Fragments Of Modernity:

Fragments of Modernity (Routledge Revivals) David Frisby, 2013-09-13 *Fragments of Modernity* first published in 1985 provides a critical introduction to the work of three of the most original German thinkers of the early twentieth century. In their different ways all three illuminated the experience of the modern urban life whether in mid nineteenth century Paris Berlin at the turn of the twentieth century or later as the vanguard city of the Weimar Republic. They related the new modes of experiencing the world to the maturation of the money economy, Simmel the process of rationalization of capital, Kracauer and the fantasy world of commodity fetishism, Benjamin. In each case they focus on those fragments of social experience that could best capture the sense of modernity. [Fragments of Modernity](#) David Frisby, 1988

[The Detective of Modernity](#) Georgia Giannakopoulou, Graeme Gilloch, 2020-12-30 This book explores the thought of and is dedicated to David Frisby, one of the leading sociologists of the late twentieth and early twenty first centuries. Presenting original examinations of his unique social theory and underlining his interdisciplinary approach to the critical interpretation of modern metropolitan society and culture, it emphasises Frisby's legacy in highlighting the role of the social researcher as a collector, reader, observer, detective and archivist of the phenomena and ideas that exemplify the modern metropolis as society. With contributions from sociologists, cultural theorists, historians of the city, urban geographers and designers and architectural historians and theorists, *The Detective of Modernity* constitutes a wide ranging engagement with Frisby's profound legacy in social and cultural theory.

Jewish Music and Modernity Philip Bohlman, 2012 Bohlman investigates several aspects of Jewish music within the context of the period beginning with the emancipation of German Jewish culture during the eighteenth century and culminating in the destruction of that same culture under the Nazis.

The Hieroglyphics of Space Neil Leach, 2005-06-29 An edited volume containing contributions from eminent theorists across visual culture, architecture, sociology, art, philosophy and US studies including Andrew Benjamin, Barry Curtis, Neil Leach, Steven Pile and David Frisby.

Fragments: The Existential Situation of Our Time David Tracy, 2020-04-10 Even as mere fragments, these essays are an imaginatively learned feast for virtually anyone interested in modern theologies. range and erudition collecting essays from the 1980s to 2018 into a two volume work that will be greeted with joy by his admirers and praise from new readers In the first volume *Fragments* Tracy gathers his most important essays on broad theological questions beginning with the problem of suffering across Greek tragedy Christianity and Buddhism The volume goes on to address the Infinite and the many attempts to categorize and name it by Plato Aristotle Rilke Heidegger and others In the remaining essays he reflects on questions of the invisible contemplation hermeneutics and public theology Throughout Tracy evokes the potential of fragments understood both as concepts and events to shatter closed systems and open us to difference and Infinity Covering science literature philosophy psychoanalysis and non Western religious traditions Tracy provides in *Fragments* a guide for any open reader to rethink our fragmenting contemporary culture Tracy demonstrates the range of his philosophical interests in service of theology particularly his profound attention to hermeneutics A rich feast We can be grateful for the insightful essays collected in this volume from one of America's leading theologians *Currents in Theology and Mission* The Amusement Park Jason Wood,2017-01-20 Jason Wood is Director of Heritage Consultancy Services Lancaster UK and former Professor of Cultural Heritage at Leeds Metropolitan University UK

Creativity and Critique Glenda Ballantyne,2007-10-30 Many commentators have noted the fertile new intellectual period Critique of Modernity opened up in the social theory of Alain Touraine but until now its innovations have not been the subject of a sustained analysis This work locates the wellsprings of Touraine's renewed interpretive power in an implicit and unfinished but unmistakable hermeneutical turn To deepen and extend his potent but only partly developed insights the second part of the book develops his hermeneutical premises more explicitly through a dialogue with the hermeneutical philosophy of Paul Ricoeur The outcome is a critical hermeneutics of the subject which opens new possibilities for theorising human agency and social creativity and renews the project of critical theory **God, the Gift, and Postmodernism** John D. Caputo,Michael J. Scanlon,1999-12-22 Pushing past the constraints of postmodernism which cast reason and religion in opposition *God the Gift and Postmodernism* seizes the opportunity to question the authority of the modern and open the limits of possible experience including the call to religious experience as a new millennium approaches Jacques Derrida the father of deconstruction engages with Jean Luc Marion and other religious philosophers to entertain questions about intention givenness and possibility which reveal the extent to which deconstruction is structured like religion New interpretations of Kant Heidegger Husserl and Derrida emerge from essays and discussions with distinguished philosophers and theologians from the United States and Europe The result is that *God the Gift and Postmodernism* elaborates a radical phenomenology that stretches the limits of its possibility and explores areas where philosophy and religion have become increasingly and surprisingly convergent Contributors include John D Caputo John Dominic Crossan Jacques Derrida Robert Dodaro Richard Kearney Jean Luc Marion Frangoise Meltzer Michael J Scanlon Mark C Taylor David Tracy Merold Westphal and Edith Wyschogrod Writing the City Desmond Harding,2004-06 This work examines and challenges the traditional

