Foundations Of Tudor Policy:

Foundations of Tudor policy W. Gordon Zeeveld, 1948 *Foundations of Tudor Policy* William Gordon Zeeveld, 1948
No detailed description available for Foundations of Tudor Policy **Foundations of Tudor Policy** W. Gordon Zeeveld, 1981-01-01 *The Tudor Constitution* Elton, 1960-01-03 Based on J R Tanner s Tudor constitutional documents Bibliography p 471 481 The Varieties of British Political Thought, 1500-1800 J. G. A. Pocock, Gordon J. Schochet, Lois Schwoerer, 1993 A history of political debate and theory in England later Britain between the English Reformation and French Revolution Imagining Peace Ben Lowe, 2010-11-01 In this book Ben Lowe examines the developing language of peace in late medieval and Renaissance England He challenges the popular assumption that this was simply an age of war during which ideas of peace exercised very little impact on society and government He offers a close reading of English writers on peace integrating this analysis with careful attention to the political context particularly during times of war when calls for peace were more vocal Lowe traces the concept of peace from its early Christian usage up to the sixteenth century He focuses on the long period of foreign wars 1349 1560 often punctuated by domestic unrest when theories of peace were increasingly discussed within the larger context of war and policymaking Such practical concerns invariably led to a richer and more varied peace discourse For instance Lowe is able to show a shift in discussion away from platitudes such as the restoration of goodwill among Christians toward a more hard headed set of foreign policy problems such as famine inflation disruption of trade and the maintenance of the king s honor He draws on an extraordinarily wide variety of sources including theological and philosophical works sermons official prayers moral treatises commentaries military handbooks legal texts state papers chronicles fiction popular ballads diaries and personal letters Imagining Peace will appeal to others beyond historians of late medieval and early modern England Lowe applies methods from other disciplines especially literary and cultural studies and political theory His analysis takes into account the problems and limitations of reconstructing past thought and determining authorial intent Nonetheless the text remains surprisingly free of technical jargon making this a timely book for anyone interested in the origins of pacifism John Jewel and the English National Church Gary W. Jenkins, 2016-05-06 John Jewel 1522 1571 has long been regarded as one of the key figures in the shaping of the Anglican Church A Marian exile he returned to England upon the accession of Elizabeth I and was appointed bishop of Salisbury in 1560 and wrote his famous *Apologia Ecclesiae Anglicanae* two years later The most recent monographs on Jewel now over forty years old focus largely on his theology casting him as deft scholar adept humanist precursor to Hooker arbiter of Anglican identity and seminal mind in the formation of Anglicanism Yet in light of modern research it is clear that much of this does not stand up to closer examination In this work Gary Jenkins argues that far from serving as the constructor of a positive Anglican identity Jewel s real contribution pertains to the genesis of its divided and schizophrenic nature Drawing on a variety of sources and scholarship he paints a picture not of a theologian and humanist but an orator and rhetorician who

persistently breached the rules of logic and the canons of Renaissance humanism in an effort to claim polemical victory over his traditionalist opponents such as Thomas Harding By taking such an iconoclastic approach to Jewel this work not only offers a radical reinterpretation of the man but of the Church he did so much to shape It provides a vivid insight into the intent and ends of Jewel with respect to what he saw the Church of England under the Elizabethan settlement to be as well as into the unintended consequences of his work In so doing it demonstrates how he used his Patristic sources often uncritically and faultily as foils against his theological interlocutors and without the least intention of creating a coherent theological system

Sir Edward Coke and the Grievances of the Commonwealth Stephen D. White,1979 Society and Puritanism in Pre-Revolutionary England Christopher Hill,2018-09-25 In order to understand the English Revolution and Civil War we need to understand Puritanism In this classic work of social history Professor Hill shows Puritanism as a living faith one that responded to social as well as religious needs It was a set of beliefs that answered the hopes and fears of yeomen and gentlemen merchants and artisans in the tribulations of early modern Britain a time of extraordinary turbulence Over this period Puritanism he shows was interwoven into daily life He looks at how rituals such as oath taking the Sabbath bawdy courts and poor relief became ways to order the social upheaval He even offers an explanation for the emergence of the seemingly paradoxical the Puritan revolutionaries

Humanist Scholarship and Public Order Sir Richard Morison,1984 This study in intellectual history contains two pamphlets written as part of Henry VIII s propaganda campaign against resurgent Catholicism The editor s introduction discusses the effect of Italian Humanist scholarship on English life and political thought

