

# France And Munich A Study In Decision Making In International Affairs

**Alexander J. Groth**

## **France And Munich A Study In Decision Making In International Affairs:**

France and Munich Yvon Lacaze, 1995 Traces French Czechoslovak relations from World War I to the Munich Crisis with special reference to the roles played by the USSR Italy Poland and the United States Lacaze analyzes the decision making process at Munich emphasizing French policies and actions

**The Tragedy of Great Power Politics** John J. Mearsheimer, 2001 With insight and irreverence Mearsheimer exposes a world where no international authority reigns and hegemony is the only insurance of security This book will invigorate academics vex politicians and excite even the casual observer of international affairs 9 maps

**France in 1938** Benjamin F. Martin, 2006-09-01 When Benjamin Martin's latest report from the front of French fallibility does not read like a tragedy whose end is foreordained it reads like a melodrama sensational doings punctuated by catchy melodies like L Internationale and La Marseillaise In both cases it reads well French life in the run up to World War II was a gangrenous decomposition to be followed by still worse The country's leaders found nary a pratfall that they could avoid They chose a semblance of peace above honor and ended up with neither In spite of a masterful prologue successful synthesis elegant concision and lucid presentation or perhaps thanks to them the reader can't help sharing the nation's shames A tribute to the historian's talent Eugen Weber Phi Beta Kappa Key Reporter At the beginning of 1938 containment of Nazi Germany by a coalition of eastern and western democracies without resorting to war was still a distinct possibility By the end of 1938 however Germany was much stronger the western democracies stood alone and war was all but certain The primary cause for these developments argues Benjamin F Martin was the foreign and domestic policies adopted by the French government and embraced by the French people In a riveting account of the dark days leading up to France's defeat and occupation Martin reveals a great and civilized nation committing a kind of suicide in 1938 Using movies novels newspapers and sensational court cases Martin weaves an absorbing tale of France's collective fear and melancholy during this troubled prewar period

Public Opinion and the End of Appeasement in Britain and France Daniel Hucker, 2016-04-15 The 1930s policy of appeasement is still fiercely debated by historians critics and contemporary political commentators more than 70 years after the signing of the 1938 Munich Agreement What is less well understood however is the role of public opinion on the formation of British and French policy in the period between Munich and the outbreak of the Second World War not necessarily what public opinion was but how it was perceived to be by those in power and how this contributed to the policymaking process It therefore fills a considerable gap in an otherwise vast literature seeking to ascertain the extent to which public opinion can be said to have influenced the direction of foreign policy in a crucial juncture of British and French diplomatic history Employing an innovative and unique methodological framework the author distinguishes between two categories of representation firstly reactive representations of opinion the immediate and spontaneous reactions of the public to circumstances and events as they occur and secondly residual representations which can be defined as the remnants of previous memories and experiences the more general tendencies of

opinion considered characteristic of previous years even previous decades It is argued that the French government of douard Daladier was consistently more attuned to the evolution of reactive representations than the British government of Neville Chamberlain and consequently it was the French rather than the British who first pursued a firmer policy towards the European dictatorships This comparative approach reveals a hitherto hidden facet of the diplomatic prelude to the Second World War that British policy towards France and French policy towards Britain were influenced by their respective perceptions of public opinion in the other country A sophisticated analysis of a crucial period in international history this book will be essential reading for scholars of the origins of World War II the political scenes of late 1930s Britain and France and the study of public opinion and its effects on policy

**Public Opinion and the End of Appeasement in Britain and France** Dr Daniel Hucker,2013-07-28 The 1930s policy of appeasement is still fiercely debated by historians critics and contemporary political commentators more than 70 years after the signing of the 1938 Munich Agreement What is less well understood however is the role of public opinion on the formation of British and French policy in the period between Munich and the outbreak of the Second World War not necessarily what public opinion was but how it was perceived to be by those in power and how this contributed to the policymaking process It therefore fills a considerable gap in an otherwise vast literature seeking to ascertain the extent to which public opinion can be said to have influenced the direction of foreign policy in a crucial juncture of British and French diplomatic history Employing an innovative and unique methodological framework the author distinguishes between two categories of representation firstly reactive representations of opinion the immediate and spontaneous reactions of the public to circumstances and events as they occur and secondly residual representations which can be defined as the remnants of previous memories and experiences the more general tendencies of opinion considered characteristic of previous years even previous decades It is argued that the French government of douard Daladier was consistently more attuned to the evolution of reactive representations than the British government of Neville Chamberlain and consequently it was the French rather than the British who first pursued a firmer policy towards the European dictatorships This comparative approach reveals a hitherto hidden facet of the diplomatic prelude to the Second World War that British policy towards France and French policy towards Britain were influenced by their respective perceptions of public opinion in the other country A sophisticated analysis of a crucial period in international history this book will be essential reading for scholars of the origins of World War II the political scenes of late 1930s Britain and France and the study of public opinion and its effects on policy

