Fractured Renaissance Tales Of Old The Population Plague:

Fractured Renaissance Tales of Old George Carpetto,2001-04 It s near the end of the world and the Church intelligentsia concurs The darkness in man s soul is terrifying the whole of Christendom where prophets and theologians have lost control As the world inexorably approaches the year 1500 anxieties deepen at a staggering pace Who will save the world If today someone were to shout from the rooftops imploring us to love our Mother Earth before it s too late would we listen Prophets come in many forms and often speak our language Their words are comprehensible but their meaning is not Prophecy is serious business Often the prophet is taken for the fool the eccentric saint or the madman who s half blind and sees things we do not Or could it be the old lady who walks her dog ten times a day apparently mumbling words to deaf ears while her Parkinsonian hand keeps trembling to the beat of a truth no one wants to hear Prophecy is dangerous If we listen then we too might be crazy like the fool the saint the half blind man and the old lady with her dog Prophecy is not for me I ll just sit in my poop and play it safe

Love and Sex in the Time of Plague Guido Ruggiero,2021-06-01 As a pandemic swept across fourteenth century Europe the Decameron offered the ill and grieving a symphony of life and love For Florentines the world seemed to be coming to an end In 1348 the first wave of the Black Death swept across the Italian city reducing its population from more than 100 000 to less than 40 000 The disease would eventually kill at least half of the population of Europe Amid the devastation Giovanni Boccaccio s Decameron was born One of the masterpieces of world literature the Decameron has captivated centuries of readers with its vivid tales of love loyalty betrayal and sex Despite the death that overwhelmed Florence Boccaccio s collection of novelle was in Guido Ruggiero s words a symphony of life *Love and Sex in the Time of Plague* guides twenty first century readers back to Boccaccio s world to recapture how his work sounded to fourteenth century ears Through insightful discussions of the Decameron s cherished stories and deep portraits of Florentine culture Ruggiero explores love and sexual relations in a society undergoing convulsive change In the century before the plague arrived Florence had become one of the richest and most powerful cities in Europe With the medieval nobility in decline a new polity was emerging driven by Il Popolo the people fractious and enterprising Boccaccio s stories had a special resonance in this age of upheaval as Florentines sought new notions of truth and virtue to meet both the despair and the possibility of the moment **History of Old Age** Georges Minois,1989-11-28 *History of Old Age* is the first major study of the ways in which old age has been perceived in western culture throughout history Georges Minois paints a vast fresco starting with the first old man to relate his own story an Egyptian scribe some 4500 years ago and ending with the deaths of Elizabeth I and Henry IV in the sixteenth century Tracing the changing conceptions of the nature value and burden of the old Minois argues that western history during this period is marked by great fluctuation in the social and political role of the aged Minois shows how in ancient Greece the cult of youth and beauty on the one hand and the reverence for the figure of the Homeric sage on the other created an ambivalent attitude toward the aged This ambiguity appears again in the contrast between the active role that older citizens played in Roman politics and their depiction in satirical literature of the period Christian literature in the Middle Ages also played a large part in defining society s perception of the old both in the image of the revered holy sage and in the total condemnation of the aged sinner Drawing on literary texts throughout Minois considers the interrelation of literary religious medical and political factors in determining the social fate of the elderly and their relationship to society This book will be of great interest to social and cultural historians as well as to general readers interested in the subject of the aged in society today *Florence in the Renaissance* Massachusetts Institute of Technology. Department of English and History,1952 *Lesser Living Creatures of the Renaissance* Keith Botelho,Joseph Campana,2023-01-06 *Lesser Living Creatures* examines literary and cultural texts from early modern England in order to understand how people in that era

thought about and with insect and arachnid life The conversations in this two volume set address the collaborative multigenerational research that produced early modern natural history and provide new insights into the old question of what it means to be human in a world populated by beasts large and small Volume 2 Concepts explores ideas that cut across species insect and otherwise both building on and invigorating critical vocabularies developed over nearly two decades of early modern animal studies The contributors explore topics such as the medical and culinary consumption of insects extermination campaigns the auditory and emotive effects of a swarm insects and politics and notions of infestation stinging and creeping Throughout they illuminate how early modern science and literature worked as intersecting systems of knowledge production about the natural world and show definitively how insect life was and remains intimately entangled with human life In addition to the editors contributors to this volume include Lucinda Cole Frances E Dolan Lowell Duckert Andrew Fleck Rebecca Laroche Jennifer Munroe Amy L Tigner Jessica Lynn Wolfe Derek Woods and Julian Yates
