Guidebook On Military Base Reuse And Homeless Assistance:

Guidebook on Military Base Reuse and Homeless Assistance, 1996 **Guidebook on Military Base Reuse and Homeless Assistance** Andrew Cuomo, 1997-08 This guidebook was developed to anticipate and answer potential questions about the Base Redevelopment Act a law designed to accommodate the impacted communities multiple interests in base reuse and to meet the national priority to assist homeless individuals and families It explains the base redevelopment planning process the requirements and guidelines for submission of applications and HUD s review process Included are a listing of military installations with surplus property a state by state directory of HUD contacts information on HUD funding for homeless assistance programs *Guidebook on Military Base Reuse and Homeless Assistance - Brac Base Closure Redevelopment Planning, Continuum of Care, HUD Reviews and Community Group Support* U. S. Military, Department of Defense (DoD), U. S. Government, 2018-11-25 For more than four decades the U S Department of Defense DoD has closed or realigned military installations to reduce overhead enhance readiness and modernization and adjust to the realities of changing international relations The resulting impact on surrounding communities is often dramatic Many communities have successfully converted these former installations to civilian uses such as parks and other recreational facilities business centers market rate housing affordable housing and transitional housing for homeless persons Since the late 1980s the base closure process and the role of local communities in planning for their transition to civilian use have evolved significantly The Redevelopment Act was designed to accommodate the impacted communities multiple interests in base reuse and to meet the national priority to assist homeless individuals and families The law exempted BRAC Commission installations from the provisions of Title V of the McKinney Act and substituted a community based process wherein representatives of the homeless and other community groups participate in local reuse planning The Redevelopment Act places responsibility for base reuse planning in the hands of a Local Redevelopment Authority LRA which represents all the local jurisdictions affected by a closing or realigning installation The LRA is responsible for developing a reuse plan that appropriately balances the needs of the various communities for economic redevelopment other development and homeless assistance HUD then reviews the plan to determine its compliance with the statute *Guidebook on Military Base Reuse and Homeless Assistance*, 1996 **Military Base Closures** David E. Lockwood, 2003 Approximately 13 years ago in December 1988 the first military base closure commission recommended the closing and realignment of 145 US domestic bases and facilities This action was the consequence of the Department of Defense s broad reevaluation of its mission in conjunction with the weakening and ultimate collapse of the Soviet Union There was little need according to the Pentagon to continue to retain the vast Cold War era infrastructure Funds saved from closing down under utilised bases DOD further noted could be used to enhance development of new weapons and improved readiness Three additional rounds followed the 1988 round of infrastructure reductions in 1991 1993 and 1995 Since then no further rounds of base closures and realignments have been

authorised by Congress despite repeated requests from the Department of Defense in recent years for two additional rounds. The reasons for congressional resistance are two fold. First there is concern over a likely backlash from constituents living in or near military installations. Second many Members of Congress remain wary about a repetition of the perceived political intrusion by the Clinton Administration that occurred in regard to the 1995 recommendations to close Kelly and McClellan air force bases. This book reveals the tension in the military facilities that may yet again be up for closure. Also discussed are the issues members of Congress feel need be answered before conducting a new round of base closures when the national security environment is uncertain.

The Department of Defense DoD has been closing military bases and assisting Defense impacted communities through its Defense Economic Adjustment Program for more than 35 years. Over this period of time experience has shown that the primary responses to a closure must be community based. This describes the roles of community leaders, State leaders, Federal officials and other resources. The role of community leaders where economic adjustment efforts begin and end is described in terms of the three components of economic adjustment: the community, local businesses and workers. The roles of State and Federal officials are briefly summarized. A detailed listing of the various resources available to your community can be found in the Appendix. The economic and social fabric of a community is tested

when a closure action is announced What does this decision mean How will jobs be impacted Is there any way to avoid the closure The closure and reuse process is disruptive but the experience of most communities is that the net result is economically beneficial in the long run The base reuse process consists of a series of activities involving both the Local Redevelopment Authority LRA and the Military Department These activities are required by both laws and regulations An LRA must be aware of this general process to effectively respond to the closure and to move the community toward economic recovery The overall reuse and disposal process reuse process consists of three phases base wide reuse planning disposal and reuse decision making and decision implementation This Section provides a brief overview of the reuse process including information on transitional impacts to the community as the base is converted from military to civilian use *Federal Real Property: Most Public Benefit Conveyances Used as Intended, but Opportunities Exist to Enhance Federal Oversight* ,2006
