

# SYPHILIS

## INTRODUCTION

- ❧ Caused by *Treponema pallidum*.
- ❧ Transmission: sexual; maternal-fetal, and rarely by other means.
- ❧ Primary and secondary syphilis in the US dropped by ~ 90 %t from 1990 to 2000, the number of cases have gone up since then.
- ❧ A dramatic increase in cases in men from 2000 to 2002 reflected syphilis in MSM.
- ❧ Syphilis increases the risk of both transmitting and getting infected with HIV.

**Perform HIV testing in all patients with syphilis.**

## **Fracastoros Syphilis Introduction Text Translation Notes:**

**Fracastoro's Syphilis** Girolamo Fracastoro, Geoffrey Eatough, 1984 Fracastori Girolamo Syphilis **Italian Literature before 1900 in English Translation** Robin Healey, 2011-12-15 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English and published between 1929 and 2008 It lists works from all genres and subjects and includes translations wherever they have appeared across the globe In this annotated bibliography Robin Healey covers over 5 200 distinct editions of pre 1900 Italian writings Most entries are accompanied by useful notes providing information on authors works translators and how the translations were received Among the works by over 1 500 authors represented in this volume are hundreds of editions by Italy's most translated authors Dante Alighieri Machiavelli and Boccaccio and other hundreds which represent the author's only English translation A significant number of entries describe works originally published in Latin Together with Healey's Twentieth Century Italian Literature in English Translation this volume makes comprehensive information on translations accessible for schools libraries and those interested in comparative literature **Syphilis** Brian Shmaefsky, I. Edward Alcamo, David L. Heymann, 2009 This complex disease has infected and maimed people for centuries but now it often can be cured with just a single dose of penicillin Humanistica Lovaniensia Gilbert Tournoy, 2003 Volume 52 Brill's Companion to Greek and Latin Epyllion and Its Reception Manuel Baumbach, Silvio Bär, 2015-03-20 In classical scholarship of the past two centuries the term epyllion was used to label short hexametric texts mainly ascribable to the Hellenistic period Greek or the Neoterics Latin Apart from their brevity characteristics such as a predilection for episodic narration or female characters were regarded as typically epyllic features However in Antiquity itself the texts we call epyllia were not considered a coherent genre which seems to be an innovation of the late 18th century The contributions in this book not only re-examine some important and some lesser known Greek and Latin primary texts but also critically reconsider the theoretical discourses attached to it and also sketch their literary and scholarly reception in the Byzantine and Middle Ages the Renaissance and the Modern Age *Negotiating the French Pox in Early Modern Germany* Claudia Stein, 2016-12-05 This book explores the identity of the French disease alias the French pox or Morbus Gallicus in the German Imperial city of Augsburg between 1495 and 1630 Rejecting the imposition of modern conceptions of disease upon the past it reveals how early modern medical theory facilitated enormous flexibility in defining disease and how disease identification was a local matter and one of constant negotiation and renegotiation Drawing on a wealth of primary source material this work combines concern with the conceptualisation of the disease with its practical application and argues for the inseparability of both It focuses on how theoretical understanding of the pox shaped the various therapeutic reactions and vice versa It exemplifies this in the specific socio-cultural context of sixteenth and seventeenth century Augsburg through an investigation of the city's municipal and private pox hospitals Combining medical religious economic municipal and institutional history this book offers

a fascinating insight into how early modern society came to terms with disease both in a practical and theoretical sense This revised English translation of Dr Stein s original German book adds new layers of understanding to a fascinating but complex subject **Humanistica Lovaniensia - Volume XLIII, Corona Martiniana** Gilbert Tournoy,1994-02-15 Volume 43

Essential Readings in Medicine & Religion Gary B. Ferngren,Ekaterina N. Lomperis,2021-04-27 A useful well edited anthology of important texts in the history of the intersection of religion and medicine Warren Kinghorn MD ThD Duke University Medical Center and Duke Divinity School Gary B Ferngren and Ekaterina N Lomperis have gathered a rich collection of annotated primary sources that illustrate the intersection of medicine and religion Intended as a companion volume to Ferngren s classic *Medicine and Religion* which traces the history of the relationship of medicine to religion in the Western world from the earliest ancient Near Eastern societies to the twenty first century this useful and extensive sourcebook places each key document in historical context Drawing from more than 160 texts the book explores a number of themes including concepts of health the causes and cure of disease medical ethics theodicy beneficence religious healing consolation and death and dying Each chapter begins with an introduction that furnishes a basic historical setting for the period covered Modern translations some of which have been made especially for this volume are used whenever possible The texts are numbered sequentially within each chapter and preceded by a short introduction to both the author and the subject Touching on Mesopotamia Egypt Israel Greece Rome the European Middle Ages Islam early modern Europe and the modern era *Essential Readings in Medicine and Religion* brings a wide range of sources together to expand on the crucial lessons of *Medicine and Religion* This book is a useful introduction for all students of history divinity medicine and health

