*The Aether-Cosmic Computer Structure and Function* Alfy Sourial, 2021-05-04 The author has worked on the thesis of the Material Aether since 1981 The author is a retired surgeon and an amateur physicist physics is his hobby A free thinker putting up a sincere effort to find the truth both in its totality as well as its minutest possible detail a tall order This book is expected to supplement and or modify most updates in physics establish the existence of the aether identify the aether as the Cosmic Computer suggest and propose the aether Cosmic Computer structure make an educated guess at the modus operandi of its function and its expected future behavior using illustrations and logistic intuition Through patience diligence perseverance in my old age and mere luck it has exceeded my expectations In assessing the blame if any for not recognizing the Aether as the cosmic computer CC the Author puts much more blame on the current Scientific Community as a whole than on Einstein in particular Let us remember that Computers were not known throughout Einstein s life They were first introduced during his last few years By contrast the current Scientific Community as a whole has lived for the past 70 years with computers It is about time they consider a few dozen serious propositions at the core of physics which may end up being accepted by default within the next ten to twenty years

*The Fire of Aether is the all-vivifying Spirit of Cosmic Matter* Helena Petrovna Blavatsky, 2019-04-07 Part 1 Aether is the Father of the Universe and the all vivifying Spirit of Cosmic Matter Myths always speak to those who listen In Kosmos there are three higher principles Chthonia Chaos ther Zeus and Chronos Time ther is the Spirit of Cosmic Matter represented by Zeus Osiris and other androgynous deities Astral Light is their shadow on earth Fire is the unity of ther in its universality But there are two Kosmic Fires and a distinction is made between them in the Occult teachings ther and Hemera are the light of the superior and the light of the inferior or terrestrial regions ther Chaos Akasha is Deity The ther of the Greeks is the Akasha of the Hindus the Ether of modern physics is one of ther s subdivisions on our plane ther and Chaos Plato s Mind and Matter are the two primeval and eternal principles of the universe utterly independent of anything else ther is the all vivifying intellectual principle Chaos a shapeless liquid principle without form or sense from the union of which two sprung into existence the Universe the first androgynous deity the chaotic matter becoming its body and ther its soul Chaos Theos Kosmos are aspects of the Unknown Space Deity in the shape of ther Chaos Akasha Soul of the Universe and noumenon of Astral Light pervades all things The Theurgists called it the Living Fire and the Spirit of Light The science of physics and of metaphysics for that matter know nothing of ther Yet Father ther is re welcomed with open arms and wedded to gravitation ther is the source and cause of all forces whether cohesive chemical thermal electric or magnetic ther is septenary whether Akasha is meant by the term or its lower principle Ether Akasha is the Matrix of the Universe and the Mysterium Magnum from which all that exists is born by separation or differentiation it is the cause of existence it fills the infinite Space and is Space itself in one sense But as the finite within the Infinite this light must have its shadowy side the Astral Light which is no light Individual human beings can overpower that fatal light but only by

the holiness of their lives and by acts of kindness and brotherly love In Buddhism there are no compulsory beliefs We are to believe only when the writing doctrine or teaching is corroborated by our own reason and consciousness But then we have to act accordingly and abundantly Nihil is synonym for the impersonal divine Principle the Infinite All which is neither being nor thing It is the Parabrahman of the Vedantist The One Life of the Buddhist That of the Chhandogya Upanishad the Ain Soph of the Kabbalah The Absolute of Hegel Lord Buddha taught that the Primitive Substance is eternal and unchangeable Its vehicle is the pure luminous ther boundless infinite Space still a creation of maya Mastery of Buddhist dogmas can be attained only by following the Platonic deductive method i e proceeding from universals to particulars In Buddhist philosophy annihilation implies only a dispersion of matter in whatever form or semblance of form it may be Even our astral bodies pure ether are but illusions of matter so long as they retain their terrestrial outline ther is incorruptible The spirits of creatures who are emanations of the most sublimated portions of ther are Breaths not forms The body of Jesus was abandoned to the earth while Christos the Inner Man was clothed with a luminous body made up of ther Part 2 Ether is the Mother of differentiated matter vivified by the formless Fire of Aether When we recall pictures from the ether the returning current meeting the outgoing wave of crystallised sound takes it up by magnetic attraction and returns to us simultaneously the images of the past and the vibrations of its sounds Each particle of matter is the register of all that has happened and previsionally apprehends even unspoken thought which once conceived displaces the particles of the brain by setting them in motion and scatters its ideas throughout the universe thus impressing them indelibly upon the eternal and boundless expanse of ether The Divine Intellect is veiled in man His animal brain alone philosophizes When astral light circulates in harmony with the divine spirit the occult powers of plants animals and minerals magically sympathize with the superior natures and the divine soul of man attunes with the inferior ones But during the barren periods the latter lose their magic sympathy and the spiritual sight of the majority of mankind is so blinded as to lose every notion of the innate powers of its divine lineage and essence Spirit is the personal god of each mortal and his only divine element The dual soul on the contrary is semidivine i e potentially divine It is only when the human individuality soiled with earthly impurities overcomes separateness and identifies itself with the divine intelligence within that the aroma of personal experience can become immortal Although invisible thought is a material force Let the least cerebral motion reverberate in the Ether of Space and it will produce a disturbance reaching to infinity Akasha is not the Holy Ghost because it would then be Shekh nah M laprakriti Akasha is the noumenon of the Cosmic Septenary whose soul is Ether Ether is the lining of Akasha and Akasha is the Anima Mundi and Mother of Kosmos Akasha whose lowest form is the Ether of Space is entirely different from the medium of Science Fire is the Spirit of Deity the active male generative principle and Ether the Soul of Matter is the light of the Fire the passive female principle from which everything in this Universe emanated Hence Ether or Water is Mother and Fire is Father Sound is the characteristic of Akasha Ether it generates air the property of which is touch and which by friction generates colour and light

