Ian Watt Marina MacKay, 2018-11-22 Before his masterpiece *The Rise of the Novel* made him one of the most influential post-war British literary critics Ian Watt was a soldier a prisoner of war of the Japanese and a forced labourer on the notorious Burma Thailand Railway Both an intellectual biography and an intellectual history of the mid-century this book reconstructs Watt's wartime world these were harrowing years of mass death deprivation and terror but also ones in which communities and institutions were improvised under the starkest of emergency conditions Ian Watt *The Novel and the Wartime Critic* argues that many of our foundational stories about the novel about the novel's origins and development and about the social moral and psychological work that the novel

accomplishes can be traced to the crises of the Second World War and its aftermath *Forgotten Captives in Japanese-Occupied Asia* Kevin Blackburn, Karl Hack, 2007-12-14 Experiences of captivity in Japanese occupied Asia varied enormously Some prisoners of war POWs were sent to work in Japan others to toil on the Death Railway between Burma and Thailand Some camps had death rates below 1 per cent others of over 20 per cent While POWs were deployed far and wide as a captive labour force civilian internees were generally detained locally This book explores differences in how captivity was experienced between 1941 and 1945 and has been remembered since differences due to geography and logistics to policies and personalities and marked by nationality age class gender and combatant status Part One has at least one chapter for each National Memory Australian British Canadian Dutch Indian and American Part Two moves on to forgotten captivities It covers women children camp guards internee experiences upon the end of the war and local heroines who fought back By juxtaposing such a wide variety of captivity experiences differentiated both by category of captive and by approach this book transcends place to become a collection about captivity as a category It will interest scholars working on the Asia Pacific War on captivities in general and on the individual histories of the countries and groups covered **Fever Hospital** W K Anderson, 2013-06-05 Infectious diseases have threatened life and social order throughout human history inducing deep and pervasive fear The story of Fairfield Hospital is central to the story of infectious diseases in Victoria and is thus a significant chapter in Australia's history Fairfield Infectious Diseases Hospital began life in 1904 as a fever hospital It treated patients for typhoid diphtheria cholera and smallpox and grappled with epidemics of polio and scarlet fever It later became one of the world's foremost centres for the research and treatment of infectious diseases especially HIV AIDS And then it was closed in 1996 amid controversy protest and distress Fever Hospital is an invaluable record of the work and achievements of Fairfield W K Anderson sets these achievements in the context of Australian developments in medicine and health He describes important initiatives in research medical treatment and patient care He traces a century of change in organisational structure and personnel The combined expertise of the Fairfield Hospital team is now scattered But Anderson in gathering together the fruits of their knowledge experience and skill has ensured that the story of a remarkable and much loved hospital is not lost to us Fever Hospital is a valuable social and institutional history But above all it is a faithful tangible and generously illustrated record of a great hospital written for the people who worked at Fairfield and for those who found healing and comfort there Australia's War 1939-45 Joan Beaumont, 2020-09-10 The Second World War was a dominant experience in Australian history For the first time the country faced the threat of invasion The economy and society were mobilised to an unprecedented degree with 550 000 men and women or one in twelve of a population of over 7 million serving in the armed forces overseas Social patterns and family life were disrupted Politically the war gave a new legitimacy to the Australian Labor Party which had been confined to the wilderness of the Opposition at the Federal level for most of the inter war years The powers of the Federal government increased and a new momentum for social reform was generated at

the popular and governmental level In the international sphere the war fundamentally shook Australian confidence in the power on which it had relied for generations Great Britain It generated a sense of independence in Australian foreign policy and initiated a new if halting and problematic realignment towards the United States In this accessible book Joan Beaumont Kate Darian Smith David Lee David Lowe Marnie Haig Muir Roy Hay and David Walker consider the range of Australia's experience of this conflict In a single volume they draw together the many aspects of the war and distil the current state of historical scholarship Australia's War 1939-45 will be invaluable to tertiary students and of enormous interest to the reader concerned with the social political and military history of Australia A companion volume on the First World War is also available

