R. Houston

Fourteenth Century Sheriff English Local Administration In The Late Middle Ages:

The Fourteenth-century Sheriff Richard Gorski,2003 A study of the careers of over 1200 sheriffs appointed in England during the fourteenth century The Fourteenth-century Sheriff Richard Christopher Gorski,1999 *Later Medieval Kent, 1220-1540* Sheila Sweetinburgh,2010 A comprehensive investigation into Kent in the later middle ages from its agriculture to religious houses from ship building to the parish church Kent was extremely important in the later middle ages Its location between London and continental Europe Thomas Becket s internationally famous shrine its ancient Cinque Ports and the early development of new religious ideas all make its history in this period particularly fascinating The essays collected here present the fruits of new research into a wide range of topics offering insights into all the most important aspects of life at the time The volume opens with a major survey of Kent s economic history and development during the period in question subsequent chapters consider agriculture ship building the Kentish nobility and their role in regional and national politics religious houses heresy magic and the parish church Dr Sheila Sweetinburgh teaches in the Department of English University of Kent Contributors Mavis Mate Bruce Campbell Gillian Draper Peter Fleming David Grummitt Malcolm Mercer Barry Dobson Elizabeth Edwards Sheila Sweetinburgh Robert Lutton Karen Jones The Bishopric of Durham in the Late Middle Ages Christian Drummond Liddy,2008 New study sets the medieval palatinate of Durham firmly in the context of a community built round the cult of St Cuthbert Officers and Accountability in Medieval England 1170--1300 John Sabapathy,2019-09-13 The later twelfth and thirteenth centuries were a pivotal period for the development of European government and governance A mentality emerged that trusted to procedures of accountability as a means of controlling officers conduct The mentality was not inherently new but it became qualitatively more complex and quantitatively more widespread in this period across European countries and across different sorts of officer The officers exposed to these methods were not just state ones but also seignorial ecclesiastical and university college officers as well as urban communal ones This study surveys these officers and the practices used to regulate them in England It places them not only within a British context but also a wide European one and explores how administration law politics and norms tried to control the insolence of office The devices for institutionalising accountability analysed here reflected an extraordinarily creative response in England and beyond to the problem of complex government inquests audits accounts scrutiny panels syndication Many of them have shaped the way in which we think about accountability today Some remain with us So too do their practical problems How can one delegate control effectively How does accountability relate to responsibility What relationship does accountability have with justice This study offers answers for these questions in the Middle Ages and is the first of its kind dedicated to an examination of this important topic in this period **The Tudor Sheriff** Jonathan McGovern,2022 The first comprehensive analysis of the shrieval system 1485 1603 showing sheriffs to be among the most important local office holders in early modern England responsible for executing legal process holding local courts making

arrests executing criminals collecting royal revenue holding parliamentary elections and many other vital duties

Maintenance in Medieval England Jonathan Rose, 2017-06-22 Identifying for the first time the true nature of maintenance this study uses primary sources to reach new findings on its lawfulness The Soldier Experience in the Fourteenth Century Anne Curry, Andy King, David Simpkin, 2011 Essays throwing fresh light on what it was like to be a medieval soldier drawing on archival research The long fourteenth century saw England fighting wars on a number of diverse fronts not just abroad in the Hundred Years War but closer to home But while tactics battles and logistics have been frequently discussed the actual experience of being a soldier has been less often studied Via a careful re evaluation of original sources and the use of innovative methodological techniques such as statistical analysis and the use of relational databases the essays here bring new insights to bear on soldiers both as individuals and as groups Topics addressed include military service and the dynamics of recruitment the social composition of the armies the question of whether soldiers saw their role as a profession and the experience of prisoners of war Contributors Andrew Ayton David Simpkin Andrew Spencer David Bachrach Iain MacInnes Adam Chapman Michael Jones Guilhem Pepin Remy Ambuhl Adrian R Bell A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries, 2008 This is the second update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first two volumes and to present references to all books and articles published on medieval military history and technology from 2003 to 2006 These references are divided into the same categories as in the first two volumes and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first and second volume in essence Europe and the Middle East or again influences on and from this area The languages of these bibliographical references reflect this geography