The ether of Science is the grossest manifestation of Akasha though on our plane it is the seventh principle of the astral light and three degrees higher than radiant matter When ether penetrates or informs something it may be molecular because it takes on the form of the latter and its atoms inform the particles of that something We may perhaps call matter crystallised ether There is no such things as light heat sound or electricity There is nothing but radiant energy due to one thing Motion of Ether Modern Science may divide its hypothetically conceived ether in as many ways as it likes the real Ether of Space i e ether will remain as it is throughout Ether is the vibrating sound board in Nature in all of her seven differentiations Where there was no Ether there would be no sound The Astral Light or Ether of Space preserves the images of all beings and things on its sensitised waves An occult explanation of Spirit photographs is that they are objective copies from subjective photographs impressed upon the ether and constantly thrown out by our thoughts words and deeds There exists an infinite ocean of ether in which all material substance floats and through which are transmitted all forces in the physical universe So long as Spirit photography instead of being regarded a science is presented to the public as a new revelation from the God of Israel and Jacob the jury will go on deliberating much longer The mediumistic rapping is a correlation of vital force emitted from the person of the rapper with the potential energy of the ether Cyprianus the reformed sorcerer of Antioch confessed that he knew of the Chald an division of ether into parts Part 3 The Seven Cosmic Elements with their numberless sub Elements are modifications of One Element There is but One Element in Nature and at its rootless root is Deity The so called Seven Elements of which five have already manifested and asserted their existence are the fabric veiling Deity Father ther has pre eminence over and is the synthesis of all elements Chaos Theos Kosmos is Unknown Space producing the four primary Elements which are known on the terrestrial plane as Seven Cosmic Elements The attempt to derive God from the Anglo Saxon word good is an abandoned idea God is Jod a phallic hook He may be the creator of physical man out of nothing but not the spark of divine intelligence that fell in order to make animal man divine The Seven immortal gods who give birth and life to all are constantly forming matter under the never ceasing impulse of the One Element The Seven Cosmic Elements with their numberless sub Elements are modifications and aspects of the One and only Element Four are entirely physical and the fifth Ether semi material Akasha of which Ether is the grossest form is the Fifth Cosmic Principle which corresponds to and from which unfolds the human Manas The first four numbers in German are named after four elements But the Ancients represented the world by five elements Had they been ignorant of the heterogeneity of the elements they would have had no personifications of Fire Air Water Earth and ther Of the Seven Elements on our Earth four are now fully manifested while the fifth Ether is only partially so as we are hardly in the second half of the Fourth Round and consequently the Fifth Element will manifest fully only in the Fifth Round It will only be in the next or Fifth Round that Ether the gross body of Akasha will become a familiar fact of Nature to all men as air is familiar to us now Cosmic Elements are the noumena of the terrestrial elements Water is Matter in its precosmic state Ether contains all other states of matter and their properties

