Ethical Issues Relating to Life and Death John Ladd, 1979 This book examines issues related to euthanasia such as the sanctity of life ethical differences between human and animal life the concept of personhood personal rights in regard to making choices about death and the definition of death Publisher description LoC [Ethical Issues Relating to Life and Death](#) John Ladd, 1979 This book examines issues related to euthanasia such as the sanctity of life ethical differences between human and animal life the concept of personhood personal rights in regard to making choices about death and the definition of death Publisher description LoC **A Dialogue on Ethical Issues of Life and Death** Rocco J. Gennaro, 2002 This book written in the form of a dialogue is an introduction to several ethical theories and to four major contemporary moral issues euthanasia abortion animal rights and capital punishment **Life and Death** Dan W. Brock, 1993-01-29 Dan Brock explores the moral issues raised by new ideals of shared decision making between physicians and patients

Matters of Life and Death , This book discusses modern medical ethical dilemmas from a specifically conservative Jewish point of view The author includes issues such as artificial insemination genetic engineering cloning surrogate motherhood and birth control as well as living wills hospice care euthanasia organ donation and autopsy **Is Death Ever Preferable to Life?** Ian Olver, 2013-06-29 This is an original contribution to the much debated area of the value that we should place on human life With the euthanasia issue highlighted in the public arena this book argues for a non absolutist highest value on life ethic and how that fits with society s current emphasis on individual autonomy Not only are the arguments for and against placing a highest value on life explored but the way of arguing particularly the use of slippery slopes is discussed By the use of everyday examples the impact of placing a high value on life is explored A futuristic intensive care ward round illustrates the ethical and resource issues with which we would be challenged in adopting a highest value on life policy for medical decisions This book will be useful for students of ethics nursing and medicine as well as those engaged in the public debate on euthanasia [Life, Death, and the Western Way of War](#) Lorenzo Zambernardi, 2022-04-07 Life Death and the Western Way of War traces when and how western soldiers once regarded as simple fighting tools became the far less expendable beings that we know today In Kant s terms the study traces the process through which soldiers have been turned from mere military means into ends in themselves The book argues that such a major transformation is largely the result of a shift in the social meaning ascribed to soldiers death It suggests that looking at death can somehow provide a privileged angle to understanding the value that societies attach to life The narrative emerging from the empirical evidence will show that the story of attitudes towards soldiers death is the story of a gradual increasing process of individualization in the social meaning attached to human loss in war Such a development which took centuries to emerge in full was neither simple nor linear It was a process that the state was temporarily able to frame in the collective narrative of the nation but which ultimately has seen the increasing importance of the life of the individual soldier In tracing the process through which

soldiers have been turned from an amorphous collective into distinct individuals this book shows how the emphasis on the primacy of the individual has further eroded the effectiveness of western warfare as an instrument of foreign policy In particular the modern liberal conception of the soldier has had the unintended consequence of jeopardizing the Clausewitzian relationship between military means and political ends

On the Ethical Life Raymond Aaron Younis,2020-06-12 The question of the ethical life is arguably one of the most compelling and urgent questions of our time As Peter Singer among others has pointed out almost 10 million children die each year due to poverty some of whom would not die if the amount of aid that we now offer increases significantly As Singer has also pointed out the exploitation of human beings and other animals is a major ethical and practical concern There can be little reasonable doubt that pain and suffering abound in the world today due to many causes such as poverty disease environmental degradation and destruction and anthropocentrism among others just as there can be little reasonable doubt that some of the pain and suffering is preventable So what does it mean to live ethically today Does it mean taking the point of view of the universe as Sidgwick put it memorably rather than a narrow anthropocentric or speciesist view Does it mean living in accordance with duties or obligations or in light of recognised virtues or with the minimisation of pain and suffering primarily in mind Does it entail a consideration of the interests of other species and a rejection of the principle of the sanctity of human life Does it mean not eating animals when other healthy alternatives are available especially when those animals have been treated in ways that are inconsistent with their interests whatever they may be Does it mean taking active steps to reduce poverty on our part on a day to day basis Is ethics exhausted in some sense today And if we could reach some consensus on these questions what difference would the ethical life make Some argue that speciesism and the exploitation of human beings and other animals might diminish that pain and suffering especially gratuitous pain and suffering would decrease or at the very least not increase or that we will become more aware of the limitations of things such as the traditional ethic of the sanctity of life as Singer calls it Some argue that the ethical life is closely related to a life of relationships reflection and deliberation all of which deepen our understanding and enrich us personally Others argue that the ethical life is closely related to our search for a meaningful life that the

