many justifications for anti Americanism but there is one which rises above all others viz a financial industrial system which clashes with the long traditions of the social democracies in Europe and the Far East Two incompatible capitalist systems have emerged amongst the advanced industrial economies in the post War period the Rentier capitalism of the US and the Productive capitalism of Europe and the Far East Each is guided by its own ideology the Neo liberalism of America versus the social democracy a broad term transcending party politics of Europe and the Far East Tiger economies With America emerging as the clear victor of the Cold War in 1989 her government and corporations have been sufficiently confident to impose their financial industrial system on the rest of the world and this is proving disastrous to the social democratic consensus and welfare policies built up since 1945 and before The argument is propagated that the European is no longer viable and must therefore surrender to the American way and globalisation but this is shown to be a fiction invented by US policy makers There is an in depth analysis of American culture which explains its political system and the US is revealed to be very far from a true democracy It is in Europe and elsewhere where the ideals of democracy justice and equity are best promoted The final chapters home in on a European resolution to the most difficult problems of our time viz the Israeli Palestinian conflict and how to defuse the causes of Terror The book is an appeal for the cause of civilisation social justice and equity for all humanity The Modern Universal Paradigm Rodney Shakespeare, 2007

Local Democracy in Modern Mexico Arturo Flores, 2005 This in depth study of local government in Mexico raises issues which go far beyond the territory it covers It will be of absorbing interest to all students of local democracy and participatory methods not only in Latin America but in Western and Eastern Europe the USA Africa Asia and elsewhere where initiatives and experimentation are driven by socio economic change Everywhere citizen participation has become an

important part of the democratisation debate and this is certainly the situation in contemporary Mexico This book presents a revealing insight of the wide range of participatory mechanisms including plebiscites referenda and neighbourhood committees which have been introduced by different political parties at the local level in Mexico After presenting the overall picture the author examines the implementation of the participatory agenda in three localities Socialism Hyman Frankel,2010-09-01 It is aimed at those especially young people who have just become involved politically as well as those engaged in single issue movements having come across the word socialism and want to know more about it It is not a detailed text book on the subject The author was a full time trade union official most of his working life he is now retired and was also involved politically on the left so is able to write with some experience and knowledge on the subject The book opens with an attempt to describe capitalism as it is now then deals with the basic ideas of socialism It then takes the reader more deeply into the politics and economics of socialism from a Marxist standpoint The remaining chapters deal with various social problems of today including the growing gap between rich and poor and between rich and poor nations feminism racism democracy freedom and liberty under socialism etc It considers the road to socialism in the light of past attempts to set up socialist regimes e g the Paris Commune of 1870 71 and the Russian Revolution from 1917 to the collapse of the Soviet system in 1989 91 It has a chapter on the history of the idea of socialism communism in Britain and Europe It also deals with the present and the future of the several new Latin American left wing regimes and concludes with a discussion of the situation in Britain today in the light of the New Labour government s swing to the right It arrives at a conclusion that the future of socialism in Britain if it has a future at all lies with ordinary people and their battle for political and economic democracy peace liberty and justice Fabian Review ,2006 *IBSS: Political Science: 2002 Vol.51* Compiled by the British Library of Political and Economic Science,2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2002 234x156 0 415 32634 6 u195 00 Economics 2002 Vol 51 December 2002 234x156 0 415 32635 4 u195 0 0 Political Science 2002 Vol 51 December 2002 234x156 0 415 32636 2 u195 00 Sociology 2002 Vol 52 December 2002 234x156 0 415 32637 0 u195 00 *New Socialist Business Values* Eddie Miller,Robert Corfe,2002 This is Robert Corfe

Di Scala,1988-07-14 The first comprehensive history of Italian Socialism in English this book ranges from the defeat of Socialism by Mussolini in 1926 to its resurgence as a powerful force in Italian politics today Di Scala has not only combed the archives of Italy and America but also interviewed an array of prominent Italian and American sources providing testimonies that are themselves likely to become important historical documents His sweeping intensive survey sheds new light on important Socialists such as Rodolfo Morandi and Pietro Nenni and highlights the tremendous accomplishments of Italy s first Socialist prime minister Bettino Craxi Di Scala demonstrates that through a remarkable intellectual and political revival the Socialists overcame their subjection by the Communists and Christian Democrats and went on to radically transform the politics economy and international affairs of modern Italy

Reinventing Democratic Socialism Robert Corfe,2000 This work reformulates the theory and practice of socialism in the view of the transformation of society over the past 60 years Corfe aims to fulfill the hopes of those who feel that the Labour party and socialism worldwide has lost its way and is in need of a philosophy to point the way ahead
