France An Interpretive History:

France Ernest John Knapton, Robert Sugar, 1971 The Catholic Church and the French Nation 1589-1989 Norman Ravitch, 2025-05-01 Paris is worth a mass was the realistic response of Protestant Henry IV who changed his faith to secure the throne of France to the central importance of the French Catholic Church Principle and pragmatism have since been in alteration the two prime constituents of French Catholicism In his book The Catholic Church and the French Nation 1589-1989 originally published in 1990 Norman Ravitch interprets the interaction of the Roman Catholic Church with the national life of France over a period of 400 years This process Ravitch argues has left French Catholicism redundant more an historical monument than a living institution This book will be of interest to students and researchers of French history

France Ernest John Knapton, 1971 A Realist Theory of Art History Ian Verstegen, 2013-01-03 As the theoretical alignments within academia shift this book introduces a surprising variety of realism to abolish the old positivist theory dichotomy that has haunted Art History Demanding frankly the referential detachment of the objects under study the book proposes a stratified multi causal account of art history that addresses postmodern concerns while saving it from its errors of self refutation Building from the very basic distinction between intransitive being and transitive knowing objects can be affirmed as real while our knowledge of them is held to be fallible Several focused chapters address basic problems while introducing philosophical reflection into art history These include basic ontological distinctions between society and culture general and special history the discontinuity of cultural objects the importance of definition for special history scales facets and fiat objects as forms of historical structure the nature of evidence and proof historical truth and controversies Stressing Critical Realism as the stratified multi causal approach needed for productive research today in the academy this book creates the subject of the ontology of art history and sets aside a theoretical space for metaphysical reflection thus clarifying the usually muddy distinction between theory methodology and historiography in art history The Decline of the Third Republic, 1914-1938 Philippe Bernard, Henri Dubief, 1988-02-26 This book provides a detailed account of the Third Republic in France between the outbreak and conduct of the First World War and the fall of Leon Blum s Front Populaire soon after Hitler s invasion and annexation of Austria in 1938 Following the trauma of war France slipped into the era of illusions which despite the comparative prosperity of the 1920s led to the slump and the severe social and economic unrest of the 1930s The short lived experiment of Blum s Front Populaire gave way to more conservatively based ministries but by 1938 a new common enemy began to draw together the political opinion of the country **History of France** Guillaume de Bertier de Sauvigny, David H. American Revolution he had become one of the most powerful and respected businessmen of the Old Regime For personal as well as patriotic reasons he aided the American insurgents and worked with a wide array of persons In addition to Franklin these included John Adams Silas Deane Caron de Beaumarchais the marquis de Lafayette and the comte de Vergennes Chaumont performed an astounding range of services acting as intermediary an adviser and a supplier of arms and clothing His most dramatic contribution to the American cause involved John Paul Jones It was Chaumont who obtained the famous Bonhomme Richard for the commodore Through looking at the activities of this intriguing individual the author is able to offer many new insights into both American and French history Lively and well written this biography will appeal to both the historian and the general reader