The waters of creation are not the liquid we know but rather the Fiery Waters of Invisible Space. Fohat is the Son of ether in its highest aspect. From Mahat Intelligence proceeds ether from ether air from air heat from heat water and from water earth with everything on her ether is universal Fire imponderable power and potency. Ether is one of Seven Cosmic Principles. Akasha is the synthesis of ether and Ether an aspect of Akasha. The Astral Light is no light it is the dark side of Ether teeming with conscious semi conscious and unconscious entities. Cosmic Evolution John Eloh Boodin, 1925 **Speculations Concerning the Ether and Its Functions** John Benjamin Penniston, 1928 **Radionics Interface With The Ether-Fields** David V Tansley, 2011-08-31 This book explores the interface that exists between the human energy field and the Universal Field of energy in which we live. It shows how these fields can be utilised for distant diagnosis and treatment. It also illustrates that the surest and most effective way to ameliorate a defect in any biological system is to modulate the interacting and interdependent energy fields by way of the chakras. The same energy fields can be used to take photographs of distant objects particularly the energy structures of living human tissues and pathological states existing in them. The vibratory patterns and potencies of homoeopathic remedies can also be drawn from the ether fields and impregnated into neutral substances such as water or alcohol solutions which have a capacity for memory. Radionics is a healing art that links the physical world with the unseen worlds lying beyond the physical senses. Diagnostically it probes to the levels of causation of disease therapeutically it is gentle and non invasive. COSMIC FORCE COSMOLOGY SOLATLE LU, 2023-06-01 LIGHT the primordial eternal pure almighty energy is the brightest as well as darkest riddle that has been puzzling to all earthlings for millennia. Whoever truly knows light has already cracked the greatest mystery of the cosmos. Surprisingly This riddle has been actually cracked independently by three thinkers of different ages. Heraclitus the Hellenic thinker 2500 years ago is the first cracker of the riddle with his doctrines that things are constantly changing universal flux that opposites coincide and that fire is the source and nature of all things. We just decode his Fire into LIGHT. 2400 years later there comes the second cracker Nikola Tesla the modern Heraclitus who in 1899 explicitly declares that Everything is LIGHT. Matter is created from the original and eternal energy that we know as LIGHT. Solatle Lu is the third cracker the first narrator of the riddle. He explicitly declares in 2019 in his *An Outline of Force Cosmology* that All particles are derived from photons and live forever substantially honors LIGHT as the Creator of all things hence elevates the common idea of the three to the Highest Knowledge of 21st century the Primary Cause the First Principle. This event marks a great leap in the continuous rational movement of mankind a new start. *Psycho-cosmic energies and economic growth* Николай Конюхов, 2018-09-07 Earth is getting continuously supplied with energy that from the space in both electromagnetic and non electromagnetic forms as well as in a form of ether vortex. Studies have shown that the human brain EEG electroencephalogram remains the most accurate among all the devices set up. sophisticated physicists responds to changes in the density of the cosmic ether. Economic growth becomes dependent on cosmic energies in the same exact manner as they influence the activity of our brain. *In resonance*

*with cosmic energies: terrorism and marketing* Николай Конюхов, 2018-09-23 This book is about the facts of fundamental dependency between the mankind development and cosmic energies both electromagnetic and non electromagnetic ones The facts are systematized in graphs

**Dao Theory The Ultimate Theory Based on the Universe Origin** Xiao Ran Huang, 2024-10-12 Dao theory is an all inclusive ultimate theory established by ancient Chinese thinkers according to the Origin of the universe It is used to explain all the basic phenomena in the universe to guide people s thought and behavior to guide the establishment of a just and perfect society and so on It can be proved through Dao theory that the Origin of the universe is a spiritual body in a zero state which is the most perfect The universe comes from the Origin of the universe The theory established according to the Origin is bound to be all inclusive and can explain the most important phenomena in the universe life and consciousness Because the Origin is the most perfect the theory established according to the Origin will inevitably be able to guide mankind to build a perfect society There are two versions the physical version and the popular version The popular version contains spiritual physics that explains consciousness and soul omitting general physics The physical version has the results of the author s research on general physics suitable for researchers teachers and readers who are interested in physics The cover of physical version is blue and the cover of the popular version is yellow This book is the physical version

The Immortal Mind Ervin Laszlo, 2014-10-09 Scientific evidence for the continual presence of consciousness with or without connection to a living organism Examines findings on the survival of consciousness beyond life including near death experiences after death communication and reincarnation Explains how this correlates precisely with cutting edge physics theories on superstrings information fields and energy matrices Reveals how consciousness manifests in living beings to continue its evolution Evidence now points to consciousness existing beyond the brain such as when the brain is temporarily incapacitated as well as to the survival of consciousness after death Conventional science prefers to dismiss these findings because they cannot be accommodated by a materialist view of reality Spirituality and religion embrace the continuity of consciousness and ascribe it to a nonmaterial spirit or soul that is immortal As such spirituality religion and science continually find conflict in their views But what if there truly is no conflict Based on a new scientific paradigm in sync with experience based spirituality Ervin Laszlo and Anthony Peake explore how consciousness is continually present in the cosmos and can exist without connection to a living organism They examine the rapidly growing body of scientific evidence supporting the continuity of consciousness including near death experiences after death communication reincarnation and neurosensory information received in altered states They explain how the persistence of consciousness beyond the demise of the body means that in essence we are not mortal we continue to exist even when our physical existence has come to an end This correlates precisely with cutting edge physics which posits that things in our plane of time and space are not intrinsically real but are manifestations of a hidden dimension where they exist in the form of superstrings information fields and energy matrices With proof that consciousness is basic to the cosmos and immortal in its deeper nonmanifest realm