Forensic Medicine and Death Investigation in Medieval England Sara M. Butler, 2014-08-21 England has traditionally been understood as a latecomer to the use of forensic medicine in death investigation lagging nearly two hundred years behind other European authorities Using the coroner s inquest as a lens this book hopes to offer a fresh perspective on the process of death investigation in medieval England The central premise of this book is that medical practitioners did participate in death investigation although not in every inquest or even most and not necessarily in those investigations where we today would deem their advice most pertinent The medieval relationship with death and disease in particular shaped coroners and their jurors understanding of the inquest s medical needs and led them to conclusions that can only be understood in context of the medieval world s holistic approach to health and medicine Moreover while the English resisted Southern Europe s penchant for autopsies at times their findings reveal a solid understanding of internal medicine By studying cause of death in the coroners reports this study sheds new light on subjects such as abortion by

assault bubonic plague cruentation epilepsy insanity senescence and unnatural death **Law, Governance, and Justice**

,2013-01-14 How law is made how governance works and the response of the governed remain crucial modern questions whose roots in many parts of the world reach deep into the past of medieval England Scholars have long discussed these issues and new perspectives regularly emerge This volume brings together contemporary views from leaders in the field and from younger scholars both historians and literary critics Classic themes and incidents are creatively revisited and new avenues of approach are suggested English Government in the Thirteenth Century Adrian Jobson,2004 Papers on aspects of the growth of royal government during the century The size and jurisdiction of English royal government underwent sustained development in the thirteenth century an understanding of which is crucial to a balanced view of medieval English society The papers here follow three central themes the development of central government law and justice and the crown and the localities Examined within this framework are bureaucracy and enrolment under John and his contemporaries the Royal Chancery the adaptation of the Exchequer in response to the rapidly changing demands of the crown the introduction of a licensing system for mortmain alienations the administration of local justice women as sheriffs and a Nottinghamshire study examining the tensions between the role of the king as manorial lord and as monarch Contributors NICK BARRATT PAUL R BRAND DAVID CARPENTER DAVID CROOK ANTHONY MUSSON NICHOLAS C VINCENT LOUISE WILKINSON

The English Parliaments of Henry VII 1485-1504 P. R. Cavill,2009-08-13 P R Cavill offers a major reinterpretation of early Tudor constitutional history In the grand Whig tradition the parliaments of Henry VII were a disappointing retreat from the onward march towards parliamentary democracy The king was at best indifferent and at worst hostile to parliament its meetings were cowed and quiescent subservient to the royal will Yet little research has tested these assumptions Drawing on extensive archival research Cavill challenges existing accounts and revises our understanding of the period Neither to the king nor to his subjects did parliament appear to be a waning institution fading before the waxing power of the crown For a ruler in Henry s vulnerable position parliament helped to restore royal authority by securing the good governance that legitimated his regime For his subjects parliament served as a medium through which to communicate with the government and to shape and on occasion criticize its policies Because of the demands parliament made its impact was felt throughout the kingdom among ordinary people as well as among the elite Cooperation between subjects and the crown rather than conflict characterized these parliaments While for many scholars parliament did not truly come of age until the 1530s when freed from its medieval shackles the modern institution came to embody the sovereign nation state in this study Henry s reign emerges as a constitutionally innovative period Ideas of parliamentary sovereignty were already beginning to be articulated It was here that the foundations of the Tudor revolution in government were being laid *Shipping the Medieval Military* Craig L. Lambert,2011 Mariners made a major but neglected contribution to England s warfare in the middle ages Here their role is examined anew showing their importance During the fourteenth century England was scarred by famine

plague and warfare Through such disasters however emerged great feats of human endurance Not only did the English population recover from starvation and disease but thousands of the kingdom's subjects went on to defeat the Scots and the French in several notable battles Victories such as Halidon Hill Neville's Cross Crècy and Poitiers not only helped to recover the pride of the English chivalrous class but also secured the reputation of Edward III and the Black Prince Yet what has been underemphasized in this historical narrative is the role played by men of more humble origins none more so than the medieval mariner This is unfortunate because during the fourteenth century the manpower and ships provided by the English merchant fleet underpinned every military expedition The aim of this book is to address this gap Its fresh approach to the sources allows the enormous contribution of the English merchant fleet to the wars conducted by Edward II and Edward III to be revealed the author also explores the complex administrative process of raising a fleet and provides career profiles for many mariners examining the familial relationships that existed in port communities and the shipping resources of English ports Craig L Lambert is Research Assistant at the University of Hull