*Democracies Against Hitler* Alexander J. Groth,2018-08-10 First published in 1999 what the confrontation between democracies and Hitlerism tells us about democracy is the subject of this book It examines the response of political democracies to the phenomenon of Hitlerism beginning with democracy in Germany itself in the 20 s and 30 s and ending up with Britain and the U S in the 40 s Contrary to mythology this response was far more a failure than a success An iconoclastic treatment it anticipates the crises of the future

**The Origins of the**

**Second World War** R. J. Overy, 2014-01-14 The Origins of the Second World War explores the reasons why the Second World War broke out in September 1939 and not sooner and why a European war expanded into world war by 1941 Richard Overy argues that this was not just Hitler's War but one that had its roots and origins in the decline of the old empires of Britain and France and the rise of ambitious new powers in Germany Italy and Japan Any explanation of the outbreak of hostilities must be multinational in scope taking into account the basic instability of the international system that had still not recovered from the shocks of the Great War In this third edition The role of Italy in the approach to war has been re-evaluated Overy addresses recent revelations about Soviet policy in the 1930s particularly exploring Soviet military planning and preparations Arguments about Chamberlain and his policy of appeasement are rethought and reassessed This new edition has now been completely overhauled updated expanded and reset With a comprehensive documents section colour plates Guide to Who's Who and a Chronology The Origins of the Second World War will provide an invaluable introduction to any student of this fascinating period Page 4 of cover

**The Origins of the Second World War** Richard Overy, 2022-04-11 Now in its fifth edition The Origins of the Second World War explores the reasons why the Second World War broke out in September 1939 and why a European conflict developed into a war that spanned the globe This book argues that the global conflict was not just Hitler's War but one that had its roots and origins in the decline of the old empires of Britain and France and the rise of ambitious new powers in Germany Italy and Japan who wanted large empires of their own Richard Overy covers the origins of the war from its background in the First World War to its expansion to embrace the Soviet Union Japan and the United States by the end of 1941 Creating a comprehensive and analytical narrative while remaining a succinct overview of the subject this book takes a thematic approach to the complex range of events that culminated in global warfare discussing factors such as economic rivalry rearmament and domestic politics and emphasizing that any explanation of the outbreak of hostilities must be global in scope This new edition includes more discussion of the role of empire and the imperial background to the war Containing several new primary source documents alongside a glossary a chronology of key events and a who's who of important figures this book is an invaluable introduction for any student of this fascinating period in history

**Condemned to Repeat it** Sheldon R. Anderson, 2008-01-01 Condemned to Repeat It examines the historical myths that underwrote U S containment policy during the Cold War Anderson argues that the historical record does not support the applicability of lessons learned from nineteenth century great power diplomacy peacemaking at the end of World War One the Munich Agreement and the Yalta Conference

**1995** Massimo Mastrogregori, 2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical

index and indexes of persons and authors      **Foreign Affairs Research Papers Available** Foreign Affairs Research Documentation Center,1976      **French Foreign and Defence Policy, 1918-1940** Robert Boyce,2005-06-20 With contributions from leading scholars in the field this book examines France s strategies for protection against Germany and appeasement during this period and places interwar relations in a larger European context      Advancing Interdisciplinary Approaches to International Relations Steve A. Yetiv,Patrick James,2016-11-24 This edited volume breaks new ground by innovatively drawing on multiple disciplines to enhance our understanding of international relations and conflict The expansion of knowledge across disciplines and the increasingly blurred boundaries in the real world both enable and demand thinking across intellectual borders While multidisciplinary and interdisciplinary are prominent buzz words remarkably few books advance them Yet doing so can sharpen and expand our perspective on academic and real world issues and problems This book offers the most comprehensive treatment to date and is an invaluable resource for students scholars and practitioners      *The Triumph of the Dark* Zara Steiner,2011-03-31 In this magisterial narrative Zara Steiner traces the twisted road to war that began with Hitler s assumption of power in Germany Covering a wide geographical canvas from America to the Far East Steiner provides an indispensable reassessment of the most disputed events of these tumultuous years Steiner underlines the far reaching consequences of the Great Depression which shifted the initiative in international affairs from those who upheld the status quo to those who were intent on destroying it In Europe the 1930s were Hitler s years He moved the major chess pieces on the board forcing the others to respond From the start Steiner argues he intended war and he repeatedly gambled on Germany s future to acquire the necessary resources to fulfil his continental ambitions Only war could have stopped him an unwelcome message for most of Europe Misperception miscomprehension and misjudgment on the part of the other Great Powers leaders opened the way for Hitler s repeated diplomatic successes It is ideology that distinguished the Hitler era from previous struggles for the mastery of Europe Ideological presumptions created false images and raised barriers to understanding that even good intelligence could not penetrate Only when the leaders of Britain and France realized the scale of Hitler s ambition and the challenge Germany posed to their Great Power status did they finally declare war      **The Influence of Public Opinion on Post-Cold War U.S. Military Interventions** Helene Dieck,2016-01-18 Based on interviews with political decision makers involved in post Cold War case studies this research reassesses the prevalent conclusion in the academic literature according to which American public opinion has limited influence on military interventions by including the level of commitment in the study of the decision making process      **Origins of the Second World War Reconsidered** Gordon Martel,2002-02-07 When A J P Taylor s *The Origins of the Second World War* appeared in 1961 it made a profound impact The book became a classic and a central point of reference in all discussion on the Second World War The second edition of this distinguished collection written by leading experts in the field is designed to bring the state of the argument up to date The issues discussed include the legacy of the Treaty of

