Frames Of Mind Text Only:

The Left Frame of Mind: An Inquiry into the Nature of the Leftist Brain Hermann Observer, 2024-09-22 Do you have a healthy mental attitude and a positive outlook on life Good for you This means you are in the right frame of mind But if you don't this means you are in the left frame of mind This is not so good The left frame of mind is the wrong frame of mind It means you have a Leftist Brain Sorry I don't make up the rules And life isn't fair At least you are not alone Far from it even Leftist brains are everywhere and come in a near endless variety of flavors classifications and good intentions gone bad There is for instance no fundamental difference between a Soviet communist Leftist Brain and a Wisconsin Democrat Leftist Brain It is merely a matter of degree of Leftist Brain brainedness And the reason for this huge range of confusion is that all leftist brains share the following three common characteristics 1 The belief that COLLECTIVISM is good and individualism is bad The Leftist Brain hungers for parental government that promotes childlike dependency It expects the State to regulate everything from daycare to retirement It does not care that this cradle to grave infantilization undermines freedom of choice self reliance and self determination as long as it is told that this is being done in the name of equality a wonderful sounding ideal that doesn't exist in nature Collectivism in short conforms to the model of domination submission Individualism does not 2 The conviction that COERCION is superior to voluntary cooperation The Leftist Brain is magically drawn to practices that restrict the individual's freedom to choose It does not trust in voluntary action It has no confidence in the spontaneous order created through mutual agreement It is troubled by the thought of unrestricted individuals deciding things for themselves They might not have the greater good in mind This is why coercion is necessary For the Leftist Brain the ends justify the means and it only respects the rule of law when it is interpreted in the way it deems fit 3 SENSE OF MISSION trumps common sense The Leftist Brain sees itself as the chosen one on the right side of history It believes it is superior to ordinary brains They can never enjoy its higher enlightened status This belief serves the psychological function of bolstering what is typically the weak self esteem of a brain that is ungrateful ungenerous and unhappy Its feigned altruism hides a lack of true empathy that leads to pronounced narcissist tendencies Unchecked these tendencies eventually lead to nihilism narcissism and nihilism being functionally equivalent This is what makes the Leftist Brain so easy to trigger This is why it so quickly resorts to hysterical outbursts violence and destruction The problem is that regardless of how misguided or pathological this Leftist Brain brainedness may be it has led us to where we are today We now live in a Leftist Brain world Like it or not leftist brains are in control And this Leftist Brain world is very far removed from the one the framers of the Constitution originally intended Instead of thriving in a political system that protects individual liberties through the exercise of limited negative rights don't do this don't do that the Leftist Brain's endless quest for some arbitrary greater good means we must endure coercive government direction through the exercise of unlimited positive rights do this do that We must do as we are told in other words We remain indentured servants to the State Most of these observations are meant to be humorous although it

cannot be denied that this type of humor may be seen as a subversive bitter form of humor that is often cynical rather than laugh out loud funny This is because it is in fact a subversive bitter form of humor that is often cynical rather than laugh out loud funny Have a nice day anyway **Catalog of Copyright Entries** Library of Congress.
