## **Guinness Of Historical Blunders:**

*The Guinness Book of Historical Blunders* Geoffrey Regan, 1994

**100 Mistakes** Gareth Rubin, 2014-05-08 In 1914 a train pulled into a provincial British railway station The porter a curious chap asked the regiment of soldiers where they were from Ross shire one called down but the porter heard Russia And so began a rumour that led to Germany losing the First World War Often the history we learn at school is only half the story We hear of heroic deeds and visionary leaders but we never hear about the people who turned up late for court and thereby changed the law or who stood in the wrong queue at university and accidentally won a Nobel Prize The Great Cat Massacre A History of Britain in 100 Mistakes demonstrates that the nation is as much a product of error as design Through chapters on religion law culture war science and politics it reveals such things as how an edict from Pope Gregory IX helped spread the Black Death how the sister of cricketer John Willes invented overarm bowling and how had a letter not been lost Disraeli might never have become prime minister This book is history told through human failings schoolboy errors bad luck and extraordinary consequences a history of mishearing misdiagnosis and misinterpretation a history that you won't find in the textbooks

The Abuses of Punishment R. Adams, 1998-02-18 This book argues that abusive punishments are particularly deeply rooted in authoritarian states and in some Western countries such as Britain and the USA from which they have been exported over past centuries The book surveys a variety of psychological physically constraining custodial corporal and capital punishments The implicit punitive content of judicial processes such as trial as well as treatments such as behavioural therapy may have as much psychological impact as more explicitly physical punishments

**Military Blunders** Saul David, 2012-09-06 Retelling the most spectacular cock ups in military history this graphic account has a great deal to say about the psychology of military incompetence and the reasons even the most well oiled military machines inflict disaster upon themselves Beginning in AD9 with the massacre of Varus and his legions in the Black Forest all the way up to present day conflict in Afghanistan it analyses why things go wrong on the battlefield and who is to blame

The Guinness Book of Naval Blunders Geoffrey Regan, 1993 The author of Guinness's two books of military blunders from all periods of history presents a corresponding survey of naval incompetence focusing on the misjudgements and oversights of captains fleet commanders and strategic planners from Roman times to the Falklands War omissions of sailors of every rank the book incorporates failed amphibious operations avoidable submarine disasters and naval aviation disasters Case studies at the end of each chapter provide analysis of what went wrong in key battles and campaigns such as Navarino Tsushima Gallipoli Jutland Midway and Leyte Gulf

**Delivering Exceptional Project Results** Jamal Moustafaev, 2010-09-15 Leading companies that are positioning themselves for the future rather than the present are asking the project managers to participate in project selection scoping and estimation as well as management Delivering Exceptional Project Results offers a glimpse into the future role of the project manager Harold Kerzner Ph D Best selling Author Professor Emeritus Baldwin

Wallace College I really enjoyed reading this book The chapters full of valuable insights well beyond the typical project management presentations are introduced with diverse and engaging historic case examples Executives will find the latter part of the book particularly valuable as new solutions are offered for those seemingly intractable problems within project portfolio management R Max Wideman Fellow PMI AEW Services and Management Consulting *Delivering Exceptional Project Results* is a definite must read for any executive functional director or project manager The author clearly demonstrates how to deliver successful products and services by employing proper project selection scoping and management techniques This book provides you with practical hands on tools and techniques that can be deployed on your own projects right away Matt Walters Director of Technology Tyze Personal Networks This unique how to implementation guide unifies project management portfolio management and requirements engineering into one proven comprehensive best practice framework to help organizations deliver exceptional project results on a consistent basis It explains best practices for assessing project value categorizing and prioritizing projects balancing portfolio mix determining and managing project pipeline throughput capacity and aligning strategy to maximize results and minimize risks *Delivering Exceptional Project Results* transcends differences in the various types of project management such as traditional or agile and focuses on economic principles methodologies skills tools and techniques that can be applied successfully at companies in any industry It also includes six downloadable templates for documenting project charters plans meeting minutes change requests status reports and summary lessons learned reports available from the Web Added Value Download Resource Center at [www.grosspub.com](http://www.grosspub.com)

