Fraggle Rock All Work And All Play:

Fraggle Rock: The Ultimate Visual History Noel Murray, Jody Revenson, 2021-10-19 Fraggle Rock The Ultimate Visual History tells the definitive story behind the creation of Jim Henson's beloved series. It's been over thirty-five years since the irrepressible Fraggles first hit the screen in the beloved children's television hit Fraggle Rock. Created by the legendary Jim Henson along with Michael K. Frith, Jerry Juhl, Duncan Kenworthy, and Jocelyn Stevenson, Fraggle Rock remains a favorite of fans to this day. This delightful volume tells the incredible story of the bighearted show that helped instill open-minded values in a whole generation of viewers. Fraggle Rock: The Ultimate Visual History follows the show's creation from early concepts to the incredible puppetry that brought the unforgettable characters such as Gobo, Red, and Mokey to life. Exclusive interviews with Stevenson, Frith, Kenworthy, and several other major contributors reveal fascinating, exclusive insights that take the reader further into Jim Henson's world than ever before. Featuring a wealth of rare concept art and behind-the-scenes photographs from the archives of The Jim Henson Company, Fraggle Rock: The Ultimate Visual History is the definitive look at one of the best-loved television shows of all time. [The Wider Worlds of Jim Henson](#) Jennifer C. Garlen, Anissa M.

Graham, 2012-12-10 Jim Henson was the creative force behind a huge catalog of television series, films, specials, and other productions, even excepting the Muppets. This collection of essays delves into the rest of Henson's body of work, including projects developed during his lifetime and those that represent his legacy. Covered here are Fraggle Rock, The Dark Crystal, Labyrinth, The Jim Henson Hour, Dinosaurs, Farscape, and more. Henson's influence on both audiences and later productions remains palpable on screens large and small, as this collection attests. **Funny Boy** Jessica Max Stein, 2024-03-15 This biography tells the story of Muppet performer Richard Hunt, who created a colorful range of characters on The Muppet Show, Sesame Street, and Fraggle Rock, and crammed an extraordinary career into only 40 years of life. Funny Boy is about a man who used humor, joy, and resilience to adapt to life's surprises while entertaining millions. **Jim Henson and Philosophy**

Timothy Dale, Joseph Foy, 2015-07-15 Jim Henson's creations have inspired generations with characters that are among the world's most recognizable cultural icons. From Kermit the Frog, Miss Piggy, and their Muppet friends to the legendary Sesame Street and Children's Television Workshop, Henson revolutionized children's educational entertainment. Combining live action and puppeteering into fantastical narratives like The Dark Crystal and Labyrinth, as well as the whimsical Fraggle Rock and The Storyteller, Henson transformed imagination into reality, weaving together powerful philosophical messages on identity, community, diversity, love, death, and friendship. Henson never shied away from exploring deep questions, nor did he underestimate the ability of children or adults to grapple with profound philosophical questions. Jim Henson and Philosophy explores the entertaining and educational world of the genius's creations, revealing what it is about Henson's world that has touched us so deeply and improved our lives in such meaningful ways.
