Fractal Music Hypercards And More Mathematical Recreations From Scientific American:

Fractal Music, Hypercards and More... Martin Gardner, 2020-10-06 Martin Gardner's Mathematical Games columns in Scientific American inspired and entertained several generations of mathematicians and scientists. Gardner in his crystal clear prose illuminated corners of mathematics especially recreational mathematics that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one before Gardner had written about mathematics like this. They continue to be a marvel. This is the original 1992 edition and contains columns published from 1978-1979.

Conway, William R. Gosper, Ed Pegg Jr, Roger Penrose, Raymond Smullyan, Peter Winkler. And of course there is something from the original puzzlemaster himself, Martin Gardner.