Laszlo and Peake reveal the purpose of consciousness is to manifest in living beings in order to continuously evolve

**Chaos to sense, latent deity to reason** Helena Petrovna Blavatsky, 2017-07-31 Part 1 The shoreless Ocean of Space is the Light of the Central Sun and First Cause Space exists whether there is a God gods or none whether there is a universe or no universe during the Maha Yugas the Pralayas as well as during the periods of Manvantara Part 2 Space is Chaos Unseen and Unknowable Deity that thrills throughout every atom in Boundless Kosmos Space is filled with darkness which is primordial matter in a pre cosmic state This Abstract Deity is a Single Absolute Omniscience and Intelligence that thrills throughout every atom and infinitesimal point in boundless Kosmos The Infinitude of Chaos is the Nest of the Eternal Bird the flutter of whose wings produces life Part 3 Space is the Pythagorean Monas Potential Space within Abstract Space It is symbolised by the Central Point of the Circle Space and Universe are synonymous In Space there is not only Matter Force and Spirit but all that and much more Space is the Soul of the World the One Element or Root of Life which in its eternal ceaseless motion like the out and in breathing of One Boundless Ocean evolves only to reabsorb all that lives and feels and thinks and has its being in it Part 4 Space is the Aether of the Greek philosophers or pre cosmic Mind Chaos is pre cosmic Matter Part 5 Parentless Space is the incomprehensible Deity whose invisible robes are the mystic root of all matter whether seen or unseen Interplanetary Space is full of imponderable substances interpenetrating each other They are the direct cause of natural phenomena manifesting through vibration at the lower end Part 6 Space is a body of limitless extent whose Septenary Principles manifest in our phenomenal world only the grossest fabric of their sub divisions The septenary constitution of Space will become visible when the so called fourth dimension of space i e the sixth characteristic of matter and harbinger of the Sixth Sense is fully awakened Part 7 To the profane Space is Eternal Darkness to the Initiate the Celestial Fountain of the Waters of Life The Dark Energy of Beingness is reflected in Chaos The Waters of Life is the Fifth Principle of Kosmos in the lower septenary however they differ from the Waters of Salvation Only earth and water when warmed by the Sun can bring forth a living soul Part 8 Space is Akasha Soul of the World potential energy whose function it is to evolve all visible things out of itself Akasha is Aether the Light of Creative Thought and Causeless Cause of every manifesting intellection plus the reservoir of all thought because Absolute Thought Ether is the lowest and grossest form of thought Part 9 Space is Beingness Absolute Subjectivity plus Great Breath or motion unmanifested Space and Time are forms of the One incognisable Deity They are forms of That the Absolute All Real Time is abstract motion in Space Part 10 The voidness of the seeming full is the fullness of the seeming void Chaos is Void to sense latent Deity to reason Nature abhors a vacuum because there is no Spiritual Fire in vacuity Nihil or Non being in the mind of Ancient Philosophers became Nothingness and Emptiness among modern materialists Vacuum or Voidness is a perception of lower minds Vacuum is Absolute Deity eternal and unchangeable Its vehicle is pure luminous Aether Infinite Space The abyss of Nothingness of the profane is the Infinite Space of the Divine Plenum of the Occultist **Pages from Isis Unveiled** Helena Petrovna Blavatsky, 2025-02-07

