## **Fragments Of Inequality Social Spatial And Evolutionary Analyses Of Income Distribution:**

**Fragments of Inequality** Sanjoy Chakravorty, 2014-06-03 *Fragments of Inequality* merges sociological geospatial and economic explanations of global inequality into a grand synthesis of the subject that breaks new ground by stressing the phenomenon's spatial foundations. Concentrating on inequality within and between regions, the book demonstrates that spatial inequality has increased in recent years. It employs modified evolutionary principles, i.e. punctuated equilibrium, not entirely smooth and linear in terms of chronological development, rather than the more abstract ones of rationality and self-interest that economists use, and on a fragmented rather than abstract conception of space. Global in its empirical coverage, it also addresses the current impact of economic globalization.

**Mobility and Inequality Trends** Sanghamitra Bandyopadhyay, Juan Gabriel Rodríguez, 2023-01-25 *Mobility and Inequality Trends* is the 30th volume of *Research on Economic Inequality* and features insightful and original papers from the 9th Society for the Study of Economic Inequality (ECINEQ) meeting.

*The Truth About Us* Sanjoy Chakravorty, 2019-05-07 India has an information space packed with numerous sources and agents from politicians and activists to profiteers and extortionists, all competing for attention and legitimacy in a growing information market. Whom does one believe? The political manipulation and simplification of information about a dizzyingly complex society have fashioned certain truths about India. These truths have resulted in the creation of major religious and caste identities which have been the defining features of the country's politics and history for over 200 years. An unsparing study of how this situation has come about, *The Truth about Us* explores answers to crucial questions: Is India a homogenous Hindu nation sprinkled with minorities, or a pluralistic heterogeneous one? Is our knowledge of the inequalities in our society founded on facts or perceptions? What are the real origin stories of India's social categories, and how are they being constructed and challenged today? At a time when India is in the throes of an existential debate convulsed by contesting claims over identity and history, Hindutva and Dalit consciousness, nationalism and freedom of speech, and the rights and realities of minorities, this deeply provocative book is urgent reading for every thinking Indian.