The Cost of War Professor Stephen Garton, 2020-04-01 War has shaped Australian society profoundly When we commemorate the sacrifices of the Anzacs we rightly celebrate their bravery but we do not always acknowledge the complex aftermath of combat In *The Cost of War* Stephen Garton traces the experiences of Australia's veterans and asks what we can learn from their stories He considers the long term effects of war on returned servicemen and women on their families and communities and on Australian public life He describes attempts to respond to the physical and psychological wounds of combat from the first victims of shellshock during WWI to more recent understandings of post traumatic stress disorder And he examines the political and social repercussions of war including debates over how we should commemorate conflict and how society should respond to the needs of veterans When the first edition of *The Cost of War* appeared in 1996 it offered a ground breaking new perspective on the Anzac experience In this new edition Garton again makes a compelling case for a more nuanced understanding of the individual and collective costs of war

Australia's China Lachlan Strahan, 1996 First published in 1996 Australia's China explores the multifaceted and dynamic Australian encounter with China from the beginning of the Sino Japanese War in 1937 through the Cold War to the Australian recognition of the PRC in 1972 Going beyond conventional policy studies it traces the patterns in Australian reactions to China from the grass roots to official circles highlighting the centrality of images concerning the exotic disease sexuality the frontier and China as a paradise anti paradise In responding to China Australians revealed something of themselves and this book maps the formation of Australian conceptions of identity in the context of a cross cultural encounter which was variously cooperative enriching baffling and antagonistic But there was no single Australian conception of China Rather competing perceptions jostled in a shifting dialogue

Surviving the Great War Aaron Pegram, 2020 *Surviving the Great War* is the first detailed analysis of Australians in German captivity in WW1 By placing the hardships of prisoners of war in a broader social and military context this book adds a new dimension to the national wartime experience and challenges popular representations of Australia's involvement in the First World War

Australia's War Crimes Trials 1945-51 Georgina Fitzpatrick, Timothy L.H. McCormack, Narrelle Morris, 2016-08-29 This unique volume provides a detailed analysis of Australia's 300 war crimes trials of principally Japanese accused conducted in the immediate aftermath of the Second World War Part I contains contextual

essays explaining why Australia established military courts to conduct these trials and thematic essays considering various legal issues in and historical perspectives on the trials Part II offers a comprehensive collection of eight location essays one each for the physical locations where the trials were held In Part III post trial issues are reviewed such as the operation of compounds for war criminals the repatriation of convicted Japanese war criminals to serve the remainder of their sentences and reflections of some of those convicted on their experience of the trials In the final essay a contemporary reflection on the fairness of the trials is provided not on the basis of a twenty first century critique of contemporary minimum standards of fair trial expected in the prosecution of war crimes but by reviewing approaches taken in the trials themselves as well as from reactions to the trials by those associated with them The essays are supported by a large collection of unique historical photographs maps and statistical materials There has been no systematic and comprehensive analysis of these trials so far which has meant that they are virtually precluded from consideration as judicial precedent This volume fills that gap and offers scholars and practitioners an important and groundbreaking resource

Detention Camps in Asia, 2022-05-20 Why have Asian states colonial and independent imprisoned people on a massive scale in detention camps How have detainees experienced the long months and years of captivity And what does the creation of camps and the segregation of people in them mean for society as a whole This ambitious book surveys the systems of detention camps set up in Asia from the beginning of the 20th century in The Philippines Indonesia Japan Malaya Myanmar Burma Vietnam Timor Korea and China

The Hidden Histories of War Crimes Trials Kevin Heller, Gerry Simpson, 2013-10 Several war crimes trials are well known to scholars but others have received far less attention This book assesses a number of these little studied trials to recognise institutional innovations clarify doctrinal debates and identify their general relevance to the development of international criminal law

