Rachel Sandford

Gulag Archipelago Vol 3 Katorga Exile Stalin Is No More:

Taking Lives Irving Louis Horowitz, *Taking Lives* is a pivotal effort to reconstruct the social and political contexts of twentieth century state inspired mass murder Irving Louis Horowitz re examines genocide from a new perspective viewing this issue as the defining element in the political sociology of our time The fifth edition includes approximately 30 percent new materials with five new chapters The work is divided into five parts Present as History Past as Prologue Future as Memory Toward A General Theory of State Sponsored Crime Studying Genocide The new edition concludes with chapters reviewing the natural history of genocide studies from 1945 to the present along with a candid self appraisal of the author s work in this field over four decades *Taking Lives* asserts that genocide is not a sporadic or random event nor is it necessarily linked to economic development or social progress Genocide is a special sort of mass destruction conducted with the approval of the state apparatus Life and death issues are uniquely fundamental since they alone serve as a precondition for the examination of all other issues Such concerns move us beyond abstract formalist frameworks into new ways of viewing the social study of the human condition Nearly all reviewers of earlier editions have recognized this *Taking Lives* is a fundamental work for political scientists sociologists and all those concerned with the state s propensity toward evil

Books Out Loud ,2007 The New Yorker Harold Wallace Ross,Katharine Sergeant Angell White,1978-10 Words on Cassette, 2002 R R Bowker Publishing,2002 **Political History and Culture of Russia** ,2004 Scholarly articles dealing with political events in Russia up to 1991 *Books in Print Supplement* ,1994 Library Journal ,1979 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **American Opinion** ,1979 *The Fateful Pebble* Anthony Arnold,1993 The *Fateful Pebble* explores the Soviet defeat in Afghanistan as a catalyst that helped trigger the first extraordinary political event of the 20th century the self generated collapse of the Soviet empire At the dawn of the 1980s decade the Soviet military machine seemed invincible and Moscow s expansionist designs unswervable Intermediate range SS 20 missiles were intimidating Western Europe the Soviet ICBM force was at least the equal of America s and with the invasion of Afghanistan at the end of 1979 the Kremlin showed its willingness to project its power directly into a neighboring nonaligned country But nearly ten years later the last Soviet army regular units withdrew into Central Asia without ever having conquered the elusive Afghan resistance fighters who had spontaneously risen up against them Less than three years after that retreat the Soviet Union itself had ceased to exist The early chapters provide unique perceptions of Russian and Afghan psychology a historical view of how military defeat had led to earlier Russian domestic upheavals and a description of how the Communist Party apparat the Soviet military establishment and the KGB had successfully defended Moscow s empire in the past The details of the consecutive failure of each of these institutions to solve Moscow s Afghanistan problem show how the authority of each was seriously undermined at home and abroad Each as it lost its prestige with the public and its own middle grade

officers Internally splintered no longer mutually supportive and resting on an eroding foundation of war weakened public confidence eventually the three institutions collapsed together with the regime they supported The book illustrates how the KGB in particular suffered defeat because it came to believe its own disinformation In the end the implosion of the vast false front Potemkin village that had been the Soviet Union can be ascribed in large part to the cruel truths of the Afghan war