Versailles Hitler's foreign policy Appeasement AJP Taylor and the Russians the treatment of the crises leading up to war including the Anschluss Danzig Abyssinian crises and the Spanish Civil War This second edition will ensure that The Origins of the Second World War will remain a high priority student and scholarly reading list **Foreign Policy Analysis** Valerie M. Hudson, Benjamin S. Day, 2019-09-03 This succinct yet comprehensive introduction to Foreign Policy Analysis FPA is geared toward advanced undergraduate and beginning graduate students Cogently written clearly organized and filled with illuminating examples the third edition has been thoroughly revised and updated Beginning with an overview of this broad field of study Hudson and Day consider theory and research at multiple levels of analysis including personality and psychology of foreign policy decision makers small group dynamics the organizational process bureaucratic politics domestic politics cultural and societal influences national attributes and system level effects on foreign policy The authors also examine the promise and frustration of theoretical integration in FPA and overview promising new work by non North American scholars *The Oxford History of World War II* Richard Overy, 2023-02-01 Histories you can trust World War Two was the most devastating conflict in recorded human history It was both global in extent and total in character It has understandably left a long and dark shadow across the decades Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few And this growing distance in time has allowed historians to think differently about how to describe it how to explain its course and what subjects to focus on when considering the wartime experience For instance as World War Two recedes ever further into the past even a question as apparently basic as when it began and ended becomes less certain Was it 1939 when the war in Europe began Or the summer of 1941 with the beginning of Hitler's war against the Soviet Union Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941 And what of the long conflict in East Asia beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949 In *The Oxford History of World War Two* a team of leading historians re-assesses the conflict for a new generation exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states Under Richard Overy's expert editorial guidance the contributions take us from the genesis of war through the action in the major theatres of conflict by land sea and air to assessments of fighting power and military and technical innovation the economics of total war the culture and propaganda of war and the experience of war and genocide for both combatants and civilians concluding with an account of the transition from World War to Cold War in the late 1940s Together they provide a stimulating and thought provoking new interpretation of one of the most terrible and fascinating episodes in world history **The Oxford Illustrated History of World War II** R. J. Overy, 2015 World War Two re-assessed for a new generation from the 1930s through to the beginnings of the Cold War A stimulating and thought provoking new interpretation of one of the most terrible episodes in world history Power, Perception and Foreign Policymaking Scott Brown, 2017-11-13 This book examines the changing dynamics of power in the

international arena since the end of the Cold War Brown engages in analysis of how the United States and the European Union have responded to the so called rise of China through an examination of how policymakers perceptions of China have changed over time and influenced their policy choices This study undertakes rigorous analysis of how these perceptions have evolved between 1989 and 2009<sup>2016</sup> offering a comparative perspective on the similarities and differences between the policy discourse and behaviour within these two Western powers Brown argues that China s rise is a contested notion with varied perceptions of how the implications of China s ascendancy have shaped policy preferences in ways that are inconsistent with concerns over the threat of an impending power transition Combining concepts and methods derived from IR and FPA the book examines the linkages between great power politics and policymakers competing interpretations of key international actors and their influence upon foreign policies The main objective of the study is to illuminate the different ways in which the US and the EU have responded to the rise of China through a close analysis of their decision making processes and outcomes across a series of key encounters and events including the transatlantic debate over the EU s proposal to lift its China arms embargo 2003 2005 Undertaking qualitative analysis of the development of American and European policymakers perceptions of China this book will be of interest to graduates and scholars of post Cold War international politics Foreign Policy Analysis policymaking US China relations and EU China relations