*Humanistica Lovaniensia* Jozef Ijsewijn,1996-02-15 Volume 45 *Pathologies of Love* Judy Kem,2019-12 *Pathologies of Love* examines the role of medicine in the debate on women known as the querelle des femmes in early modern France Questions concerning women s physical makeup and its psychological and moral consequences played an integral role in the querelle This debate on the status of women and their role in society began in the fifteenth century and continued through the sixteenth and as many critics would say well beyond In querelle works early modern medicine women s sexual difference literary reception and gendered language often merge Literary authors perpetuated medical ideas such as the notion of allegedly fatal lovesickness and physicians published works that included disquisitions on the moral nature of women In *Pathologies of Love* Judy Kem looks at the writings of Christine de Pizan Jean Molinet Symphorien Champier Jean Lemaire de Belges and Marguerite de Navarre examining the role of received medical ideas in the querelle des femmes She reconstructs how these authors interpreted the traditional courtly understanding of women s pity or mercy on a dying lover their understanding of contemporary debates about women s supposed sexual insatiability and its biological effects on men s lives and fertility and how erotomania or erotic melancholy was understood as a fatal illness While the two women who frame this study defended women and based much of what they wrote on personal experience the three men appealed to male authority

and tradition in their writings      Latin Epic and Didactic Poetry Monica Gale,2004-12-31 How is it possible for a poet to find his own individual voice when he is writing in a tradition so venerable and so constrained by convention as Roman epic How do poets working in related genres particularly didactic conceptualize their relationship to the main epic tradition The eleven essays in this volume by leading scholars in the field of Roman poetry and its post Classical receptions consider some of the strategies which writers from Lucretius onwards have employed in negotiating their relationship with their literary forebears and staking out a place for their own work within a tradition stretching back to Hesiod and Homer      Latin Literatures of Medieval and Early Modern Times in Europe and Beyond Francesco Stella, Lucie Doležalová, Danuta Shanzer, 2024-07-15 The textual heritage of Medieval Latin is one of the greatest reservoirs of human culture Repertories list more than 16 000 authors from about 20 modern countries Until now there has been no introduction to this world in its full geographical extension Forty contributors fill this gap by adopting a new perspective making available to specialists but also to the interested public new materials and insights The project presents an overview of Medieval and post medieval Latin Literatures as a global phenomenon including both Europe and extra European regions It serves as an introduction to medieval Latin s complex and multi layered culture whose attraction has been underestimated until now Traditional overviews mostly flatten specificities yet in many countries medieval Latin literature is still studied with reference to the local history Thus the first section presents 20 regional surveys including chapters on authors and works of Latin Literature in Eastern Central and Northern Europe Africa the Middle East Asia and the Americas Subsequent chapters highlight shared patterns of circulation adaptation and exchange and underline the appeal of medieval intermediality as evidenced in manuscripts maps scientific treatises and iconotexts and its performativity in narrations theatre sermons and music The last section deals with literary interfaces that is motifs or characters that exemplify the double sided or the long term transformations of medieval Latin mythologemes in vernacular culture both early modern and modern such as the legends about King Arthur Faust and Hamlet      **European Sexualities, 1400-1800** Katherine Crawford, 2007-01-18 A pioneering survey of the social and cultural history of sexuality in early modern Europe      **A History of Infectious Diseases and the Microbial World** Lois N. Magner, 2009-04-30 A History of Infectious Diseases and the Microbial World offers readers answers to specific questions as well as the challenge of a narrative that will stimulate their curiosity and encourage them to ask questions about the theory practice and assumptions of modern medicine This work provides a broad introductory overview of the history of major infectious diseases including their impact on different populations the recognition of specific causative agents and the development of methods used to prevent control and treat them By stressing the major themes in the history of disease this book allows readers to relate modern concerns to historical materials It places modern developments concerning infectious diseases within their historical context illuminating the relationships between patterns of disease and social cultural political and economic factors Upon completing this volume readers will be prepared to answer