A Genealogy of Public Security Giuseppe Campesi,2016-05-20 There are many histories of the police as a law enforcement institution but no genealogy of the police as a form of power This book provides a genealogy of modern police by tracing the evolution of police science and of police institutions in Europe from the ancien r gime to the early 19th century Drawing on the theoretical path outlined by Michel Foucault at the crossroads between historical sociology critical legal theory and critical criminology it shows how the development of police power was an integral part of the birth of the modern state s governmental rationalities and how police institutions were conceived as political technologies for the government and social disciplining of populations Understanding the modern police not as an institution at the service of the judiciary and the law but as a complex political technology for governing the economic and social processes typical of modern capitalist societies this book shows how the police have played an active role in actually shaping order rather than merely preserving it

Tudor Placemen and Statesmen Narasingha Prosad Sil,2001 This investigation thus seeks to examine the theory of the Tudor revolution in government advanced by the late Sir Geoffrey Elton and in so doing helps to highlight the human and personal dimensions of institutional history An outcome of this changed perspective is that the privy chamber acquires a higher profile following David Starkey s path breaking revisionist research than the privy council as postulated by Elton in the remarkable revolutionary decades of the sixteenth century

The Body Politic David George Hale,2021-03-22

No detailed description available for The Body Politic **Calvinism, Reform and the Absolutist State in Elizabethan Ireland** Mark A Hutchinson, 2015-10-06 Despite the best efforts of the English government Elizabethan Ireland remained resolutely Catholic Hutchinson examines this failure of the Protestant Reformation He argues that the emerging political concept of the absolutist state forms a crucial link between English policy in Ireland and the aims of the Calvinist reformers

Henry VIII J. J. Scarisbrick, 1968 First published in 1968 Jack Scarisbrick's *Henry VIII* is a book which focuses on the personality of this flamboyant and forceful monarch exploring an impulsive interventionist king whose impact on the government society and religion of England is felt more than four centuries on The Peril and Promise of Christian Liberty W. Bradford Littlejohn, 2017-05-05 How do Christians determine when to obey God even if that means disobeying other people In this book W Bradford Littlejohn addresses that question as he unpacks the magisterial political theological work of Richard Hooker a leading figure in the sixteenth century English Reformation Littlejohn shows how Martin Luther and other Reformers considered Christian liberty to be compatible with considerable civil authority over the church but he also analyzes the ambiguities and tensions of that relationship and how it helped provoke the Puritan movement The heart of the book examines how according to Richard Hooker certain forms of Puritan legalism posed a much greater threat to Christian liberty than did meddling monarchs In expounding Hooker's remarkable attempt to offer a balanced synthesis of liberty and authority in church state and conscience Littlejohn draws out pertinent implications for Christian liberty and politics today

Renaissance and Reform in Tudor England Tracey A. Sowerby, 2010-04-29 Sir Richard Morison c 1513 1556 is best known as Henry VIII's most prolific propagandist Yet he was also an accomplished scholar politician theologian and diplomat who was linked to the leading political and religious figures of his day Despite his prominence Morison has never received a full historical treatment Based on extensive archival research *Renaissance and Reform in Tudor England* provides a well rounded picture of Morison that contributes significantly to the broader questions of intellectual cultural religious and political history Tracey Sowerby contextualizes Morison within each of his careers he is considered as a propagandist politician reformer diplomat and Marian exile Morison emerges as a more influential and original figure than previously thought **The Monarchical Republic of Early Modern England** John F. McDiarmid, 2016-03-03 With its challenging paradoxical thesis that Elizabethan England was a republic which happened also to be a monarchy Patrick Collinson's 1987 essay *The Monarchical Republic of Queen Elizabeth I* instigated a proliferation of research and lively debate about quasi republican aspects of Tudor and Stuart England In this volume a distinguished international group of scholars examines the idea of the monarchical republic from the 1530s to the 1640s and tests the concept from a variety of points of view New suggestions are advanced about the pattern of development of quasi republican tendencies and of opposition to them and about their relation to the politics of earlier and later periods A number of essays focus on the political activity of leading figures at court several analyse political life in towns or rural areas others discuss education rhetoric linguistic thought and

reading practices poetic and dramatic texts the relations of politics to religious conflict gendered conceptions of the monarchy and monarchical republicanism in the new American colonies Differing positions in the scholarly debate about early modern English republicanism are represented and fresh archival research advances the study of quasi republican elements in early modern English politics Godly People Patrick Collinson,1982-07-01 Some of the sons and grandsons of the English Reformation the hotter sort were known to their contemporaries as puritans but they called themselves the godly This career spanning collection of essays by Patrick Collinson Regius Professor of Modern History at Cambridge University deals with numerous aspects of the religious culture of post Reformation England and its implications for the politics mentality and social relations of the Elizabethans and Jacobeans **British Political Thought, 1500-1660** Glenn Burgess,2009-04-20 Focusing on the interaction of religion and politics this is a comprehensive chronological survey of the political thought of post Reformation Britain which examines the work of a wide range of thinkers