ethical life can help us to find meaning in a world in which meaning defined broadly can seem elusive enigmatic or unsubstantial These and related issues and questions are explored in this collection which illustrates the relevance vitality and dynamism of ethics today **Dilemmas of Life and Death** S. Cromwell Crawford,1995-01-01 This is a breakthrough work expanding the debate of the dilemmas of life and death in contemporary American society by carrying it beyond the insights of Western religious and philosophic thought to include ethical perspectives of the Hindu tradition The topics covered are the timely ethical issues that concern both Americans and all people of the world abortion suicide euthanasia and the environment A lively East West dialogue probes the roots of each issue in its native setting and the fruit of this historical approach is a clear cut analysis of up to date cases giving their current status in terms of ethics religion philosophy medicine and law Unlike traditional textbooks that concentrate on a theoretical analysis to the exclusion of practical issues this book does justice to both theoretical and practical ethics Down the Slippery Slope David Lamb,2013-01-11 A slippery slope argument in medical ethics is one that opposes itself to a new proposal on the grounds that it is not per se intolerable but will lead to a situation that is Lamb evaluates such arguments demonstrating their centrality to the subject Death Rites Robert Lee,Derek Morgan,2013-03-04 First published in 2012 Routledge is an imprint of Taylor Francis an informa company Treatment of Infants Born with Handicapping Conditions United States. Congress. House. Committee on Education and Labor. Subcommittee on Select Education,1983 The Ethics of Death Lloyd H. Steffen,Dennis R. Cooley,2014 For the living death has a moral dimension When we confront death and dying in our own lives and in the lives of others we ask questions about the good right and fitting as they relate to our experiences of human mortality When others die the living are left with moral questions questions that often generate personal inquiry as to whether a particular death was good or whether it was tragic terrifying or peaceful In The Ethics of Death the authors one a philosopher and one a religious studies scholar undertake an examination of the deaths that we experience as members of a larger moral community Their respectful and engaging dialogue highlights the complex and challenging issues that surround many deaths in our modern world and helps readers frame thoughtful responses Unafraid of difficult topics Steffen and Cooley fully engage suicide physician assisted suicide euthanasia capital punishment abortion and war as areas of life where death poses moral challenges Publisher s description **Death, Dying and the Ending of Life, Volumes I and II** Leslie P. Francis,2019-01-15 The two volumes of Death Dying and the Ending of Life present the core of recent philosophical work on end of life issues Volume I examines issues in death and consent the nature of death brain death and the uses of the dead and decision making at the end of life including the use of advance directives and decision making about the continuation discontinuation or futility of treatment for competent and incompetent patients and children Volume II on justice and hastening death examines whether there is a difference between killing and letting die issues about physician assisted suicide and euthanasia and questions about distributive justice and decisions about life and death *Death and Dying, Life and Living* Charles A. Corr,Clyde

Nabe, Donna M. Corr, 1994 This unique book discusses the challenging issues in life death and dying as it applies to everyone people who are facing death those who are coping with dying or with bereavement those struggling with decisions about euthanasia or who are contemplating suicide and those who wish to teach children about the place of death in life The book provides a solid foundation readers can use as they pursue their own insights emphases and special interests in this field The authors illustrate that while we cannot make death disappear from our lives we can learn from each other talk about death together and determine how to live more productive lives in the face of death Ethics at the End of Life John Davis, 2016-12-08 The 14 chapters in Ethics at the End of Life New Issues and Arguments all published here for the first time focus on recent thinking in this important area helping initiate issues and lines of argument that have not been explored previously At the same time a reader can use this volume to become oriented to the established questions and positions in end of life ethics both because new questions are set in their context and because most of the chapters written by a team of experts survey the field as well as add to it Each chapter includes initial summaries final conclusions and a Related Topics section

Life and Death on Your Own Terms Lofty L. Basta, 2001-05 This insightful compassionate and lucidly written handbook by a world renowned cardiologist is also a personal testimonial by a surviving cancer patient and an informative guide to end of life issues Dr Basta relies on his medical expertise and first hand experience with a life threatening illness to critique our death denying technologically obsessed culture and gives patients the means to take control of their final days He underscores that physicians the public and society as a whole must come to terms with the unalterable truth that life is finite and that medical intervention beyond a certain point only prolongs suffering When a cure or hope of a better life ceases to be achievable he urges comprehensive palliative care which attends to the patient's physical comfort emotional reassurance and spiritual encouragement To ensure that patients are empowered to provide for their final needs he provides a revolutionary clear simple and medical scenario specific Advance Care Plan which gives each of us the opportunity to execute all important life and death decisions before we are afflicted with a serious health problem and before decisions are irrevocable In sum this book is a tribute to the highly treasured doctor patient relationship Readers who feel that doctors have lost touch with the patient's perspective will welcome Dr Basta's empathy and caring tone

Ethics Barbara MacKinnon, 2001 Combining theory and issues with text and readings this ethics text begins with coverage of ethical theory utilitarianism Kant's moral theory natural law and virtue ethics It then goes on to discuss contemporary ethical issues ranging from personal ones such as sexual morality and euthanasia to matters of public policy such as legal punishment and international concerns such as war and peace and economic justice
