Otto E. Albrecht* Otto E. Albrecht, 1935 Bibliography of Medieval Drama Carl J. Stratman, 2023-11-15 The study of medieval drama has long been hindered by the absence of a centralized comprehensive bibliography that accommodates the wide ranging interests of scholars and students Existing references are often too narrow focusing exclusively on specific genres like mysteries and miracles or too limited in the number of entries While resources such as Wells s Manual provide some guidance their segmented supplements and restricted scope fall short of addressing the broader needs of the field This bibliography seeks to fill that gap by encompassing a wide range of materials including liturgical plays mysteries miracles moralities and interludes while excluding formal comedies tragedies and masques By incorporating not only English drama but also influential works from France Germany Italy and Spain the bibliography underscores the interconnectedness of medieval theatrical traditions across Europe Organized into twelve main divisions with detailed subdivisions the bibliography is designed for ease of use and practicality It includes general critical studies individual play editions and analyses of specific works all listed alphabetically for quick reference Each entry provides comprehensive bibliographic details including author names full titles publication information and pagination Starred entries highlight particularly authoritative works and cross references link materials spanning multiple categories Special attention is given to unique sections such as the comprehensive treatment of Everyman the rarely addressed writings of Hrotswitha and anthologies of cycle plays Additional resources include entries for unpublished masters and doctoral dissertations critical book reviews and Festschriften offering a multidimensional view of medieval drama scholarship To further assist researchers the bibliography incorporates practical tools such as library location symbols a subject indexing system for articles within books and an appendix that cross references plays with their

respective anthologies Manuscripts are cataloged wherever possible and periodical articles are represented using standard or custom symbols for efficient reference Appendices also provide information on library holdings of serial publications and trace plays across various collections This detailed organization ensures that the bibliography serves as both a foundational resource for beginners and an advanced tool for seasoned scholars encouraging deeper exploration and new contributions to the study of medieval drama This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1954      **Bibliography of Medieval Drama** ,      An Introduction to Jean Bodel Lynn T. Ramey, 2024-05-14 In this book Lynn Ramey explores the life and works of Jean Bodel a twelfth century French poet playwright and epic writer providing translations and summaries of works never published before in English while delving into Bodel s historical and cultural context      *The New Cambridge Bibliography of English Literature* George Watson, Ian Roy Willison, 1974      Studies in Romance Literature and Languages Johns Hopkins University, 1954      **Catalog of Copyright Entries. Copyright Office, 1936      *Harvard Dictionary of Music* Willi Apel, 1969 Contains nearly 1000 pages of precise and accessible information on all musical subjects      **Medieval English Theatre** Elisabeth Dutton, Olivia Robinson, 2021 This series provides a premier journal in early theatre studies Its name belies its wide range of interest it publishes articles on theatre and pageantry from across the British Isles up to the opening of the London playhouses and the suppression of the civic mystery cycles and also includes contributions on European and Latin drama together with analyses of modern survivals or equivalents and of research productions of medieval plays