transatlantic axis London Paris New York that marks the intersection between western thinking about the City and the advent of literary modernism *Fragments of the City* Colin McFarlane, 2021-10-05 Cities are becoming increasingly fragmented materially socially and spatially From broken toilets and everyday things to art and forms of writing fragments are signatures of urban worlds and provocations for change In *Fragments of the City* Colin McFarlane examines such fragments what they are and how they come to matter in the experience politics and expression of cities How does the city appear when we look at it through its fragments For those living on the economic margins the city is often experienced as a set of fragments Much of what low income residents deal with on a daily basis is fragments of stuff made and remade with and through urban density social infrastructure and political practice In this book McFarlane explores infrastructure in Mumbai Kampala and Cape Town artistic montages in Los Angeles and Dakar refugee struggles in Berlin and the repurposing of fragments in Hong Kong and New York Fragments surface as material things as forms of knowledge as writing strategies They are used in efforts to politicize the city and in urban writing to capture life and change in the world s major cities *Fragments of the City* surveys the role of fragments in how urban worlds are understood revealed written and changed **Virginia Woolf, Modernity and History** Angeliki Spiropoulou, 2010-03-17 This book analyses the representation of the past and the practice of historiography in the fiction and critical writings of Virginia Woolf and draws parallels between Woolf s historiographical imagination and the thought of Walter Benjamin the German philosopher of history and key theorist of modernity *Fragmentary Modernism* Nora Goldschmidt, 2024-02-29 Uncovers the complex networks of influence between modernism and classical scholarship in the first half of the twentieth century re evaluates the status of the classical fragment as a cultural product mediated by modernist art and writing spotlights a key moment of reception which has shaped how we present and consume antiquity today Global Fragments Eduardo Mendieta, 2012-02-01 *Global Fragments* offers an innovative analysis of globalization that aims to circumvent the sterile dichotomies that either praise or demonize globalization Eduardo Mendieta applies an interdisciplinary approach to one of the most fundamental experiences of globalization the mega urbanization of humanity The claim that globalization unsettles our epistemic maps of the world is tested against a study of Latin America Mendieta also recontextualizes the work of three major theorists of globalization Enrique Dussel Cornel West and Jürgen Habermas to show how their thinking reflects engagement with central problems of globalization and conversely how globalization itself is exemplified through the reception of their work Beyond the epistemic hubris of social theories that seek to accept or reject a globalized world Mendieta calls for a dialogic cosmopolitanism that departs from the mutuality of teaching and learning in a world that is global but not totalized **Cosmic Fragments** Asif A. Siddiqi, 2025-05-20 Looking beyond the well trodden celebratory narratives of space exploration and the powerful nostalgia of lunar landings *Cosmic Fragments* focuses instead on the moral ambiguities of spaceflight Beyond the fetishization of machines men and manifest destiny and the Cold War tensions of the

space race lies a history rife with violence racial inequity colonial ambitions and catastrophe This volume yields new insights on the crucial role of environmental damage Indigenous dispossession population displacements infrastructural entanglements and narratives of decline in space exploration situated within larger questions in the history of science technology and the environment Each chapter explores histories of space travel across nations and regions to better understand the destructive power of infrastructure waste and exploitative legal regimes at the height of the space age Drawing from postcolonial science studies science and technology studies and anthropology contributors suggest that phenomena designed to disenfranchise and dislocate such as the displacement of Indigenous peoples were deeply imbedded in the coloniality of space travel By confronting and challenging problematic early accounts rooted in the cultural mores of settler colonialism *Cosmic Fragments* offers a fundamental repositioning of the history of spaceflight *The Fragment* William Tronzo, 2009 The universe may well have begun with an immense act of fragmentation the big bang that sent particles flying in all directions to perform spectacular acts of creation and destruction The fragment volatile and unpredictable is not simply the static part of a once whole thing but itself something in motion Drawing upon art history archaeology literature numismatics philosophy and film this book explores the significance of the fragment and addresses the powerful drives that have impelled it into the cultural mainstream Book jacket **Routledge Revivals: In Modernity's Wake (1989)** Michael Phillipson, 2017-02-17 First published in 1988 this book attempts to tackle the problem of how to write about art culture and the issues of postmodernism in a style appropriate to what is being claimed The letters are written on art's behalf to a range of institutions and individuals and have as their recurring concern the relation between art culture and representation both art as representation and how art is represented to and for the surrounding culture They explore the context and viability of art through a range of themes including writing the aestheticisation of everyday life style design pleasure fragmentation hyphenation technology and the museum drawing on materials from the visual arts music literature post structuralism contemporary criticism philosophy and sociology Cultural Theory and the Problem of Modernity Alan Swingewood, 1998-08-24 This book presents a critical analysis of the relation between sociological theory and recent debates in cultural studies A distinctive sociological perspective is developed based on the work of Marx Weber Bourdieu and Bakhtin The book examines the problems of theorising issues such as modernity mass culture and postmodernity by advocating a historical and context based approach **A History of the Modern British Ghost Story** S. Hay, 2011-10-27 Ghost stories are always in conversation with novelistic modes with which they are contemporary This book examines examples from Sir Walter Scott Charles Dickens Henry James and Rudyard Kipling amongst others to the end of the twentieth century looking at how they address empire class property history and trauma
