Fragmented Truths:

Fragments of Truth Naomi Angel, 2022-08-15 In 2008 the Canadian government established a Truth and Reconciliation Commission TRC to review the history of the residential school system a brutal colonial project that killed and injured many Indigenous children and left a legacy of trauma and pain In *Fragments of Truth* Naomi Angel analyzes the visual culture of reconciliation and memory in relation to this complex and painful history In her analyses of archival photographs from the residential school system representations of the schools in popular media and literature and testimonies from TRC proceedings Angel traces how the TRC served as a mechanism through which memory trauma and visibility became apparent She shows how many Indigenous communities were able to use the TRC process as a way to claim agency over their memories of the schools Bringing to light the ongoing costs of transforming settler states into modern nations Angel demonstrates how the TRC offers a unique optic through which to survey the long history of colonial oppression of Canada's Indigenous populations

Fragmented Narrative Neil Sadler, 2021-07-28 With the rise and rise of social media today's communication practices are significantly different from those of even the recent past A key change has been a shift to very small units exemplified by Twitter and its strict 280 character limit on individual posts Consequently highly fragmented communication has become the norm in many contexts *Fragmented Narrative* sets out to explore the production and reception of fragmentary stories analysing the Twitter based narrative practices of Donald Trump the Spanish political movement Podemos and Egyptian activists writing in the context of the 2013 military intervention in Egypt Sadler draws on narrative theory and hermeneutics to argue that narrative remains a vital means for understanding allowing fragmentary content to be grasped together as part of significant wholes Using Heideggerian ontology he proposes that our capacity to do this is grounded in the centrality of narrative to human existence itself The book strives to provide a new way of thinking

about the interpretation of fragmentary information applicable both to social media and beyond Contributing to the emerging literature in existential media studies this timely volume will interest students scholars and researchers of narrative new media and language and communication studies

Journalism and Truth in an Age of Social Media James E. Katz,Kate K. Mays,2019-07-09 Truth qualities of journalism are under intense scrutiny in today s world Journalistic scandals have eroded public confidence in mainstream media while

pioneering news media compete to satisfy the public's appetite for news. Still worse is the specter of fake news that looms over media and political systems that underpin everything from social stability to global governance. This volume aims to illuminate the contentious media landscape to help journalism students, scholars, and professionals understand contemporary conditions and arm them to deal with a spectrum of new developments ranging from technology and politics to best practices. Fake news is among the greatest of these concerns and can encompass everything from sarcastic or ironic humor to bot-generated made-up stories. It can also include the pernicious transmission of selected biased facts, the use of incomplete or misleadingly selective framing of stories and photographs that editorially convey certain characteristics. This edited volume contextualizes the current fake news problem. Yet it also offers a larger perspective on what seems to be uniquely modern, computer-driven problems. We must remember that we have lived with the problem of people having to identify, characterize, and communicate the truth about the world around them for millennia. Rather than identify a single culprit for disseminating misinformation, this volume examines how news is perceived and identified, how news is presented to the public, and how the public responds to news. It considers social media's effect on the craft of journalism as well as the growing role of algorithms, big data, and automatic content production regimes. As an edited collection, this volume gathers leading scholars in the fields of journalism and communication studies, philosophy, and the social sciences to address critical questions of how we should understand journalism's changing landscape as it relates to fundamental questions about the role of truth and information in society.

Dreams, Illusion, and Other Realities Wendy Doniger O'Flaherty, 2015-05-14 Wendy Doniger O'Flaherty weaves a brilliant analysis of the complex role of dreams and dreaming in Indian religion, philosophy, literature, and art. In her creative hands, enchanting Indian myths and stories illuminate and are illuminated by authors as different as Aeschylus, Plato, Freud, Jung, Kurl G del Thomas, Kuhn, Borges, Picasso, Sir Ernst Gombrich, and many others. This richly suggestive book challenges many of our fundamental assumptions about ourselves and our world. Mark C. Taylor, New York Times Book Review. Dazzling analysis. The book is firm and convincing once you appreciate its central point, which is that in traditional Hindu thought, the dream isn't an accident or byway of experience but rather the locus of epistemology. In its willful confusion of categories, its teasing readiness to blur the line between the imagined and the real, the dream actually embodies the whole problem of knowledge. O'Flaherty wants to make your mental flesh creep, and she succeeds. Mark Caldwell, Village Voice.