*Loose Cannons* Graeme Donald, 2011-03-15 A unique look at the military misconceptions that we take for granted and a revelation of the truth behind the lies Who tried to bomb Japan with bats Who invented the air gun in 250BC Which stories should we believe The so called Dambusters raid was all but ineffective the Hurricane not the Spitfire was the champion of the Battle of Britain Singapore did not fall because all the guns were pointing the wrong way and who would go to war over a game of football a pig or an old bucket Oppenheimer fluffed his lines after the first atomic test virtually every well known quote attributed the Duke of Wellington is wrong Churchill had a BBC voice impersonator record all his famous WW2 speeches as he was invariably too busy or too tired and emotional to do it himself and no one at the time called WW1 The War to end all Wars Will you believe the truth

**Myths That Shaped Our History** Simon Webb, 2020-01-31 Simon Webb s eminently readable book may draw gasps of horror disbelief or disdain a mind blowing and fascinating journey through history On Yorkshire Magazine All nations and peoples have a body of legendary tales and semi historical episodes which explain who they are and help to define their place in the world The British are no exception and in this book Simon Webb explores some of the most well known episodes from British history stories which tell the British about themselves and the country in which they live Examining these events in detail reveals something rather surprising In every case the historical facts are greatly at variance with what most British people think that they know about such things as the Battle of

Waterloo Magna Carta the suffragettes and so on Indeed in many cases the reality is precisely the opposite of what is commonly believed For example the Battle of Waterloo was not a victory for the British army Magna Carta did not set out any rights for ordinary people and the suffragettes delayed rather than hastened the granting of votes for women This book shows that much of what the British believe about their history has been either grossly distorted or is just plain wrong revealing some of the misconceptions which are held about famous incidents from the nation's past In each case the truth is far richer and infinitely more interesting than the version learned by schoolchildren These myths for that is what they essentially are reveal as much about the way that the British people like to see themselves now as they do about what happened in the past

*No Tradesmen and No Women* Michael Coolican, 2018-11-20 Is our civil service fit for purpose Michael Coolican takes John Reid's damning statement about the Home Office as his point of departure for a comprehensive overview and evaluation of the machinery behind the government and the people who make public services work on a daily basis Beginning with Henry VIII's chief minister Thomas Cromwell Michael Coolican takes us on an odyssey through the history of the British civil service starting with a time when public positions were sold and traded through Royal Warrant Coolican examines the radical reforms of the Victorian era which entrenched a culture of elitism misogyny and distrust of high quality data as a basis for decision making that in some areas persists to this day A former high level civil servant with forty years of experience Coolican has produced a pithy and where necessary ruthless analysis of the civil service and its relationship with government especially at Cabinet level bringing to bear detailed and extensive research informed by a true insider

**Light for the last days, by mr. and mrs. H.G. Guinness** Henry Grattan Guinness, 1886 [Secret Casualties of World War Two](#) Simon Webb, 2020-02-28 This study of friendly fire on civilians during the London Blitz and the attack on Pearl Harbor exposes the unknown horror behind these iconic WWII events The London Blitz and the Japanese attack on Pearl Harbor have ascended to the level of myth for Britain and America Yet both of these artfully constructed narratives of heroic resistance to aerial bombardment conceal the massacre of citizens by the very militaries charged with protecting them In Britain thousands of civilians were killed when the army shelled London and other cities to prevent residents from fleeing the German bombs At Pearl Harbor American warships fired their heavy guns at the city of Honolulu with devastating results Simon Webb begins this volume with an overview of bombing and anti aircraft guns from the Franco Prussian War of 1870-1871 through to the First World War He then reveals the casualties which friendly fire from heavy artillery inflicted upon British and American civilians during World War Two In the case of the British these deaths were a deliberate part of a shockingly cynical policy There were times during the German bombing of London when more people were being killed by British shells than by enemy bombs

**Business Blunders** Geoff Tibballs, 1999 This book tells the stories behind some of the world's most disastrous financial mistakes from the collapse of business empires like DeLorean through huge corporate errors like New Coke and the Ford Edsel down to smaller yet still embarrassing business bloopers
