Book Of Fragments Volume No.2 Dana Krystle,2022-11-01 Book of Fragments Volume Two is a continuation of artworks from the first volume Book of Fragments which was published in 2018 Whereas the first book explored contemporary topics in landscape this volume focused more on the deeper inner struggles of human existence Life has changed a lot in the past years and narratives such as chivalry honor faith and deeper meanings have been lost in the process of machines taking over We sleep with machines eat with machines and are on the verge of thinking like machines One can t help but keep wondering where will this all eventually lead humanity to In this book I attempted to self discover and explore What does it mean to be human what does it mean to be separated from one self If we took our parts fragment by fragment will we still be human The era has changed and the vocabulary followed suit I somehow found myself trapped in the in between of what is right and what is wrong Book of Fragments Volume Two is my response to what my soul has been experiencing where my mind has wandered and where my thoughts have traveled to This is a crucial era of change and I like many others are struggling to find meaning without losing our soul I hope one will find solace and understanding in this body of work It was a one year process of experimentation and I hope this book illustrates the new language I tried to speak And so with the grace of God others will hear and understand *Fragments and Fragmentations* Irma Gilgore,1989 **Fragments** Sophocles,1996
