**Biology and Manners** Regina Yung Lee, Una McCormack, 2020-06-17 This volume of essays continues the establishment of Lois McMaster Bujold as an important author of contemporary science fiction and fantasy. It argues persuasively that Bujold's corpus spans the distance between two full arcs of US feminism and has anticipated or responded to several of its current concerns in ways that invite or even require theoretical exploration. The fourteen essays collected here provide wide ranging scholarly analyses of Bujold's work and worlds so far covering not only the science fiction and fantasy series but taking into account the wealth of ancillary material inspired by her works such as fan fiction and role playing games. Examining the major series through a range of perspectives including feminist readings, queer theory and disability studies, this volume aims to establish beyond doubt the seriousness of intent behind Bujold's various artistic projects and provide a set of rich readings of this engaging, experimental, playful and popular author.

**Orbital 2100** Paul Elliott, 2016-09-25 Orbital 2100 is a science fiction setting for Cepheus Engine and other Classic 2D6 SF RPGs. It has realistic TL 9 feel that is set within our own solar system. The Earth is locked in a Cold War with the people of Luna. Both face off 400 000 km apart threatening mutual annihilation whilst they compete to colonise the moons of Jupiter and Saturn. Older colonies such as Mars and Mercury are independent and caught up in this struggle for solar system supremacy. Spacecraft use nuclear thermal rockets and create gravity by spinning pods or centrifuges. This is spaceflight as envisaged today. In keeping with the near future and hard science fiction themes, role playing campaigns focus on real people doing real jobs. The game has rules, technology and advice to allow scenarios based around deep space haulage, asteroid mining, salvage, rescue and exploration. Colour cover with B/W interior.
