Development and Crisis of the Welfare State Evelyne Huber, John D. Stephens, 2010-04-15 Evelyne Huber and John D. Stephens offer the most systematic examination to date of the origins character effects and prospects of generous welfare states in advanced industrial democracies in the post World War II era They demonstrate that prolonged government by different parties results in markedly different welfare states with strong differences in levels of poverty and inequality Combining quantitative studies with historical qualitative research the authors look closely at nine countries that achieved high degrees of social protection through different types of welfare regimes social democratic states Christian democratic states and wage earner states In their analysis the authors emphasize the distribution of influence between political parties and labor movements and also focus on the underestimated importance of gender as a basis for mobilization Building on their previous research Huber and Stephens show how high wages and generous welfare states are still possible in an age of globalization and trade competition

Misery Beneath the Miracle in East Asia Arvid J. Lukauskas, Yumiko Shimabukuro, 2024-12-15 Misery beneath the Miracle in East Asia challenges prevailing views of the East Asian economic miracle Existing scholarship has overlooked the severity persistence and harmful consequences of the social welfare crises affecting the region Arvid J. Lukauskas and Yumiko Shimabukuro fill this gap and put a major asterisk on East Asia s economic record Combining big

picture analysis abundant data a dynamic interdisciplinary framework and powerful human stories they shed light on the social ills that governments have failed to address adequately including low wages child abuse elderly poverty and substandard housing One of the major forces behind the multidimensional welfare crises is the region's productivist welfare strategy which prioritizes economic growth while abandoning a robust social safety net leaving the most vulnerable segments of society largely unprotected Misery beneath the Miracle in East Asia brings the region into debates over the dangers of seeking growth at all costs that are currently embroiling the United States and other advanced industrialized countries

Futurecast Robert J. Shapiro, 2025-09-23 What will life be like in America Europe Japan or China in the year 2020 As everyone's lives across the world are become increasingly interconnected by globalization and new technologies quicken the pace of everything the answer to that question depends on the fate and paths of the world's major nations In *Futurecast* Robert Shapiro former U.S. Under Secretary of Commerce and Chairman Co-founder of Sonecon looks into the future to tell us what our world will over the next dozen years Though that time span seems brief Shapiro foresees monumental changes caused by three historic new forces globalization the aging of

societies and the rise of America as a sole superpower with no near peer will determine the paths of nations and the lives of countless millions What jobs will there be for you and your children What will happen to your health care How safe will you be at home or abroad Answers to these questions will depend even more than today on where you live in the world Even as China expands its military and its economy America will be the world's sole superpower for at least the next generation and continue to lead efforts to preserve global security and stability The U S and China will be the world's two indispensable economies dominating the course of globalization Globalization will continue to shift most heavy manufacturing and millions of high end service jobs from advanced countries like the US to China India Indonesia Mexico Romania Turkey and other developing nations Europe's major nations and Japan will face the prospect of genuine economic decline and critical problems in their retirement pension systems moving further towards the periphery of global economic and geopolitical power Every major country the U S Europe Japan China will face critical problems with their health care systems and the entire world will face a crisis over energy and climate change If one adds the wildcard of possible catastrophic terrorist attacks to this mix the period between now and 2020 will be as challenging as any in modern times Taking these deep global developments into account when planning for the future is a necessity Robert Shapiro's clear-eyed Futurecast is the knowledge portfolio you need to prepare for the years to come