Part 1 The Fiery Waters of Aether is Divine Substance expanding from within without the Garment of God woven from its own Essence The Fiery Waters of Aether is Divine Substance expanding from within without the Garment of God veil and cloak of Truth woven from its own Essence There is nothing new except what is forgotten Miracles are perfectly natural acts always in accordance with natural law Kurios is Mercury Divine Wisdom and Mercury is the Sun from whom Thoth Hermes received his divine wisdom Hercules is also the Sun the celestial storehouse of Universal Magnetism there is the Celestial Virgin the spiritual mother of every existing form and being from whose bosom as soon vivified and fructified by the Divine Spirit are called into existence Matter and Life Force and Action All ancient legends begin with that period when nascent vapours and Cimmerian darkness lay brooding over a fluid mass ready to start on its journey of activity at the first flutter of the breath of Him who is the Unrevealed One Him they felt yet they saw Him not From the boundless expansion of cosmic matter which had formed itself under God's Breath or Will this creative evolving principle by setting in motion the potencies latent in it formed suns stars and satellites The serpent of the gospel myth is a magnetic current formed by a chain of pernicious wills That is how base natures can be driven headlong by the blind forces set in motion by greed lust and sin Man master himself before attempting to exercise magical power The evil eye is nothing but the direction of silent will an invisible fluid charged with malicious desire and hatred and sent out from one person to another with the intention of harming him Will may be employed for a good or evil purpose The one is magic or theurgia the other sorcery or go tia Mind wills matter obeys The mysterious effects of attraction and repulsion are the unconscious agents of will fascination such as exercised by some animals and by serpents over birds for example is a conscious action of it and the result of thought In depth knowledge of Cosmogony is an imperative prerequisite for Inner Wisdom As the reptile upon casting his coat becomes freed from a casing of gross matter and resumes its existence with renewed activity so man by casting off the gross material body enters upon the next stage of his existence with greater powers and quickened vitality Lofty mountains eggs trees snakes and pillars they all embody scientifically demonstrated truths of natural philosophy Mountains are allegories of primal cosmogony trees of the simultaneous evolution of spirit and matter snakes and pillars are symbolical memorials of various attributes of the parallel evolution of two opposing forces eternally reacting upon each other The mundane tree of the Hindus is the Ashvattha with branches extending downward and roots upward Comparative study of ancient cosmogonies demonstrates that in those ages which are shut out from our sight by the impenetrable mist of tradition religious thought developed in uniform sympathy in every portion of the globe The Egyptian Pyramid is another symbol of Universal Life Archaic double sexed deities in dual cosmogonic myths representing the physico chemical principle of primordial creation loudly proclaim their hidden meaning Mithras is the son of Bordj the Persian mundane mountain Shiva is personated by Meru Himalaya the mundane mountain of the Hindus Christianity metamorphosed the ingenious myth of the Serpent into Satan the Prince of Darkness Part 2 On the Invisible World of Elements Elementals and Elementaries God or the infinite and uncreated spirit a

divine substance of the highest virtue and excellency produced everything else by emanative causality The world is underpinned by magnetic sympathy or attraction between men animals plants and even minerals More Each planet is inhabited by spiritual beings who exercise influences over other beings inhabiting more gross and material spheres than their own and especially over our earth There is only one magnet in the universe and this is the Central Spiritual Sun From It proceeds the magnetization of everything else There are two kinds of magnetic attraction sympathy and fascination the one is holy and natural the other unholy and unnatural The magnetism of pure love is the originator of every created thing In its ordinary sense love between the sexes is electricity Athanasius Kircher calls sensual love the fever of species liphaz L vi an intoxication of the astral light Man is a little world inside the great universe Like a fetus he is suspended by three spirits in the matrix of the Macrocosmos The Pythagorean Monas which lives in solitude and darkness may remain on this earth forever invisible and impalpable When by successive transformations throughout the ages this once impalpable Atom finds itself reclothed in that primordial essence which is identical with that of its Creator then the Sons of God will once more shout for joy at the return of the Pilgrim Man possesses a double celestial power and his triple nature stands in relationship to all things Being the mirror of the universe man is allied to heaven Music exercises a singular therapeutic power over certain diseases especially those of the nervous class Dire are the consequences of abusing magnetic powers Only the pure in heart can heal the ills of the body Magical powers are never possessed by those addicted to vicious indulgences It is not always the minds which are the most scientifically trained that are the best in matters of simple common sense and honest truth Have they not these Titans of thought dragged down God from His hiding place and given us instead a protoplasm A presumptuous scepticism that rejects facts without examination of their truth is in some respects more injurious than unquestioning credulity The perpetual lamps of alchemy stand for the incorruptible and immortal spirit The Egyptians more than any other people hoped that their ever burning lamp would help the material soul to part with its earthly dwelling and unite forever with its divine counterpart A Cypriote knight had both flax and linen made out of asbestos which were cleaned by simply throwing them in the fire A similarly made gown such as the Buddhist monks wear thrown into a large pit full of glowing coals and taken out two hours afterward was as clear as if it had been washed with soap and water Magic in prehistoric periods had a part in the mysteries The greatest phenomena the so called miracles rested on the arcane knowledge of the ancient priests of physics and all the branches of chemistry or rather alchemy The twins brothers Castor and Pollux are personifications of the twin polarity of electricity and magnetism The Dioscouroi constantly die and return to life together for it is absolutely necessary that one should die that the other may live In their unbounded glorification of matter our physicists proclaim matter the sole and autocratic sovereign of a Boundless Universe If they could they would forcibly divorce matter from her consort and place the widowed queen on the great throne of nature made vacant by the exiled spirit The Platonic philosophy was one of order system and proportion It embraced the evolution of worlds and species