Long Night's Journey into Day Charles G. Roland, 2010-10-30 Sickness starvation brutality and forced labour plagued the existence of tens of thousands of Allied POWs in World War II More than a quarter of these POWs died in captivity Long Night's Journey into Day centres on the lives of Canadian British Indian and Hong Kong POWs captured at Hong Kong in December 1941 and incarcerated in camps in Hong Kong and the Japanese Home Islands Experiences of American POWs in the Philippines and British and Australians POWs in Singapore are interwoven throughout the book Starvation and diseases such as diphtheria beriberi dysentery and tuberculosis afflicted all these unfortunate men affecting their lives not only in the camps during the war but after they returned home Yet despite the dispiriting circumstances of their captivity these men found ways to improve their existence keeping up their morale with such events as musical concerts and entertainments created entirely within the various camps Based largely on hundreds of interviews with former POWs as well as material culled from archives around the world Professor Roland details the extremes the prisoners endured from having to eat fattened maggots in order to live to choosing starvation by trading away their skimpy rations for cigarettes No previous book has shown the essential relationship between almost universal ill health and POW life and death or provides

such a complete and unbiased account of POW life in the Far East in the 1940s *Justice In Arms* Australian Army Legal Corps,2014-01-05 *Justice in Arms* brings to life a fascinating and important element of Australia's legal history the role of Army legal officers in Australia and in expeditionary operations from the Boer War until 2000 This is a comprehensive and absorbing history which describes the dynamic interaction of institutional and political imperatives and the personalities who managed this interaction over the decades It is populated by colourful characters and legal luminaries and demonstrates that military justice is rightly concerned with discipline and cohesiveness Reflecting broader societal norms it is also concerned with the rule of law and respect for the rights liberties and fair treatment of those who serve in the armed forces *Justice in Arms* describes the extraordinary contribution of Army legal officers to both the profession of arms and the development of the law charting the evolving personal and structural relationships between Army legal officers and command dictated by the changing legal needs of the Army and the broader Australian Defence Force Today Army legal officers apply adapt and shape the law to meet evolving needs in peacetime and during armed conflict and peace operations ensuring the legitimacy of military action and the maintenance of domestic and international support for national objectives **Prisoners of War** Arnold Krammer,2007-11-30 America's current War on Terror is causing a readjustment of centuries of POW policies Prisoners of war are once again in the news as America and Western Europe grapple with a new faceless enemy and the rules of war and the torture of POWs are open to reconsideration Until very recently there has been astonishingly little written on the subject of prisoners of war Yet to understand the present it is critical to look back over history To that end Arnold Krammer examines the fate of war prisoners from Biblical and Medieval times through the halting evolution of international law to the current reshuffling of the rules The issue of prisoners of war is of more immediate concern now than ever before and an examination of the history of their treatment and current status may well influence foreign policy The fate of war prisoners through history has been cruel and haphazard The lives of captives hung by a thread Execution enslavement torture or being held for ransom were equally likely International agreements developed haltingly through the 19th and 20th centuries to culminate in the Geneva Accords of 1929 America's current War on Terror is causing a readjustment of centuries of POW policies Prisoners of war are once again in the news as America and Western Europe grapple with a new faceless enemy and the rules of war and the torture of POWs are open to reconsideration Until very recently there has been astonishingly little written on the subject of prisoners of war Yet to understand the present it is critical to look back over history To that end Arnold Krammer examines the fate of war prisoners from Biblical and Medieval times through the halting evolution of international law to the current reshuffling of the rules Since biblical times war captives have been considered property and counted as booty to be enslaved or killed Americans were interested in generals and weapons and battles but not the fate of prisoners of war The Second World War when 90 000 Americans fell into enemy hands began to change that Concern for our POWs in Germany and Japan and close contact with enemy camps in America began to change our attitudes

However it was the Vietnam War media driven and polarizing that caused the American public to truly reevaluate the plight of its sons and brothers heroic and clearly loyal as they fell into the hands of an inscrutable and apparently unyielding distant enemy More recently during the first Gulf War of 1991 and the current War on Terrorism the issue of prisoners of war has moved to center stage involving the clash of ideologies politics and expediency Since 9 11 the rights and safety of prisoners of war caught up in the War on Terror have been debated in Congress and adjudicated on by former Attorney General Alberto Gonzales whose conclusions were protested by numerous organizations The issue of prisoners of war is of more immediate concern now than ever before and an examination of the history of their treatment and current status may well influence foreign policy
