**The Atlantic Alliance Under Stress** David M. Andrews, 2005-07-21 Can the political institutions of the transatlantic alliance endure the demise of the Soviet enemy Did the Iraq crisis of 2002 signal the final demise of the Atlantic partnership If so what are the likely consequences In this book a distinguished group of political scientists and historians from Europe and the United States tackle these questions The book

examines the causes and consequences of the crisis in Atlantic relations that accompanied the invasion of Iraq in March 2003. The authors' collective focus is not on the war itself or how it was conducted or even the situation in Iraq either before or after the conflict. Instead, the crisis over Iraq is the starting point for an examination of transatlantic relations and specifically the Atlantic alliance, an examination that is cross-national in scope and multi-disciplinary in approach. *Jackal* John Follain, 2011-07. The biography of the twentieth century's most potent and ruthless terrorist, Carlos the Jackal, with exclusive revelations about his life, his missions, and his ultimate fate. **Terrorism Today** Christopher C. Harmon, 2013-09-13. Drawing directly on the words and ideas of terrorists themselves, this book is an examination of patterns, current trends, and future threats in terrorism world-wide. It explores the ideology and psychology, the politics and policies, the strategies and operations of many active small groups and major insurgencies. The terrorist leader emerges as a calculating, innovative, and often well-educated person whose use of violence against the innocent is calibrated for maximum effects. The final chapter is a discussion of the problems of counterterrorism and makes several recommendations. **When The Eagle Screams** Stephen Bowman, 2010-03-19. America's Vulnerability to Terrorism. *When The Eagle Screams* was written prior to the first World Trade Center bombing. It is recognized as perhaps the first writing by an American author to warn that attacks on American soil were imminent. It predicted the events, the political response, and almost every event to the present day. Joint Report of the Task Force to Investigate Certain Allegations Concerning the Holding of American Hostages by Iran in 1980 ("October Surprise Task Force") United States. Congress. House. Committee on Foreign Affairs. Task Force to Investigate Certain Allegations Concerning the Holding of American Hostages by Iran in 1980, 1993. The Cold War and After Marc Trachtenberg, 2012-03-12. A new way of looking at international relations from a leading expert in the field. What makes for war or for a stable international system? Are there general principles that should govern foreign policy? In *The Cold War and After*, Marc Trachtenberg, a leading historian of international relations, explores how historical work can throw light on these questions. The essays in this book deal with specific problems with such matters as nuclear strategy and U.S.-European relations. But Trachtenberg's main goal is to show how, in practice, a certain type of scholarly work can be done. He demonstrates how, in studying international politics, the conceptual and empirical sides of the analysis can be made to connect with each other and how historical, theoretical, and even policy issues can be tied together in an intellectually respectable way. These essays address a wide variety of topics from theoretical and policy issues such as the question of preventive war and the problem of international order to more historical subjects, for example, American policy on Eastern Europe in 1945 and Franco-American relations during the Nixon-Pompidou period. But in each case, the aim is to show how a theoretical perspective can be brought to bear on the analysis of historical issues and how historical analysis can shed light on basic conceptual problems. Unconquerable Nation Brian Michael Jenkins, 2006. The author presents a clear-sighted and sobering analysis of where we are today in the struggle against terrorism. Jenkins, an internationally renowned authority on

terrorism distills the jihadists operational code and outlines a pragmatic but principled approach to defeating the terrorist enterprise We need to build upon our traditions of determination and self reliance he argues and above all preserve our commitment to American values

**Oil, Power, and War** Matthieu Auzanneau,2020-02-20 The story of oil is one of hubris fortune betrayal and destruction It is the story of a resource that has been undeniably central to the creation of our modern culture and ever present during the darkest exploits of empire the world over For the past 150 years oil has become the most essential ingredient for economic military and political power And it has brought us to our present moment in which political leaders and the fossil fuel industry consider extraordinary and extraordinarily dangerous policy on a world stage marked by shifting power bases Upending the conventional wisdom by crafting a people s history award winning journalist Matthieu Auzanneau deftly traces how oil became a national and then global addiction outlines the enormous consequences of that addiction sheds new light on major historical and contemporary figures and raises new questions about stories we thought we knew well What really sparked the oil crises in the 1970s the shift away from the gold standard at Bretton Woods or even the financial crash of 2008 How has oil shaped the events that have defined our times two world wars the Cold War the Great Depression ongoing wars in the Middle East the advent of neoliberalism and the Great Recession among them With brutal clarity *Oil Power and War* exposes the heavy hand oil has had in all of our lives and illustrates how much heavier that hand could get during the increasingly desperate race to control the last of the world s easily and cheaply extractable reserves

*The Fall of the House of Bush* Craig Unger,2007-11-13 The presidency of George W Bush has led to the worst foreign policy decision in the history of the United States the bloody unwinnable war in Iraq How did this happen Bush s fateful decision was rooted in events that began decades ago and until now this story has never been fully told From Craig Unger the author of the bestseller *House of Bush* *House of Saud* comes a comprehensive deeply sourced and chilling account of the secret relationship between

neoconservative policy makers and the Christian Right and how they assaulted the most vital safeguards of America's constitutional democracy while pushing the country into the catastrophic quagmire in the Middle East that is getting worse day by day. Among the powerful revelations in this book: Why George W. Bush ignored the sage advice of his father George H. W. Bush and took America into war; How Bush was convinced he was doing God's will; How Vice President Dick Cheney manipulated George W. Bush; disabled his enemies within the administration and relentlessly pressed for an attack on Iraq; Which veteran government official with the assent of the president's father protested passionately that the Bush administration was making a catastrophic mistake and was ignored; How information from forged documents that had already been discredited fourteen times by various intelligence agencies found its way into President Bush's State of the Union address in which he made the case for war with Iraq; How Cheney and the neocons assembled a shadow national security apparatus and created a disinformation pipeline to mislead America and start the war. A seasoned award-winning investigative reporter connected to many back channel political and intelligence sources, Craig Unger knows how to get the big story and this one is his most explosive yet. Through scores of interviews with figures in the Christian Right, the neoconservative movement, the Bush administration and sources close to the Bush family as well as intelligence agents in the CIA, the Pentagon and Israel, Unger shows how the Bush administration's certainty that it could bend history to its will has carried America into the disastrous war in Iraq, dooming Bush's presidency to failure and costing America thousands of lives and trillions of dollars. Far from ensuring our security, the Iraq War will be seen as a great strategic pivot point in history that could ignite wider war in the Middle East, particularly in Iran. Provocative, timely and disturbing, *The Fall of the House of Bush* stands as the most comprehensive and dramatic account of how and why George W. Bush took America to war in Iraq.