the correlation and conservation of energy the transmutation of material form and the indestructibility of matter and of spirit Plato's method like that of geometry was to descend from universals to particulars In the same manner as lovers gradually advance from that beauty which is apparent to that which is divine so the ancient priests attributed the alliance and sympathy between natural things to the underlying interconnectedness of all things The Divine Proclus pointed out certain mysterious peculiarities of plants minerals and animals all of which are well known to our naturalists but none of which are explained Proclus who combined Theosophy and Theurgy also advocated a divine science that is firmly and solely based on the mysterious affinities between organic and inorganic bodies the visible productions of the four kingdoms and the invisible powers of the universe Persons have been known to fall sick simultaneously with the uprooting of a tree planted upon their natal day and dying when the tree died Alas The divine intellect is veiled in man his animal brain alone philosophises In spiritually fertile periods the occult powers of plants animals and minerals magically sympathize with the superior natures and the divine soul of man is in perfect rapport with these inferior ones Formerly magic was a universal science entirely in the hands of the sacerdotal savant Though the focus was jealously guarded in the sanctuaries its rays illuminated the whole of mankind There is nothing new under the Sun Yet modern scientists have reaped more palms and laurels for their great discoveries than Lucretius Cicero Plutarch and Seneca had hairs on their heads Plutarch said that an idea has no subsistence by itself but gives figure and form to shapeless matter and becomes the cause of its manifestation

**New Science Theory and On The Magnet** Vincent Wilmot, William Gilbert, 2015-07-22 The first book is basically the New Science Theory com site as on 1 January 2018 for changes since then visit the website with its Sitemap noting updates It is especially good for those interested in physics theory concentrating chiefly on the four great physicists William Gilbert Rene Descartes Isaac Newton and Albert Einstein and also having fine sections on Galileo Kepler History of Science Gravity Light String Theory Standard Model Physics Probability Science Philosophy of Science and General Image Theory Science The second book is a new improved English translation of William Gilbert's banned Latin 1600 De Magnete or On The Magnet This is rather easier to read than its two earlier translations and significantly helps to clarify Gilbert's attraction physics which Newton put as one of the two mathematized physics options and which he is believed to have privately favoured It is basically a novel signal response or remote control physics that may still have relevance

Awakening: Theory and Practice for the Aspiring Shaman Erik McBride, 2005-08-01 A guide book for exploring spiritual alchemy magical practice the cultivation and use of several of the Sacred Teacher Plants and the constructive application of altered states Covers such magical applications as conjuring illusions healing and necromancy and basic alterations of the Material Plane This guide also includes a complete break down of existence itself with a detailed explanation of the Seven Planes of Existence It was my wish to disclose the secrets that others are bound by oath to not reveal and in so doing to reinforce and invigorate the magical practices of our day

The Synthesis of Yoga Sri Aurobindo, 1992 Truth of philosophy is of a merely theoretical value unless it can be lived

and we have therefore tried in The Synthesis of Yoga to arrive at a synthetical view of the principles and methods of the various lines of spiritual self discipline and the way in which they can lead to an integral divine life in the human existence

**The visible Sun in our Solar System is a ball of electromagnetic forces, glowing but not burning** Helena Petrovna Blavatsky, 2023-01-01 The Visible Sun is a veil of the Invisible Central Spiritual Sun of Truth The Invisible Sun is the ever concealed Central Point of all Universes and Solar Systems from which all emerged and toward which all gravitates It is the Central Sun's passive emissions of Creative Light that impart Motion and awaken Life in the numberless Solar systems of the Infinite Kosmos manifested worlds The Atoms of Science are the Vibrations of Occultism they keep the wheels of life going The extra cosmic God has killed the belief in intra cosmic Intelligent Forces that govern the rotatory motion in the infinitudes of Space Cosmic Motion circular and perpetual is Attraction and Repulsion not as understood by modern physics and the law of gravity but in harmony with the Immutable Laws of Manvantaric Motion regulated by interhuman not supernatural Intelligences within the Cosmic Soul The Solar Flames are reflections of the Central Spiritual Sun the Life giver to Kosmos radiating from the Central Point which is everywhere and nowhere from whence emanates and whither returns the Kosmic Intelligence sentient Beings scattered throughout the manifested worlds The visible Sun is the Father of the physical man the Moon is his Mother The visible Sun is a ball of electromagnetic forces glowing but not burning It is not even the proximal source of visible light and heat in our solar system It is the focus reflector and veil of the ever Concealed Central Spiritual Sun therefore mere illusion Our Sun will become a comet in future manvantaras The Central Spiritual Sun is the storehouse of Vital Force noumenon of Electricity those life currents which thrill through Space as through every creature on Earth The Vital Force intelligently guided radiates around man like a luminous sphere Suspended like a fetus within the Macrocosm Universe or Spiritus Mundi i.e Spirit of the visible Universe the Microcosm Mankind is vitalised and energised by the Arch us or Liquor Vit the Fluid of Life Nerve Aura through which the Cosmic Forces regulated and sustained by the never resting Breaths Agents of Cosmic Laws act upon the astral body of man curled in the spleen Pantheism was known and felt by the whole of antiquity It manifests itself in the vast expanse of the starry heavens in the breathing of the seas and oceans and in the quiver of life of the smallest blade of grass Esoteric Philosophy rejects the finite and imperfect God in our Universe as the anthropomorphic

