*Literary Research and the American Modernist Era* Robert N. Matuoizzi, Elizabeth B. Lindsay, 2008-07-31 Characterized by its move away from Romanticism and toward mundane every day subjects as well as incorporating such ideas as metanarrative stream of consciousness and disjointed timelines the American Modernist Era was at its heyday during the years 1914-1949. It produced such great authors as Ernest Hemingway, William Faulkner, and F. Scott Fitzgerald and memorable works like *As I Lay Dying* and *The Great Gatsby*. *Literary Research and the American Modernist Era* offers the scholar and researcher a clear introduction to the best contemporary library resources and practices for researching American modernist writing. Graduate students, advanced undergraduates, researchers, and scholars specializing in American modernist writing will improve their information skills and fluency whether in the real or the virtual library. Even those lacking access to some of the resources described here can profit from this overview of literary research because it will help them frame questions, indicate where to go for answers, and demonstrate useful connections between many of the secondary scholarly sources. This guide offers a coherent account of how contemporary research skills and resources can complement one another in helping the scholar effectively deal with typical challenges they encounter in their work. *Archival Sources for Women's History* Anne R. Kenney, 1987 *Essays in the Economic History of the Atlantic World* John McCusker, 2005-08-15 Written by one of the leading authorities on trade and finance in the early modern Atlantic world, these fourteen essays, revised and integrated for this volume, share as their common theme the development of the Atlantic economy, especially British America and the Caribbean. Topics treated range from early attempts in medieval England to measure the carrying capacity of ships through the advent in Renaissance Italy and England of business newspapers that reported on the traffic of ships, cargoes, and market prices to the state of the economy of France over the two hundred years before the French Revolution and of the British West Indies between 1760 and 1790. Included is the story of Thomas Irving who challenged and thwarted the likes of John Hancock, Samuel Adams, Alexander Hamilton, George Washington, and Thomas Jefferson. *American Military History* Daniel K. Blewett, 2008-12-30 In this companion volume to his 1995 bibliography of the same title, Daniel Blewett continues his foray into the vast literature of military studies. As did its predecessor, it covers land, air, and naval forces, primarily but not exclusively from a U.S. perspective, with the welcome emergence of small wars from publishing obscurity. In addition to identifying relevant organizations and associations, Blewett has gathered together the very best in chronologies, bibliographies, biographical dictionaries, indexes, journals, abstracts, glossaries, and encyclopedias, each accompanied by a brief descriptive annotation. This work remains a pertinent addition to the general reference collections of public and academic libraries, as well as special libraries, government documents collections, military and intelligence agency libraries, and historical societies and museums. **1979-1990** Henryk Sawoniak, 2012-02-14 No detailed
