Simpson, Patrick McAleer, 2014-11-13 Many readers know Stephen King for his early works of horror from his fiction debut *Carrie* to his blockbuster novels *The Shining* *The Stand* and *Misery* among others While he continues to be a best selling author King's more recent fiction has not received the kind of critical attention that his books from the 1970s and 1980s enjoyed Recent novels like *Duma Key* and *11/22/63* have been marginalized and arguably cast aside as anomalies within the author's extensive canon In *Stephen King's Contemporary Classics: Reflections on the Modern Master of Horror* Philip L. Simpson and Patrick McAleer present a collection of essays that analyze assess and critique King's post 1995 compositions Purposefully side stepping studies of earlier work these essays are arranged into three main parts the first section examines five King novels published between 2009 and 2013 offering genuinely fresh scholarship on King the second part looks at the development of King's distinct brand of horror the third section departs from probing the content of King's writing and instead focuses on King's process By concentrating on King's most recent writings this collection offers provocative insights into the author's work featuring essays on *Dr Sleep* *Duma Key* *The Girl Who Loved Tom Gordon* *Joyland* *Under the Dome* and others As such *Stephen King's Contemporary Classics* will appeal to general fans of the author's work as well as scholars of Stephen King and modern literature *Cassette Books* Library of Congress. Over the past forty years American film has entered into a formal interaction with the comic book Such comic book adaptations as *Sin City* 300 and *Scott Pilgrim vs the World* have adopted components of their source materials visual style The screen has been fractured into panels the photographic has given way to the graphic and the steady rhythm of cinematic time has evolved into a far more malleable element In other words films have begun to look like comics Yet this interplay also occurs in the other direction In order to retain cultural relevancy comic books have begun to look like films Frank Miller's original *Sin City* comics are indebted to film noir while Stephen King's *The Dark Tower* series could be a Sergio Leone spaghetti western translated onto paper Film and comic books continuously lean on one another to reimagine their formal attributes and stylistic possibilities In *Panel to the Screen* Drew Morton examines this dialogue in its intersecting and rapidly changing cultural technological and industrial contexts Early on many questioned the prospect of a low art form suited for children translating into high art material capable of drawing colossal box office takes Now the naysayers are as quiet as the queued crowds at Comic Cons are massive Morton provides a nuanced account of this phenomenon by using formal analysis of the texts in a real world context of studio budgets grosses and audience reception **The Gunslinger** Stephen
