Fourth Frontier:

Bulletin ,1960 *Bulletin* United States. Bureau of Mines,1960 *Oklahoma Politics & Policies* David R. Morgan,1991-01-01 Oklahoma is a plains state exemplifying the Middle American virtues of family lodge and church a southern state in the path of the power shift from the industrial East to the energy rich sunbelt a western state of modern cowboys and rodeos Small wonder its political culture is so varied The authors of *Oklahoma Politics and Policies* contend that Oklahoma is a paradox a state struggling for a clear sense of identity where the old and new vie for the allegiance of its citizens David R Morgan Robert E England and George O Humphreys examine the history of Oklahoma and the place of Native Americans in this former Indian Territory the state's links to the federal government its executive legislative and judicial systems political parties and interest groups local government and the current policy issues that confront its citizens They assess the attempts of Oklahomans to revive their economy The 1990s will be bright the authors suggest if Oklahomans can put aside internal conflicts and the politics of negativism in approaching economic and social problems more pragmatically *A Place to Live* Vuyisile Msila,2014-12-01 *A Place to Live* provides captivating insights into the rich tapestry of meaning that fashioned the Red Location into the township that it became and the many stalwarts that contributed to its vibrant and interesting history Vuyisile Msila has masterfully interwoven history with visual images and actual accounts of people's lived experiences to relate the picturesque and colourful story of the Red Location from the colonial to apartheid and post apartheid eras spanning a period of a hundred and ten years from 1903 to 2013 *A Hunter-Gatherer's Guide to the 21st Century* Heather Heying,Bret Weinstein,2021-09-14 A bold provocative history of our species finds the roots of civilization's success and failure in our evolutionary biology We are living through the most prosperous age in all of human history yet people are more listless divided and miserable than ever Wealth and comfort are unparalleled and yet our political landscape grows ever more toxic and rates of suicide loneliness and chronic illness continue to skyrocket How do we explain the gap between these two truths What's more what can we do to close it For evolutionary biologists Heather Heying and Bret Weinstein the cause of our woes is clear the modern world is out of sync with our ancient brains and bodies We evolved to live in clans but today most people don't even know their neighbors names Traditional gender roles once served a necessary evolutionary purpose but today we dismiss them as regressive The cognitive dissonance spawned by trying to live in a society we're not built for is killing us In this book Heying and Weinstein cut through the politically fraught discourse surrounding issues like sex gender diet parenting sleep education and more to outline a provocative science based worldview that will empower you to live a better wiser life They distill more than 20 years of research and first hand accounts from the most biodiverse ecosystems on Earth into straight forward principles and guidance for confronting our culture of hyper novelty ***Visions of Nature*** Riyan J. G. van den Born,W. T. de Groot,Rob H. J. Lenders,2006 Visions of nature are the ideas that people hold of what nature is and how we should relate to it These