contemporary questions concerning the threat of newly emerging infectious diseases potentially devastating pandemics and the threat of bioterrorism One will gain a precise understanding of the nature of different kinds of pathogens the unique mechanisms behind disease transmission and the means used to control prevent and treat infectious disease Although only a few of these deadly illnesses can be addressed in detail those that are discussed include malaria leprosy bubonic plague tuberculosis syphilis diphtheria cholera yellow fever poliomyelitis HIV AIDS and influenza Latin Scientific Literature, 1450-1850 Martin Korenjak, 2023 During the early modern period the emergence of modern science took place mainly in Latin the international language of educated discourse However the Latin literature in which most new insights were presented at that time has never been studied as a whole and in its own right This book provides the first overview of this vast body of texts *Crossing Cultures* Daniel Segal, 2022-09-06 Through re examination of colonial and post colonial encounters this collection of essays makes a strategic intervention into the current debate over the study of Western Civilization Together they question whether at least since Columbus the West has existed independent of its relations with those deemed Other **New Approaches to Disease, Disability and Medicine in Medieval Europe** Erin Connelly, Stefanie Künzel, 2018-09-30 An interdisciplinary collection of papers focussing on infections chronic illness and the impact of infectious diseases on medieval society with contributions by academics from a variety of disciplines and a diverse range of international institutions **Humanly Possible** Sarah Bakewell, 2023-03-28 THE NEW YORK TIMES BESTSELLER One of Barack Obama's Favorite Books of 2023 A New York Times Notable Book The bestselling author of *How to Live* and *At the Existentialist Café* explores seven hundred years of writers thinkers scientists and artists all seeking to understand what it means to be truly human A book of big and bold ideas *Humanly Possible* is humane in approach and more important readable and worth reading Bakewell is wide ranging witty and compassionate Wall Street Journal Sweeping linking philosophical reflections with vibrant anecdotes The New York Times If you are reading this it's likely you already have some affinity with humanism even if you don't think of yourself in those terms You may be drawn to literature and the humanities You may prefer to base your moral choices on fellow feeling and responsibility to others rather than on religious commandments Or you may simply believe that individual lives are more important than grand political visions or dogmas If any of these apply you are part of a long tradition of humanist thought and you share that tradition with many extraordinary individuals through history who have put rational enquiry cultural richness freedom of thought and a sense of hope at the heart of their lives *Humanly Possible* introduces us to some of these people as it asks what humanism is and why it has flourished for so long despite opposition from fanatics mystics and tyrants It is a book brimming with ideas personalities and experiments in living from the literary enthusiasts of the fourteenth century to the secular campaigners of our own time from Erasmus to Esperanto from anatomists to agnostics from Christine de Pizan to Bertrand Russell and from Voltaire to Zora Neale Hurston It takes us on an irresistible journey and joyfully celebrates open mindedness optimism freedom and the power of the here

and now humanist values which have helped steer us through dark times in the past and which are just as urgently needed in our world today The bestselling prizewinning author of *How to Live* and *At the Existentialist Caf* explores 700 years of writers thinkers scientists and artists all trying to understand what it means to be truly human

**The Plague Epic in Early Modern England** Rebecca Totaro, 2016-02-24 *The Plague Epic in Early Modern England* Heroic Measures 1603-1721 presents together for the first time modernized versions of ten of the most poignant of plague poems in the English language each composed in heroic verse and responding to the urgent need to justify the ways of God in times of social religious and political upheaval Showcasing unusual combinations of passion and restraint heart rending lamentation and nation building fervor these poems function as literary memorials to the plague time fallen In an extended introduction Rebecca Totaro makes the case that these poems belong to a distinct literary genre that she calls the plague epic Because the poems are formally and thematically related to Milton's great epics *Paradise Lost* and *Paradise Regained* this volume represents a rare discovery of previously unidentified sources of great value for Milton studies and scholarly research into the epic didactic verse cultural studies of the seventeenth century illness as metaphor and interdisciplinary approaches to illness natural disaster trauma and memory

*Science and Literature in Italian Culture from Dante to Calvino* Pierpaolo Antonello, Simon A. Gilson, 2004 This collection of essays explores the relationship between literature and science in Italian culture Encompassing a variety of authors and topics across four broad periods the volume presents connections between the discourses of literature and science and offers critical readings
