knowledge and skills through continuing education and faculty development programs

The Language of Business

Studies Lectures Belinda Crawford Camiciottoli, 2007-01-01 New opportunities in the global workplace have heightened interest in business studies. In response to this trend, this book presents an in-depth analysis of a corpus of authentic business studies lectures focusing on spoken academic disciplinary and professional features, e.g. speech rate, interactive devices, specialized lexis that are crucial to comprehension but often problematic for non-native speakers. The investigation adopts an original, multi-pronged approach including quantitative, qualitative, and comparative analyses. It utilizes techniques drawn mainly from corpus linguistics and discourse analysis but also integrates observational and ethnographic methods to provide unique extra-linguistic insights. The study is thus a full-circle interpretive account of this dynamic spoken genre where academia and profession converge. The book shows how business studies lectures are characterised by a synergy of discourses and communicative channels that reflect the community of practice, highlighting the need to help international business students develop multiple literacies to overcome present and future challenges.

The Complementary and Alternative Medicine

Information Source Book Alan Rees, 2001-03-30 From acupuncture to yoga, the increasing popularity of unconventional medical therapies has risen sharply during the past decade. Consumers are turning to complementary and alternative medicine (CAM) for a variety of reasons and are spending billions annually for treatments. Recognizing the growing need to locate authoritative CAM information, award-winning author Alan M. Rees has compiled a first-stop resource for those seeking information to guide their decisions. Noted health information expert Alan Rees organizes the best of complementary and alternative medicine (CAM) information resources in this new guide for librarians and patients. The book is divided into twelve sections, beginning with an overview of CAM terminology, safety concerns, ongoing research, and education and the movement towards integrative medicine. Best-of lists of books, magazines, newsletters, CD-ROMs, and professional publications are augmented with contact information for several hundred CAM associations and professional groups, an extensive section on the Internet as a source of CAM-related information, and reviews of 355 popular books on CAM. Librarians will use the Source Book as a collection development tool. Consumers and students will find it an easy-to-use guide for locating hard-to-find resources about the latest in alternative medical therapies and treatments. This unique volume brings together in one volume print and electronic resources pertaining to an in-demand topic, provides recommendations of authoritative sources of current information on a wide variety of unconventional medical therapies, and will fill the information gap in the rapidly growing field of CAM.
