Ethical Issues A Search For The Contemporary Conscience:

Ethical Issues William R. Durland, William H. Bruening, 1975-01-01 *The Church in the Modern World* Michael G. Lawler, Todd A. Salzman, Eileen Burke-Sullivan, 2014-09-25

Gaudium et Spes Vatican II's Pastoral Constitution on the Church in the Modern World marked fundamental shifts in ethical methodology in how we do ethics in the Catholic tradition and in how we think about ethical and ecclesial issues in the Catholic Church in the modern world. On the document's fiftieth anniversary, this book explores the historical origins of *Gaudium et Spes*, its impact on the Church's ecclesial self-understanding and its implications for doing Catholic theological ethics for the specific ethical issues of marriage, social justice, politics, and peacebuilding. The book engages in the ongoing communal discernment of the *aggiornamento* sought by the council's convener Pope John XXIII, seeking to bring the Church up to date in the twenty-first century.

Interpreting Hegel's Phenomenology of Spirit Ivan Boldyrev, Sebastian Stein, 2021-11-29. This book focuses on the interpretations of Hegel's *Phenomenology of Spirit* that have proved influential over the past decades. Current readers of Hegel's *Phenomenology* face an abundance of interpretive literature devoted to this difficult text and confront a plethora of different philosophical presuppositions, research strategies, and hermeneutic efforts. To enable a better orientation within the interpretative landscape, the essays in this volume summarize, contextualize, and critically comment on the issues and currents in contemporary *Phenomenology* scholarship. There is a common set of three questions that each of the contributions seeks to answer: 1. What kind of text is *The Phenomenology of Spirit*? 2. What do the different strategies of interpretation conceptually bring to the text? 3. How do different interpreters justify their verdict on whether the *Phenomenology* is still a viable project.

Moral Wisdom James F. Keenan, 2016-09-02. *Moral Wisdom* introduces readers to moral theory through a Catholic lens. In a warm conversational style, Father Keenan shares a wealth of stories and examples to highlight the resources in the Catholic tradition for developing moral wisdom. Connecting formative influences of the Catholic heritage with themes of love, consciences, sin, and suffering, the book helps readers appreciate what gives meaning to our lives. The third edition has been revised throughout to help the reader better understand how to develop and apply moral wisdom in real life. It features additional examples as well as new material on the teachings of Pope Francis. Chapters on the Ten Commandments and the teachings of Jesus have been reworked in light of new scholarship. The book also features a new final chapter, *Moral Agency*, which addresses making practical decisions based on the lessons and texts from the book. Each chapter includes study questions to help readers further reflect on key themes.

Moral Identity in Early Modern English Literature Paul Cefalu, 2004-11-18. Paul Cefalu's study explores the relationship between moral character and religious conversion in the poetry and prose of Sidney, Spenser, Donne, Herbert, and Milton, as well as in early modern English Conformist and Puritan sermons, theological tracts, and

philosophical treatises Cefalu argues that early modern Protestant theologians were often unable to incorporate a coherent theory of practical morality into the order of salvation Cefalu draws on fresh historicist theories of ideology and subversion but takes issue with historicist tendency to conflate generic and categorical distinctions among texts He argues that imaginative literature by virtue of its tendency to place characters in approximately real ethical quandaries uniquely points out the inability of early modern English Protestant theology to merge religious theory and ethical practice This study should appeal not only to literary critics and historians but also to scholars interested in the history of moral theory The Ethics of Tourism Development Rosaleen Duffy, Mick Smith, 2004-03-01 Drawing upon a variety of important philosophical traditions this book develops an original perspective on the relations between ethical economic and aesthetic values in a tourism context It considers the ethical political issues arising in many areas of tourism development including the profound cultural and environmental impacts on tourist destinations the reciprocity or lack of in host guest relations the un fair distribution of benefits and revenues the moral implications of issues such as sex tourism staged authenticity and travel to oppressive regimes The book concludes with a detailed investigation of the potential and pitfalls of ecotourism sustainable tourism and community based tourism as examples of what is sometimes termed ethical tourism Until now the ethical issues that surround tourism development have received little academic attention Explaining philosophical arguments without the use of excessive jargon this fascinating book interweaves theory and practice aided by the use of text boxes to explain key terms in ethics politics and tourism development and drawing on contemporary case studies from South Africa Mexico Zambia Honduras Ethiopia and Madagascar **Paul and Virtue Ethics** Daniel J Harrington, James Keenan, 2023-06-14 Two prestigious scholars serve up a gourmet banquet that blends the flavors of scripture and ethics without losing the distinctive tastes of each Richard M Gula professor of moral theology Franciscan School of Theology Graduate Theological Union In Paul and Virtue Ethics Daniel Harrington and James Keenan build upon their successful collaboration Jesus and Virtue Ethics to discuss the apostle Paul s teachings as a guide to interpret theology and ethics today Examining Paul s writings the authors investigate what they teach about the basic questions of virtue ethics Who am I Who do I want to become And how do I get there Their intent is not to provide stringent rules but to awaken discovery and encourage dialogue The book first considers the concept of virtue ethics an approach to ethics that emphasizes moral character and Paul s ethics in particular Next the authors focus on the virtues of faith love charity and hope as treated by Paul and Thomas Aquinas Closing the book with reflections on the roles of other virtues and vices in individual and communal Christian life the authors discuss various issues in social ethics and sexual morality as they are dealt with in Paul and in Christian virtue ethics today One could not ask for better guides than Harrington and Keenan Theological Studies Bringing the moral teaching of Paul and contemporary virtue ethics into dialogue with each other Harrington and Keenan have done what others have only spoken about Frank J Matera The Andrew Kelly Ryan Professor of Biblical Studies The Catholic University of America A deeply learned yet broadly

