## **Fra Filippo Lippi Life And Work With A Complete Catalogue:**

*Fra Filippo Lippi* Jeffrey Ruda, 1993 Fra Filippo Lippi 1406-69 was one of the greatest artists of the early Renaissance. He was a leading pioneer of psychological realism and his richly expressive characters are a compelling revelation of Renaissance attitudes towards human experience. With a long introductory narrative, full catalogue raisonné and digest of documents, Jeffrey Ruda provides a full scholarly study of Lippi. Superbly produced and illustrated, this important and ambitious book presents an introduction to Lippi that can be enjoyed by scholars and non-specialists alike. **Fra Filippo Lippi & Filippino Lippi** Eliot W. Rowlands, Marilyn Bradshaw, 2016-04-01 Fra Filippo Lippi, a Carmelite monk who was one of the leading painters in Renaissance Florence, was patronized by the powerful Medici family. His large-scale altarpieces and fresco cycles had a decisive impact on the painting styles of the 16th century, and he produced some of the earliest autonomous portrait paintings of the Renaissance. His son, Filippino Lippi, became in turn one of the leading Florentine painters of the late 15th century, winning important civic and private commissions, including the decoration of the Strozzi Chapel in S. Maria Novella, Florence. This fully illustrated Grove Art Essentials title delves into the life and work of these two great artists, including an analysis of their working methods, techniques, and workshops. With the addition of an extensive bibliography, discover the art of these two masters of the Italian Renaissance with Grove Art Essentials. **"Women, Patronage, and Salvation in Renaissance Florence"** Stefanie Solum, 2017-07-05 Long obscured by modern definitions of historical evidence and art patronage, Lucrezia Tornabuoni de' Medici's impact on the visual world of her time comes to light in this book, the first full-length scholarly argument for a lay woman's contributions to the visual arts of fifteenth-century Florence. This focused investigation of the Medici family's domestic altarpiece, Filippo Lippi's *Adoration of the Christ Child*, is broad in its ramifications. Mapping out the cultural network of gender, piety, and power in which Lippi's painting was originally embedded, author Stefanie Solum challenges the received wisdom that women played little part in actively shaping visual culture during the Florentine Quattrocento. She uses visual evidence never before brought to bear on the topic to reveal that Lucrezia Tornabuoni, shrewd power broker, pious poetess, and mother of the Magnificent Lorenzo de' Medici, also had a profound impact on the visual arts. Lucrezia emerges as a fascinating key to understanding the ways in which female lay religiosity created the visual world of Renaissance Florence. The Medici case study establishes at long last a robust historical basis for the assertion of women's agency and patronage in the deeply patriarchal and artistically dynamic society of Quattrocento Florence. As such, it offers a new paradigm for the understanding and future study of female patronage during this period. **The Medici Women** Natalie R. Tomas, 2017-07-05 *The Medici Women* is a study of the women of the famous Medici family of republican Florence in the fifteenth and early sixteenth centuries. Natalie Tomas here examines critically the changing contribution of the women in the Medici family to the eventual success of the Medici regime and their exercise of power within it, and contributes to our historical understanding of how women were able to wield power in late

medieval and early modern Italy and Europe Tomas takes a feminist approach that examines the experience of the Medici women within a critical framework of gender analysis rather than biography Keeping the historiography to a minimum and explaining all unfamiliar Italian terms Tomas makes her narrative clear and accessible to non specialists thus *The Medici Women* appeals to scholars of women s studies across disciplines and geographical boundaries *Netherlandish and Italian Female Portraiture in the Fifteenth Century* Elisabetta Torenò,2025-10-01 This book investigates the aesthetic and conceptual characteristics of fifteenth century female portraiture on panel Portraits of women increased substantially during this century They formed part of a material and a visual culture borne out of the rapid rise of an oligarchy from entrepreneurial activities that was especially advanced in the urbanised territories of Italy and Flanders For this reason the portraits in this book are by Netherlandish and Italian painters They are simultaneously illustrative of the emancipation of the genre from its medieval idiom and of the responses to the matrix of patriarchy under which society was organised Patriarchy is an androcentric structure that places women in a paradoxical situation of legal and social disenfranchisement on the account of purported psychophysical inadequacy whilst making them the catalysts through arranged marriages for the success of the spheres of power which are controlled by men Thus these portraits are also a window into women s lives in this structure This book is the first systematic study of their sign system and of the feminine experience of seeing and being seen at the intersection of disciplines that include art history anthropology legal history philosophy The surprising results suggest new interpretations of form and function in female portraiture women s active role in the imaging process and the early instances of a pro women ideology *Culture and Change* Margaret Lael Mikesell,Adele F. Seeff,2003 These issues of city building and institutional change involved more than the familiar push and pull of interest groups or battles between bosses reformers immigrants and natives Revell explores the ways in which technical values a distinctive civic culture of expertise helped to reshape ideas of community generate new centers of public authority and change the physical landscape of New York City Jacket **The Cults of Raphael and Michelangelo** Tamara Smithers,2022-07-29 This study explores the phenomenon of the cults of Raphael and Michelangelo in relation to their death burial and posthumous fame or second life from their own times through the nineteenth century These two artists inspired fervent followings like no other artists before them The affective response of those touched by the potency of the physical presence of their art works personal effects and remains or even touched by the power of their creative legacy opened up new avenues for artistic fame divination and commemoration Within this cultural framework this study charts the elevation of the status of dozens of other artists in Italy through funerals and tomb memorialization many of which were held and made in response to those of Raphael and Michelangelo By bringing together disparate sources and engaging material as well as a variety of types of artworks and objects this book will be of great interest to anyone who studies early modern Italy art history cultural history and Italian studies *The Complete Vampire Chronicles 12-Book Bundle* Anne Rice,2013-03-25 An international bestseller and beloved