William S. Burroughs, Metaphysical Detective Jackson Evil, 2023-12-23 William S. Burroughs' *Metaphysical Detective* is a genre-defying exploration of the metaphysical, blending elements of detective mystery, science fiction, and surrealist fantasy. The narrative is a kaleidoscope of cosmic mysteries where the line between reality and the fantastical blurs, and the protagonist's journey becomes a metaphorical dance in the cosmic symphony of existence. In the imaginary city of Interzone, where the neon-lit streets pulse with enigmatic energies, Detective William S. Burroughs embarks on a surreal mystery through multidimensional realities populated with literary outlaws and strange beings. The narrative weaves a tale of satirical metaphors in electric

imagery and wordplay that bends the boundaries of language and reality The story unfolds across 25 chapters each with a unique blend of hard boiled detective noir surreal science fiction and mind bending plot twists Burroughs armed with a golden gun and guided by the Language of the Dead navigates the mysterious alleys celestial gardens and esoteric cathedrals of Interzone As the detective delves deeper he faces a series of cosmic challenges from an esoteric cathedral to an ethereal gateway and a cosmic apex The narrative takes unexpected turns weaving in the cosmic symphony a tapestry of temporal flux celestial symbols and occult mysteries Burroughs journey culminates in his rebirth as a cosmic guardian tasked with safeguarding Interzone s eternal secrets The beatniks Lexicographers and Nova accompany him in the ongoing dance of revelations and the novel concludes with a cosmic resonance that echoes through the neon jungle that is the Naked City of Interzone

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 11: Khayyami Robaiyat: Re-Sewing the Tentmaker's Tent: 1000 Bittersweet Wine Sips from Omar Khayyam's Tavern of Happiness Mohammad H. Tamdgidi, 2024-10-25 Omar Khayyam s Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 11th volume subtitled Khayyami Robaiyat Re Sewing the Tentmaker s Tent 1000 Bittersweet Wine Sips from Omar Khayyam s

Tavern of Happiness Each book independently readable can be best understood as a part of the whole series In Book 11 having shared the three parts of the Robaiyat attributed to Khayyam in the Books 8 9 and 10 of the series Tamdgidi offers the entire set of the 1000 quatrains including the Persian originals and his new English verse translations for each The poems comprising Khayyam s songs of doubt hope and joy are organized according to the three phased method of inquiry he introduced in his philosophical writings respectively addressing the questions Does Happiness Exist What Is Happiness and Why Does or Can Happiness Exist When Khayyam discussed the three phased method of inquiry in his treatise Resalat fi al Kown wa al Taklif Treatise on the Created World and Worship Duty he noted an exception to the rule of asking when studying any subject whether it exists what it is and why it exists or can exist He distinguished between things objectively existing independent of the human mind and those created by the human mind The normal procedure applies to the former but for products of the human mind he advised the procedure must be modified to asking first what something is then whether it exists and then why it exists or can exist This is because for products of the human mind such as created works of art we would not know whether something exists and why it exists unless we first know what it is To illustrate his point he used the example of the mythical bird Anqa Simorgh in Persian or the Phoenix in English He argued that only when we know what the metaphor stands for would we be able to say whether it exists say in a work of art or even as a person represented by it and why it exists or can exist Khayyam s elaboration implies that one has to make a distinction between objective and human objectified realities which implies that for some objects such as happiness we in fact confront a hybrid reality where aspects of it may be externally conditioned but other aspects being dependent on the human will Once we realize the significance of Khayyam s point then we appreciate that his Robaiyat can also be regarded as a way of poetically portraying and advancing human happiness its poetic Wine being not just reflective but also generative of the happiness portrayed By way of his poetry therefore Khayyam has offered a severe critique of the then prevalent fatalistic astrological worldviews blaming human plight on objective conditions in favor of a conceptualist view of reality in which happiness can be achieved despite the odds depending on the creative human agency itself being an objective force Tamdgidi further shows that the triangular geometry of the logic governing Khayyam s Robaiyat the numerical values of whose three sides are proportional to the Grand Tent governing Khayyam s birth chart further supports the view expressed in Khayyam s own quatrains that for him his Robaiyat poetically represented the tent of which he regarded himself to be a tentmaker revealing another key explanation for his pen name The geometric structure of a tent proportional to the Grand Tent of Khayyam s chart as well as the metaphor of the Robaiyat as Simorgh songs are hidden in the deeper structure of Khayyam s 1000 piece solved puzzle the same way he embedded his own triangular golden rule in the design of the North Dome of Isfahan Khayyam s Robaiyat are his Simorgh s millennial rebirth songs served in his tented tavern as 1000 sips of his bittersweet Wine of happiness

from Alasdair MacIntyre's *After Virtue* In the midst of the unsettling cultural shifts from modernity to postmodernity a new monastic movement is arising that strives to be a faithful witness to the gospel These new monastic communities seek to participate in Christ's life in the world and bear witness by learning to live intentionally as the church in Western culture This movement is about finding the church's center in Christ in the midst of a fragmented world overcoming the failure of the Enlightenment project and our complicity with it resisting the temptation to Nietzschean power and building communities of disciples This new edition is greatly enlarged from the original volume It includes responses to critics of the new monasticism such as D A Carson an entirely new chapter on the Nietzschean temptation an afterword on properly understanding the new monastic movement the dangers it faces and the work yet to be done as well as an appendix on the supposed post modern agenda of Jonathan Wilson and Brian McLaren For those striving to understand the path the church should take in this fragmented world this book is essential reading
