Guitar Axis Masterclass Target Tone And Cds

Don Mock

Guitar Axis Masterclass Target Tone And Cds:

Masterclass Target Tones Don Mock, 2003-10 Don Mock teaches the target tone technique that is the core to most classic and bebop jazz improvisation Rather than spending years trying to learn scales that have little relevance most great jazz players use the target tone technique to construct their intricate solo lines The CD includes recordings for each lesson and play along tracks Great for the advanced student or amateur guitarist as well as for any professional wanting to further their learning **Books Out Loud** ,2007 **Guitar Axis Masterclass Turnarounds** Don Mock, 2003-06 Turnarounds are short four chord progressions often found at the end of tunes to set up and return to the beginning They can also be found in other parts of tunes and even as the primary progression such as in I Got Rhythm as well as many other bebop jazz and blues tunes Turnarounds can be a thorn in the side of guitar players because they often require playing separate scales for each chord And at faster tempos switching from one scale to another while improvising can be very challenging This lesson is aimed at giving you usable ideas for improvising over turnarounds specifically the two bar version where each chord receives only two beats You ll learn Master Melodies a powerful yet simple tool that quickly arms you with dozens of eighth note lines that sound each of the four chords in the progression You ll also learn techniques for adding rhythmic variations to melodies Scales for Turnarounds is a special chapter outlining the best scale choices to use for each chord in the turnaround plus a look at turnarounds in the blues progression The lesson also features eighth note turnaround etudes packed with classic and modern melodic ideas The hour long CD features demonstrations of each example by Don Mock including numerous expanded performances And try out your new ideas with any of the professional play along tracks Book jacket

Embracing the Tune of Appearance: An Emotional Symphony within **Guitar Axis Masterclass Target Tone And Cds**

In a global eaten by screens and the ceaseless chatter of instant conversation, the melodic splendor and psychological symphony created by the written word frequently fade in to the back ground, eclipsed by the persistent noise and interruptions that permeate our lives. But, nestled within the pages of **Guitar Axis Masterclass Target Tone And Cds** a marvelous fictional value filled with natural emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that captivating masterpiece conducts readers on an emotional trip, well unraveling the concealed songs and profound impact resonating within each carefully crafted phrase. Within the depths of this emotional evaluation, we shall investigate the book's main harmonies, analyze its enthralling writing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers' souls.
