

THE FOUR CARDINAL PRINCIPLES OF TRADING

*How the World's Top Traders
Identify Trends, Cut Losses,
Maximize Profits & Manage Risk*

BRUCE BABCOCK

Four Cardinal Principles Of Trading

Victor M. Corman

Four Cardinal Principles Of Trading:

The Four Cardinal Principles of Trading Bruce Babcock, 1996 Professional traders utilize a wide variety of approaches to attack the markets. Regardless of the approach, virtually every top trader abides by four key principles: 1 Trade with the trend, 2 Cut losses short, 3 Let profits run, 4 Manage risk. In The Four Cardinal Principles of Trading, trading expert Bruce Babcock fully explains each principle and shows readers many alternatives for implementing the principles in their own trading. Consisting primarily of interviews with top traders, the book demonstrates that while there are many ways to trade, nearly all successful methods incorporate these axioms in some way. Featuring interviews with trading stars such as Larry Williams, Jack Schwager, and Jake Bernstein, the book is filled with dozens of important insights.

Trading with Oscillators Mark Etzkorn, 1997-12-29 The first new book in a generation to focus on the practical applications of trading with oscillators. Oscillators are an essential group of indicators that futures, options, and stock traders have embraced to reveal turning points in flat markets. In this pioneering book, Mark Etzkorn, Associate Editor of *Futures* magazine, comprehensively discusses the purposes and uses of such important oscillators as stochastic momentum, Elder Ray Williams %R, among many others, then focuses on Relative Strength Index (RSI), one of today's most popular oscillators. Etzkorn reveals how RSI measures the internal strength of a security, how to calculate it, and how to use it to make better decisions about accepting or rejecting particular market signals. Moreover, he demonstrates how investors can adapt, modify, and apply RSI across different market conditions and time periods, and combine it with other indicators, including Contrary Application and Tom De Mark's concept of duration.

MARK ETZKORN, Chicago, Illinois, is Senior Editor of *Futures* magazine, where he focuses on technical analysis and trading software. He has worked in the futures and options industry as a trader and broker at the Chicago Mercantile Exchange and The Board of Trade Clearing Corporation.

Day Trade Futures Online Larry Williams, 2000-05-29 Wiley Online Trading for a Living. When to get in, when to get out. Build, test, trade a winning system. Online brokers, research, market data. For those who are well suited to day trading and short-term trading, the futures market is one of the best games in town. As the original short-term vehicle, the futures market allows the trader to collapse the time frame in which he or she can reach the desired profit target or pain threshold. As a result, wins and losses are compounded much more quickly than in stock trading, and in the case of wins, often more profitably. The ability to gain leverage with very little on margin gives you the trader the ability to earn more off smaller swings. And enough home runs could allow you to become your own boss, work from home in your bathrobe, or even work from your cell phone while lying on the beach. So far, so good. But what does it take to win? In Day Trade Futures Online, award-winning veteran futures trader Larry Williams gives a no-holds-barred view of the risks and rewards of this increasingly accessible arena. His straightforward approach to helping you determine your trading personality is the first step. Then he offers traders what they really need: strategies and tactics designed to beat the futures markets. From hardware and software setup to trading psychology and successful strategizing, this highly readable book

covers all the bases needed to prepare you to trade online including Assessing your risk threshold Streamlining the glut of trading and price information to make it work for you The importance of knowing how to manage your money Choosing an online broker and utilizing other online resources such as news chat rooms and message boards When to get out of your trades Building a system based on Larry's time tested strategies and that's just for starters Also included are an appendix of basic futures concepts and a select bibliography of some of the best learning resources With good humor and brutal honesty Williams guides you in building the trading system that will work best for you GET IN ON THE ORIGINAL SHORT TERM GAME WITH BIG TIME PROFITS With unflinching honesty and decades of trading experience award winning veteran futures trader Larry Williams lends his expertise to the many aspects of futures trading online including Winning strategies Determining your trading personality The art of using the Internet Hardware and software solutions History and development of short term trading Praise for Larry Williams and day trade futures online Larry Williams the astute and experienced trader has presented the reader with many computer tested patterns that should give one an edge up in the hard world of day trading He not only gives the patterns he explains the why of market action and what it takes to be successful from a psychological and money management standpoint This is one of the best practical books ever written on trading by a veteran trader Buy it John Hill President Futures Truth Co Larry possesses an incredible talent to differentiate between what is important in life as well as in the markets In his book he shares insights into market behavior and short term price dynamics that are useful to beginning and experienced traders alike Whereas most day trading books merely discuss the market in generalities Larry focuses on computer tested techniques that can actually help make traders profitable This is Larry at his best and finest Tom DeMark President Market Studies Inc author of New Science of Technical Analysis and New Market Timing Techniques Day Trade Futures Online is another must have Larry Williams trading book That's because nearly all the profitable futures traders I've known have attributed their trading success to an idea or concept learned from Larry When Larry speaks you better listen Gary Smith author of How I Trade for a Living Trading Cultures in the Classroom Siegmar and Lois Muehl, 1993-04-01 Anyone curious about Chinese reflections on their own culture will find this book interesting and informative Pacific Affairs **Technical Analysis of Stocks and Commodities** ,2008 **Sources in Chinese History** David Atwill, Yurong Atwill, 2021-03-03 Sources in Chinese History now in its second edition has been updated to include re translations of over a third of the documents It also incorporates nearly 40 new sources that work to familiarize readers with the key events personages and themes of modern China Organized thematically the volume examines China's complex history from the rise of the Qing dynasty in the mid seventeenth century through the formation of the People's Republic of China up to the present Each chapter begins with an annotated visual source followed by a chapter introduction and analysis of textual sources allowing students to explore different types of sources and topics Sources in Chinese History contextualizes the issues trends and challenges of each particular period Special attention has been made to incorporate a

variety of viewpoints which challenge standard accounts Non traditional documents such as movie dialogues are also included which aim to encourage students to reconsider historical events and trends in Chinese history This volume includes a variety of sources such as maps posters film scripts memorials and political cartoons and advertisements that make this book the perfect introductory aid for students of Chinese history politics and culture as well as Chinese studies after 1600