Richard II and the Rebel Earl A. K. Gundy, 2013 The reign of Richard II and the circumstances of his deposition have long been subject to intense debate This new interpretation of the politics of the late fourteenth century offers an in depth survey of Richard's reign from the perspective of one of the leading nobles who came to oppose him Thomas Beauchamp the Appellant Earl of Warwick This is the first full length study of one of Richard II's opponents to explore not only why the Earl rebelled against the King but also why Richard lost his throne Rather than offering the traditional explanation of a subject grown too mighty Alison Gundy sets Warwick's rule in the context of the political and constitutional framework of the period The interplay of local and national events helps to reveal Warwick's motives as a long serving member of the nobility faced with a king determined to rule in a manner contradictory to contemporary political structures

Political Society in Later Medieval England Benjamin Thompson, John Watts, 2015 Essays on the connections between politics and society in the middle ages showing their interdependence

The Coroners of Northern Britain c. 1300-1700 R. Houston, 2014-03-18 For the last 800 years coroners have been important in England's legal and political landscape best known as investigators of sudden suspicious or unexplained death Against the background of the coroner's role in historic England this book explains how sudden death was investigated by magistrates in Scotland

The Baronage in the Reign of Richard II, 1377-1399 Dr Keith E. Fildes, 2009-03-26

Tracing Your Ancestors in County Records Stuart A. Raymond, 2016-09-30 A detailed handbook to the English and Welsh Quarter Sessions records their background and how they can be used by genealogists and historians For over 500 years between the fourteenth and nineteenth centuries the Justices of the Peace were the embodiment of government for most of our ancestors The records they and other county officials kept are invaluable sources for local and family historians and Stuart Raymond's handbook is the first in depth guide to them He shows how and why they were created what information they contain and how they can be accessed and used Justices of the Peace met regularly in Quarter Sessions judging minor criminal matters licensing

alehouses paying pensions to maimed soldiers overseeing roads and bridges and running gaols and hospitals They supervised the work of parish constables highway surveyors poor law overseers and other officers And they kept extensive records of their work which are invaluable to researchers today As Stuart Raymond explains the lord lieutenant the sheriff the assize judges the clerk of the peace and the coroner together with a variety of subordinate officials also played important roles in county government Most of them left records that give us detailed insights into our ancestors lives The wide range of surviving county records deserve to be better known and more widely used and Stuart Raymond s book is a fascinating introduction to them Praise for Tracing Your Ancestors in County Records This is invaluable stuff while other books may mention the records this volume provides a useful understanding of the processes and public philosophies that led to them in the first place There are plenty of references for further reading too An excellent textbook exploring the mechanics of local record keeping Your Family History UK This great introduction to county records will soon have you chomping at the bit to head to your nearest archive to begin exploring beyond the records available online Well known family and local historian and Family Tree contributor Stuart A Raymond provides a concise and easy guide to the rich seam of records you can expect to find and those you can t going back 500 years to when Justices of the Peace were the embodiment of local government for our ancestors There s a wealth of information to get your teeth into Family Tree UK

The Shape of the State in Medieval Scotland, 1124-1290 Alice Taylor, 2016 The first full length study of Scottish royal government in the twelfth and thirteenth centuries detailing how when and where the kings of Scotland started ruling through their own officials developing their own system of courts and fundamentally extending their power over their own people

Unveiling the Power of Verbal Art: An Emotional Sojourn through **Fourteenth Century Sheriff English Local Administration In The Late Middle Ages**

In a global inundated with screens and the cacophony of instantaneous connection, the profound energy and psychological resonance of verbal art frequently diminish into obscurity, eclipsed by the continuous barrage of sound and distractions. Yet, nestled within the musical pages of **Fourteenth Century Sheriff English Local Administration In The Late Middle Ages**, a interesting perform of literary elegance that impulses with natural feelings, lies an remarkable trip waiting to be embarked upon.
