After Awareness Greg Goode,2016-11-01 Written by leading non duality author Greg Goode After Awareness offers a course in non dual philosophy allowing readers to explore the inner workings of the Direct Path approach to self inquiry a set of teachings attributed to Shri Atmananda Krishna Menon that investigate the nature of the mind experientially and can bring about a lasting sense of joy and freedom With this open pragmatic and deconstructive presentation readers will see the Direct Path from all angles find ways to talk about non duality and draw their own conclusions about the nature of being and the I

The Handbook of Virtue Ethics Stan van Hooft,2014-09-11 Virtue ethics has emerged as a distinct field within moral theory whether as an alternative account of right action or as a conception of normativity which departs entirely from the obligatoriness of morality and has proved itself invaluable to many aspects of contemporary applied ethics Virtue ethics now flourishes in philosophy sociology and theology and its applications extend to law politics and bioethics The Handbook of Virtue Ethics brings together leading international scholars to provide an overview of the field Each chapter summarizes and assesses the most important work on a particular topic and sets this work in the context of historical developments Taking a global approach by embracing a variety of major cultural traditions along with the Western the Handbook maps the emergence of virtue ethics and provides a framework for future developments Global Ethics on Climate Change Martin Schonfeld,2013-08-15 The volatility of climate change is increasing It is bad news and many climatologists policy analysts and environmental groups regard the West as the largest contributor to the problems caused by climate change This book raises questions concerning the systemic and cultural reasons for Western countries unwillingness to bear full responsibility for their carbon emissions Is the Western paradigm failing Can other cultures offer solutions Are there alternatives for designing a better future Just as the roots of the problem of climate change are cultural the solution must be too The

contributors to Global Ethics on Climate Change explore cultural alternatives This differs from conventional climate ethics which tends to address the crisis with utilitarian legalistic and analytic tools The authors in this volume doubt whether such paradigm patches will work It may be time to think outside the box and consider non Western insights about the good life indigenous wisdom on being in the world and new ideas for civil evolution This book is an examination of candidates for a Plan B This book was published as a special issue of the Journal of Global Ethics

Modeling and Use of Context in Action Patrick Brézillon, Roy M. Turner, 2022-08-19 This book brings together current research and adopts a pragmatic approach to modeling and using context to solve real world problems The editors were instrumental in creating and continue to be involved in the interdisciplinary research community centered around the biennial CONTEXT International and Interdisciplinary Conference on Modeling and Using Context conference series focused on studying context and its implications for artificial intelligence software applications psychology philosophy linguistics neuroscience as well as other fields The first three chapters lay the foundations looking at the lessons learned over the past 25 years and arguing for a continued shift toward more pragmatic approaches The remaining chapters contain contributions to pragmatic context based research from a wide range of domains including technological problems such as subway incident management and autonomous underwater vehicle control identifying emotions from speech without understanding the words anonymization in a world where privacy is increasingly threatened teaching in context and improving management teaching in a business school

Rethinking Economics Rudolf Steiner, 2013-06-01 Rudolf Steiner gave this complex sequence of dense subtle multileveled lectures and seminars to students of economics in Dornach Switzerland during the summer of 1922 The course reflects a lifetime of thinking on the subject and marks the conclusion of his intense five year period of activism in the service of social political and economic issues During this time which began as World War I was ending in 1917 he worked tirelessly to promote the cause of what he called threefolding Dreigliederung by which he meant rethinking the social order on the basis of clear separation and independence of the three fundamental spheres of activity that make up a society He proposed three independent systems 1 an autonomous rights sphere limited to judicial and political matters 2 an autonomous economic sphere cooperative or associative by nature and 3 an autonomous spiritual cultural sphere The autonomy of these three spheres he believed would make possible a free healthy productive society and open the possibility of a lasting peace Rethinking Economics is essential reading for anyone who wants to understand the true nature of an economy and how it works Steiner presents the basic elements of what it would take to create a just socially responsible and ecologically aware economy today
