Laurent de Lara, 2015-01-13 Example in this ebook beautiful Art of Illuminating which sprang up with the early dawn of Christianity and attained its highest perfection in the fourteenth and fifteenth centuries owes its total extinction to that powerful instrument of modern civilisation the Printing Press Whether it be the phlegmatic Dutch Coster or the German Necromancer Guttenberg who was the first inventor of moveable type I know not but it is quite certain that the printing process struck a fatal and decisive blow to illuminated painting the relics of which at present are carefully hoarded up in our Museums and Public Libraries and are at once the living and imperishable oracles of the bygone ages of romance and chivalry and form the glorious monuments of the known and unknown artists who created them It is equally true as well as curious that to another mode of printing chromo lithography the present century is indebted for the partial revival of this beautiful art since the many publications from the lithographic press have engendered a

corresponding taste with the public for its cultivation which is daily increasing That taste is now so manifest and so general amongst the higher and middle classes that it can no longer be considered as a mere fashionable pursuit subject to the capricious ebb and flow of the tide of fashion and again to be doomed to pass into oblivion I believe a healthier motive is apparent in its cultivators and the desire of re instating it to the rank it once held amongst its sister arts is not unmixed with the holier emotions which a genuine religious feeling arising from the daily contemplation of the divine truths of Holy Writ as exhibited in the study of our finest missals is capable of producing In this respect it presents itself to the devout mind of the novice as a labour of love for the glorious poetry of the Bible offers such a singularly fertile source to which the imagination and pencil may look for artistic inspiration The seductiveness of the art too on which the meanest capacity can employ itself is another incentive which will cause many to venture on so pleasing an occupation The interesting question then arises What probable results are likely to follow from this general revival of an obsolete art My answer is That modern civilisation will adapt it to our modern wants and will gradually lay the foundation of forming a new school identical with the nineteenth century To attain this end conscientious artists only can pave the road they have it in their power to direct and guide the masses and the public is sure to go with them The Illuminating Art Union of London in its annual expositions invites artists to exhibit their productions by which others less gifted may be incited to follow their example True Genius however exalted does not feel itself above instructing others as long as through the medium of its productions the very best interests of the art are likely to be promoted Gradually these productions will develop new ideas new resources and features of originality in addition to the improvements which modern civilisation and modern appliances necessarily suggest Already three prizes have been awarded for original designs of the Beatitudes and as a first essay of a young Society they are eminently creditable The highest in the land and perhaps the humblest also are its members and supporters and however the effort to increase its strength and its popularity might have been thwarted by the lukewarmness of those professedly the most interested in the art we owe it a debt of profound gratitude for the real good it has already achieved and cheerfully join our wishes for its welfare and success in what it still hopes to accomplish To be continue in this ebook      Guide to the Art of Illuminating and Missal Painting - Primary Source Edition William Audsley, George Ashdown Audsley, 2014-01-05 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book The below data was compiled from various identification fields in the bibliographic record of this title This data is provided as an additional tool in helping to ensure edition identification Guide To The Art Of Illuminating And Missal Painting Issue 22 Of Treatises On The Fine Arts 12 William Audsley George