drawn toward such questions as How will the human mind evolve in the future In fact how should the human mind evolve and improve itself What might be the standards and ideals that guide this evolution And what role does ethical development or evolution play in this process The twenty previously published articles collected together in *Wisdom Consciousness and the Future* chronicle the development of Dr Lombardo's ideas on these related questions and topics and together constitute a theoretical perspective on the nature of the human mind on how to best educate and evolve the human mind in the future and how to integrate into this vision the central importance of both future consciousness as a key dimension of human consciousness and ethical character virtues True to its title three key themes emerge in this collection wisdom consciousness and the future and all three concepts tie into the author's main contribution to the field of futures studies future consciousness Numerous essays for example *Evolving Future Consciousness through the Pursuit of Virtue* and *The Evolution and Psychology of Future Consciousness* address the nature of future consciousness a term Dr Lombardo defines as the complex set of mental capacities all humans possess for imagining conceptualizing and approaching the future Aside from describing the psychological make up of future consciousness which includes emotional motivational cognitive and personal dimensions the author also explains in numerous essays such as *Developing Constructive and Creative Attitudes about the Future* how to proactively enhance one's future consciousness Other essays deal directly with consciousness and the human mind in the broadest sense as in *The Future Evolution of the Ecology of Mind* and connect this general area of inquiry with the futurist question of how consciousness and mind might evolve in the future Dr Lombardo proposes that the progressive emergence of cosmic consciousness is the central evolutionary trajectory of the human mind Hence this book contains essays on both consciousness of the future and consciousness in the future While the discussion of consciousness and the future fascinates in its own right Dr Lombardo is a holistic and deep thinker who searches for connections among myriad philosophical topics A number of essays address the question of ethics and virtue and how such concepts connect with both future consciousness and the evolution of consciousness in the future He then expands on this theme to explore how virtue applies to the goals of higher education in essays such as *Ethical Character Development and Personal and Academic Excellence* In thinking through the concept of virtue and how it applies to consciousness education and the future Dr Lombardo emphasizes the one key virtue wisdom that provides the center of gravity around which all other character virtues revolve Indeed if any one concept unites the majority of essays in this collection it is wisdom In *The Wisdom of Future Consciousness* the author argues that wisdom is the highest expression of future consciousness and systematically describes the numerous connections between wisdom and heightened future consciousness Further according to the author wisdom is the key ideal that we should model and teach within education now and in the future This argument

Formation of

Christian Conscience in Modern Africa Richard N. Rwiza, 2001 This book deals with the formation of Christian conscience in modern Africa It can be divided into three parts The first part is a sociological review on urbanization in Africa The second

part presents a theological reflection on conscience The third part presents a general survey of the pastoral problems facing the Church in Africa and in particular the urban centers The dichotomy between the formation of conscience and the actual life experienced by a considerable number of Christians in Africa today is a crucial moral and pastoral challenge The author makes the recommendation that African realities should determine the priorities in inculturation and should provide the context for a move towards African Christian conscience back cover

Imagining the Witch Laura Kounine, 2018-10-25 *Imagining the Witch* explores emotions gender and selfhood through the lens of witch trials in early modern Germany Witch trials were clearly a gendered phenomenon but witchcraft was not a uniquely female crime While women constituted approximately three quarters of those tried for witchcraft in the Holy Roman Empire a significant minority were men Witchcraft was also a crime of unbridled passion it centred on the notion that one person's emotions could have tangible and deadly physical consequences Yet it is also true that not all suspicions of witchcraft led to a formal accusation and not all witch trials led to the stake Indeed just over half the total number put on trial for witchcraft in early modern Europe were executed In order to understand how early modern people imagined the witch we must first begin to understand how people understood themselves and each other this can help us to understand how the witch could be a member of the community living alongside their accusers yet inspire such visceral fear Through an examination of case studies of witch trials that took place in the early modern Lutheran duchy of Württemberg in southwestern Germany Laura Kounine examines how the community church and the agents of the law sought to identify the witch and the ways in which ordinary men and women fought for their lives in an attempt to avoid the stake The study further explores the visual and intellectual imagination of witchcraft in this period in order to piece together why witchcraft could be aligned with such strong female stereotypes on the one hand but also be imagined as a crime that could be committed by any human whether young or old male or female By moving beyond stereotypes of the witch *Imagining the Witch* argues that understandings of what constituted witchcraft and the witch appear far more contested and unstable than has previously been suggested It also suggests new ways of thinking about early modern selfhood which moves beyond teleological arguments about the development of the modern self Indeed it is the trial process itself that created the conditions for a diverse range of people to reflect on and give meaning to emotions gender and the self in early modern Lutheran Germany
