Sherman,1999 The contrast between battlefield and home front soldier and civilian was the basis for memory and collective gratitude Postwar commemoration however also grew directly out of the long and agonized search for the remains of hundreds of thousands of missing soldiers and the sometimes contentious debates over where to bury them For this reason the local monument with its inscribed list of names and its functional resemblance to tombstones emerged as the focal point of commemorative practice Sherman traces every step in the process of monument building as he analyzes commemoration's

competing goals to pay tribute to the dead to console the bereaved and to incorporate mourners individual memories into a larger political discourse Pub description [Catalog of Copyright Entries, Third Series](#) Library of Congress. [Arab Nationalism](#) Peter Wien,2017-02-10 This book sheds light on cultural expressions of Arab Nationalism and the contradictory meanings often attached to it It presents nationalism as an experienceable set of identity markers in stories visual culture narratives of memory and struggles with ideology Using case studies the book transcends a conventional history that reduces nationalism in the Arab lands to a pattern of political rise and decline It suggests Arabs have constructed an identifiable shared national culture and it critically dissects conceptions about Arab nationalism as an easily graspable secular and authoritarian ideology modelled on Western ideas and visions of modernity **Marketing Michelin** Stephen L. Harp,2001-12-14 Harp uses the familiar figure of Bibendum and the promotional campaigns designed around him to analyze the cultural assumptions of belle epoque France including representations of gender race and class He also considers Michelin s efforts to promote automobile tourism in France and Europe through its famous Red Guide first introduced in 1900 noting that in the aftermath of World War I the company sold tour guides to the battlefields of the Western Front and favourably positioned France s participation in the war as purely defensive and unavoidable Throughout this period the company successfully identified the name of Michelin with many aspects of French society from cuisine and local culture to nationalism and colonialism **Dark Allure of the Côte d'Azur** ,2025-01-27 This is the first critical work on the history of the French Riviera from its origins in the eighteenth century to the present day in the English language It makes the argument that multi faceted power and violence war murder land dispossession and other privations targeted at the poor imperialism and ecological degradation land sea rivers and air has been integral to the making of the C te d Azur Invariably this has been downplayed in previous general histories that tend to focus on the personal lives and loves of famous outsiders In effect the complex general history of the place is rarely told Bryant seeks to set that record straight in an innovative work crisscrossing the borders of European and imperial history geography politics and environmental studies that will be of interest to an array of scholars students and general readers who wish to learn about how the planet s most famous coastal resort was made