deity of the monotheist is represented by his followers The Vedic Aryans were as familiar with the mysteries of colour and sound as our physiologists are on the physical plane Moreover they had mastered the potencies of colour sound and number on planes inaccessible to the materialists The spiritual senses those that act on higher planes of consciousness are rejected by physiology because the latter is ignorant of the Sacred Science Yet mental as well as physical correlations of the senses seven on the physical and seven on the mental planes are clearly explained and defined in the Vedas The seven notes of the scale are the principles of sound The qualities of every element as of every sense are also septenary and to dogmatize upon them from their likewise septenary manifestation is whimsical It is only when Manas Higher Ego soars above the mists of ignorance that the qualities of objects of sense on their dual plane of manifestations visible and invisible can be clearly seen and comprehended The division of the physical senses into five comes to us from great antiquity But while adopting the number no modern philosopher has asked himself how these senses could exist i e be perceived in a self conscious way unless there was a sixth sense mental perception to register and record them and this for the Occultist is the Seventh Sense that preserves the spiritual fruition and remembrance thereof as in a Book of Life Nature shall unveil her mysteries only to those sincere and diligent students of Occult Philosophy who when pure impartial and unexpecting act as centres of benevolent work and shall lead them to the contemplation of celestial powers We keep cycling back and forward Having lost in spirituality pro rata what we had gained in physicality near the end of the Four Race Atlantean we are now cycling forward and upward until we reach the period that will bring the Sixth Race Enlightened on a parallel line with the spirituality of the Second Sweat born the long extinct Race of humanity Then by cutting the Tree of Life the slaves of birth life death shall be finally freed from the trammels and tyranny of matter Colours and sounds are associated with the Hierarchy of Compassion the Manifested Logos Colour is Spirit Atman sound is Voice Buddhi and proportion of numbers is Word Higher Manas Each prismatic colour is the Father of the Sound which corresponds to it Sound being the Word or Logos is his Father s Thought Thus the Creative Force produces colours sounds and numbers in the shape of rates of vibration which compound and dissociate atoms and molecules Perfect knowledge of the correspondences between colours sounds and numbers is the first requisite for the student of Occult Philosophy Who can assume the flower of power the plant of the golden stem and the azure blossom The calamitous error leading to the sum total of mistaken views among the materialists is this the so called Nervous Ether is not an animal product it is the living animal itself It is the lowest principle of Primordial Essence which is Life that animal vitality diffused all around Nature the flowers of self consciousness unfolding from within outwardly are its products But beware under every flower there is a serpent coiled Even when death arrives the Fluid of Life does not abandon the body It only changes its state from activity to passivity assuming dormancy because of the morbid state of tissues upon which it has no more hold Once the rigor mortis has set in the Liquor Vit reactivates and begins its work on the atoms chemically The Vital Force radiates within and around a person like a luminous aura It can be made to act at a distance to

