Excerpt from *Fourteenth Century Verse Prose* Two periods of our early history promise most for the future of English literature the end of the seventh with the eighth century the end of the twelfth century with the thirteenth In the first a flourishing vernacular poetry is secondary in importance to the intellectual accomplishment of men like Bede and Alcuin to name only the greatest and the last of a line of scholars and teachers who drawing their inspiration from Ireland and still more from Italy direct made all the knowledge of the time their own and learned to move easily in the disciplined forms of Latin prose During the second the impulse again came from without In twelfth century France the creative imagination was set free In England which from the beginning of the tenth century had depended more and more on France for guidance the nobles clergy and entertainers in whose hands lay the fortunes of literature had a community of interest with their French compeers that has never since been approached So England shared early in the break with tradition and during the thirteenth century the native stock is almost hidden by the brilliant growth of a new graft Every activity of the mind was quickened A luxuriant invention of forms distinguished the Gothic style in architecture All the decorative arts showed a parallel enrichment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Fourteenth Century Verse & Prose*, Ed. by Kenneth Sisam Kenneth Sisam, 1978      *Fourteenth Century Verse and Prose. category of the literary that could embody a ethos of engaged worldly consensus and make that consensus available to imaginative and rational consideration And their reflections on the enterprise of literary study found a rational way free of cant to understand the work of the literary scholar This volume reprints eight essays The Idea of Public Poetry in the Reign of Richard II Chaucer s New Men and the Good of Literature in the Canterbury Tales The Physician s Tale and Love s Martyrs Ensamples Mo than Ten as a Method in the Canterbury Tales The Clerk and His Tale Some Literary Contexts Narration and the Invention of Experience Episodic Form in Piers Plowman Making a Good End John But as a Reader of Piers Plowman William Langland s Kynde Name Authorial Signature and Social Identity in Late Fourteenth Century England Life in the Margins or What s an Annotator to Do It includes one essay previously unpublished Playing the Plowman Legends of Fourteenth Century Authorship Fourteenth Century Verse and Prose Kenneth Sisam,1933 **Anglo-Papal Relations in the Early Fourteenth Century** Barbara Bombi,2019-07-23 This volume is concerned with diplomacy between England and the papal curia during the first phase of the Anglo French conflict known as the Hundred Years War 1305 1360 On the one hand Barbara Bombi compares how the practice of diplomacy conducted through both official and unofficial diplomatic communications developed in England and at the papal curia alongside the formation of bureaucratic systems On the other hand she questions how the Anglo French conflict and political change during the reigns of Edward II and Edward III impacted on the growth of diplomatic services both in England and the papal curia Through the careful examination of archival and manuscript sources preserved in English French and Italian archives this book argues that the practice of diplomacy in fourteenth century Europe nurtured the formation of a shared language of diplomacy The latter emerged from the need to translate different traditions thanks to the adaptation of house styles formularies and ceremonial practices as well as through the contribution of intermediaries and diplomatic agents acquainted with different diplomatic and legal traditions This argument is mostly demonstrated in the second part of the book where the author examines four relevant case studies the papacy s move to France after the election of Pope Clement V 1305 and the succession of Edward II to the English throne 1307 Anglo papal relations between the war of St Sardos 1324 and the deposition of Edward II in 1327 the outbreak of the Hundred Years Wars in 1337 and lastly the conclusion of the first phase of the war which was marked in 1360 by the agreement between England and France known as the Treaty of Br tigny Calais **Fourteenth Century Verse and Prose - Primary Source Edition** Kenneth Sisam,2014-02 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book **Fourteenth Century Verse and Prose** Kenneth Sisam,1921 *Catherine of Lancaster and her*

*Religious Court Poets* Lesley Twomey, 2024-07-18 This book offers an integrated study of the English princess and Castilian queen Catherine of Lancaster 1373 1418 drawing on available archival architectural and poetic sources in England and Spain Catherine s mother Queen of Castile in exile and father the powerful military commander John of Gaunt raised her to take the Castilian throne This volume connects Catherine s early life providing insights into those who promoted her cause from birth as Princess of Castile and her later life as Princess of Asturias then Queen consort and finally Dowager and Co regent of Castile Her influence on the Castilian court s poetic circles has not previously been connected to her English heritage Poetry written about her and influenced by her was compiled into a songbook presented to her son Juan II The book brings new understanding of the role an Englishwoman played in Trast mara Castile s turbulent history **The Medieval Consolation of Philosophy** Noel Harold Kaylor, Jr., 2019-07-08 Originally published in 1992 The Medieval Consolation of Philosophy is an annotated bibliography looking at the scholarship generated by the translations of the works of Boethius The book looks at translations which were produced in medieval England France and Germany and addresses the influence exercised by Boethius which extended into almost every area of medieval intellectual and artistic life The book acts in two ways as a whole the book acts as a bibliography and study of the European tradition of Consolatio translations but viewed on a chapter by chapter basis it is a collection of independent bibliographies on the individual vernacular traditions The book contains separate chapters looking at the Consolatio traditions of medieval France and Germany
