[Britannia's Zealots, Volume I](#) N.C. Fleming,2018-10-18

*Britannia s Zealots Volume I* opens the first longitudinal study to examine the Conservative Right from the late 19th century

to the present day British Conservatism has always contained a significant section fundamentally opposed to progressive reform. A permanent minority in Parliament, dissident right wing Conservatives nevertheless had allies in the press and sympathy among grassroots party members enabling them to create crises in the media and at party meetings. N. C. Fleming charts the evolution of reactionary politics from its preoccupation with the Protestant constitution to its fixation with the prestige and strength of Britain's global empire. He examines the overlooked ways in which Conservative Right parliamentarians shaped their party's policies and propaganda in and out of office and their relationships with the press and ordinary activists. He seeks to demonstrate that this influence could be circumscribing and on occasion highly disruptive with consequences which remain relevant for today's Conservative party. *Britannia's Zealots* Volume I will be of great interest to academics and students of British history, right wing politics, imperialism and 20th century history.

*England's Response to Hitler in the 1930s* David M. Valladares, 2023-05-05 This text explores the inner workings of the Cliveden Set. Analysing the political tactics used by the group, this book carefully unpicks the strategic moves played by aristocrats within 1930s Britain. Considered to be a scapegoat for Britain's Appeasement Policy by many historians, the Cliveden Set utilized their influence to encourage a British foreign policy that supported Hitler's rearmament and the annexation of Austria and Czechoslovakia. This book would be beneficial to all academics with a keen interest in politics, history and social structures. Researchers and historians will also enjoy the deep analysis of the dynamic created by this group.

Terry Irving organised a session on Popular Movements for Democracy in Early Australia. Verity Burgmann assembled some very engaging speakers to commemorate the centenary of the founding of the IWW in Australia. Phillip Deery organised an impressive array of people to talk and argue about the Cold War. The blend of scholarly research and direct engagement in the field is reflected in the presentations on workplace health and safety by Yossi Berger, Ray Markey, Greg Patmore and Bill Shorten. **A Handlist of British Diplomatic Representatives** Gary M. Bell, 1995 Number 16 in the Royal Society Guides and Handbooks series The Legend of Red Clydeside Iain McLean, 2000-02-02 This text analyzes what really happened in Glasgow in the tumultuous years following World War I It shows the real improvements in social conditions and explores the impact of these years on the coming dominance of the Labour party in the west of Scotland **June 1940, Great Britain and the First Attempt to Build a European Union** Andrea Bosco, 2016-06-22 June 2016 represents a significant moment in British history The decision to leave the European Union at the most critical period since its existence could bring unpredictable and far reaching consequences both for the United Kingdom and the Union itself June 1940 was also a turning point in British history On the afternoon of 16 June a few hours before the French Government opted for the capitulation Churchill made on behalf of the British Government an offer of indissoluble union When a sceptical Churchill put forward to the British Cabinet the text of the declaration drafted by Jean Monnet Sir Arthur Salter and Robert Vansittart he was surprised at the amount of support it received The Cabinet adopted the document with some minor amendments and de Gaulle who saw it as a means of keeping France in the war telephoned Reynaud with the proposal for an indissoluble union with joint organs of defence foreign financial and economic policies a common citizenship and a single War Cabinet The proposal however never reached the table of the French Government The spirit of capitulation embodied in Weygand and Ptain prevailed and France submitted herself to the German will for the second time in seventy years After the Munich crisis Great Britain had to face the danger of another European war with the inevitable loss of the Empire and it was at this point that the country first began to favour the application of the federalist principle to Anglo French relations In this conversion to federalism a fundamental role was played by the Federal Union the first federalist movement organised on a popular basis

The contribution of Federal Union to the development of the federal idea in Great Britain and Europe was to express and organise the beginning of a new political militancy and it represented the first step of a historical process the overcoming of the nation State the modern political formula which institutionalises the political division of mankind This study principally examines the first eighteen months of the Federal Union during which time it was able to raise itself to the attention of the general public and the political class as the heir of the League of Nations Union The research is based on extensive unpublished archival material found across the globe from London Oxford Brighton and Edinburgh to Washington Paris and Geneva