poison a fellow human being or conversely to heal the sick and restore health      **Madame Blavatsky on the Theosophy of Dr. N.I. Pirogov** Helena Petrovna Blavatsky, 2019-05-30 Metaphysical mystical and philosophical excerpts from Dr N I Pirogov Problems of Life The Diary of an Old Physician Selected and translated from the Russian by H P Blavatsky with extensive annotations and commentary The thoughts of the false I or personality are mere shadows of the true Individuality and Higher Ego The records of past events and passing thoughts even the most trifling ones are impressed on the imperishable waves of Astral Light not in the brain alone Intuition is divine but faith is human and the misapplication of inner intuition Personality being the illusion of separateness is the root cause of all selfishness and evil It has to be conquered and crushed before the lower is united with its higher counterpart Loss of mind is due to the paralysis of the higher functions in Kama Manas the physical mind and in cases of incurable insanity to the severance of the lower self from the Higher Self during a person's lifetime thus preventing the reunion of the two When one falls into a love of self and love of the world with its pleasures losing the divine love of God and of the neighbour he falls from the illusionary life and fear of death to real death The higher principles which constitute the essential elements of his humanity perish and he lives only on the natural plane of his faculties The atoms of Science are not of this earth but belong to quite a different plane And the atomic theory is on a par only with the undulatory theory of light The Ether of Space is considerably different from the medium of Science The chasm between mind and matter is impassable No theory of evolution or heredity will ever cover or explain the mystery The incessantly rolling and waving Ocean of Life of Dr Pirogov is the triply manifested Deity of the Occultists two opposing forces of spirituality and animalism eternally reacting upon each other Universal Mind and Eternal Atom The immortal Higher Ego Nous is man's true Individuality that keeps reincarnating in a new personality at every birth Dr Pirogov's purely natural idealism is a spiritual perception of eternal truths that no scientific sophistry could destroy or even blunt He esteems Truth higher than Science Physical Science calls atoms that which the Occultists regard as particles or molecules The real Atoms are the inner principles and the intelligent spiritual guides of the cells and particles they inform Man is produced in the image of God or Divine Nature Every cell in the human organism corresponds with a like cell in the divine organism or the manifested universe The I of man or Microcosm and the Universe or Macrocosm are illusions inseparable and interdependent but illusion nevertheless The human mind or lower manas is a direct ray or reflection of a Higher Principle the Noetic Mind The latter is the reincarnating Ego which old Aryan philosophers call Manasaputras the Sons of Mind or Mahat the Universal Cosmic Mind Dr Pirogov can hardly be taken to task and declared unscientific in accepting the existence of a seven dimensional space in co ordination with the seven states of consciousness In the course of natural evolution our brain mind will be replaced by a finer and more spiritually receptive organism helped by the sixth and the seventh senses A Higher Principle may be independent of the matter it rules but only when outside of space and time God is the centre the Intellectual Principle an unmoving circle Soul a circle in motion As our mind is but the product of Universal Mind so is the latter but a

differentiated ray of the Absolute Mind or No Mind a state of Perfect Unconsciousness Atom is not the smallest constituent unit of matter not even a mathematical point it is an immutable Entity a reality within an appearance the molecule being in Occult Philosophy but a figment of maya illusion It may be described as a compact or crystallized point of divine Energy and Ideation Occultism affirms that there is no such thing as inert dead or even inorganic matter Time is abstract motion in space i e force acting in space and transforming itself by this very action into substance In philosophy the term empirical is the product of experience and observation plus Science The sensing principle in us is an entity capable of acting outside as inside its material body and it is certainly independent of any organ in particular in its actions although during its incarnation it manifests itself through its physical organs Our Higher Ego is a ray of the Universal Mind individualized for the span of a cosmic life cycle during which time it gets experience through almost numberless reincarnations or rebirths before returning to its Parent Source There are two minds in man two aspects of the same divine principle the higher or true Individuality and the lower or Personality It is these two that during our lifetime are in incessant struggle the one trying to gravitate heavenward the other dragged down by its animal nature to the earth earthy Nothing that takes place no manifestation however rapid or weak can ever be lost from the skandhic records of a man s life The Universal Memory preserves every motion the slightest wave and feeling that ripples the waves of differentiated nature whether of man or of Universe The metaphysician and the theosophist will applaud almost every word Dr Pirogov says regretting only that men of such profoundly intuitional nature should be so rare among the men of science     Planetary orbits are perpetually shifting their position and form Helena Petrovna Blavatsky,2023-01-01 Why do celestial orbits perpetually shift their position and form Speculations galore enough for every taste and brain power on the origin of rotation and of the seven planes and comets Science lies on a Procrustean bed of its own making Count de Maistre and William Herschel cut the Gordian knot by saying that the planets rotate because they are made to rotate for a will is needed to impart a circular motion and another will to restrain the former under the perturbing influence of the Sun The planetary orbits are far from immutable on the contrary they are subject to a perpetual mutation in their position and form As orbits are alternately widening and narrowing their great axis lengthens and diminishes or oscillates at the same time from right to left around the Sun raising and lowering itself periodically while pivoting around itself with a kind of tremor Gravity is an obsolete law in starry heaven and mother earth A comet whose tail defies the law of gravity right in the Sun s face can hardly be credited with obeying that law Science is like C sar s wife she must not be suspected but she can be respectfully criticised nevertheless It is hardly surprising that many learned astronomers favour the Kabbalah and ancient systems to the modern dreary and contradictory expositions of the Universe Spirit is the first differentiation of eternal Beness or That It is the Causeless Cause of Cosmos manifesting through a plurality of Creative and Intelligent yet contrary Forces centripetal and centrifugal possessing inherent powers of their own Intra Cosmic Forces are not suppositions and abstractions they are acting realities whose
