Ethics After Babel The Languages Of Morals And Their Discontents:

Ethics After Babel Jeffrey Stout, 2001-01-23 A fascinating study of moral languages and their discontents *Ethics after Babel* explains the links that connect contemporary moral philosophy religious ethics and political thought in clear cogent even conversational prose Princeton's paperback edition of this award winning book includes a new postscript by the author that responds to the book's noted critics Stanley Hauerwas and the late Alan Donagan In answering his critics Jeffrey Stout clarifies the book's arguments and offers fresh reasons for resisting despair over the prospects of democratic discourse

Moral Disagreements Christopher W. Gowans, 2013-04-03 Can moral disagreements be rationally resolved Can universal human rights be defended in face of moral disagreements The problem of moral disagreement is one of the central problems in moral thinking It also provides a stimulating stepping stone to some of the perennial problems of philosophy such as relativism scepticism and objectivity *Moral Disagreements* is the first anthology to bring together classic and contemporary readings on this key topic Clearly divided into five parts The Historical Debate Voices from Anthropology Challenges to Moral Objectivity Defenses of Moral Objectivity and New Directions the anthology presents readings from the following key thinkers Sextus Empiricus Chagnon Wong MacIntyre Aquinas Shweder Brink Rawls Montaigne Turner Nussbaum Narayan Hume Mackie Gewirth Nietzsche Williams Berlin A distinctive feature of the anthology is that it brings philosophers into dialogue with well known anthropologists Also included is a comprehensive introduction by Christopher Gowans introducing the problem of moral disagreement to those coming to the topic for the first time **Symposia** Louis A.

Ruprecht, 1999-08-12 Argues that the underlining of erotic matters in Plato's dialogues marks the most significant moment in his career **The Business of God** Sheryl Johnson, Dannis Matteson, 2025-08-14 The theoretical framework of the

Industrial Complex explores how institutions established with a purpose external to themselves can become focused on their own self perpetuation pursuing power growth and profits in ways that may well contradict and undermine that original purpose Much theorizing has engaged issues such as the military healthcare and prison industrial complexes This book explores the framework of the Industrial Complex in relation to churches How do churches intended to in part worship God preach the gospel nurture discipleship and serve those in need become focused on factors such as profit accumulation limitless growth and expansion consolidation of power How do systems like colonialism capitalism white supremacy and patriarchy play a contributing role to these phenomena What are the impacts of the Church Industrial Complex on various facets of church life and parties involved and impacted Finally what can be done to resist these temptations and where are the corners of the church that have and continue to witness to an alternate approach This accessible book is designed for anyone who is concerned about these questions church leaders and members theological students and anyone who is curious about the dynamics at play in contemporary church life **Prospects for a Common Morality** Gene Outka, John P.

Reeder, 1992-11-17 This volume centers on debates about how far moral judgments bind across traditions and epochs

Nowadays such debates appear especially volatile both in popular culture and intellectual discourse although there is increasing agreement that the moral and political criteria invoked in human rights documents possess cross cultural force many modern and postmodern developments erode confidence in moral appeals that go beyond a local consensus or apply outside a particular community Often the point of departure for discussion is the Enlightenment paradigm of a common morality in which it is assumed that certain unchanging beliefs inhere in the structure of human reason Whereas some thinkers continue to defend this paradigm others modify it in diverse ways without abandoning entirely the attempt to address a universal audience and still others jettison virtually all of its distinguishing features Exhibiting a range of positions Western participants take in these debates this volume seeks to advance the substance of the debates themselves without prejudging the outcome Rival assessments of the Enlightenment paradigm are offered from various philosophical and theological points of view In addition to the editors the contributors include Robert Merrihew Adams Annette C Baier Alan Donagan Margaret A Farley Alan Gewirth David Little Richard Rorty Jeffrey Stout and Lee H Yearley **The New Yoder** Peter Dula, Chris K Huebner, 2011-10-27 The work of John Howard Yoder has become increasingly influential in recent years Moreover it is gaining influence in some surprising places No longer restricted to the world of theological ethicists and Mennonites Yoder has been discovered as a refreshing voice by scholars working in many other fields For thirty five years Yoder was known primarily as an articulate defender of Christian pacifism against a theological ethics guild dominated by the Troeltschian assumptions reflected in the work of Walter Rauschenbusch and Reinhold and Richard Niebuhr But in the last decade there has been a clearly identifiable shift in direction A new generation of scholars has begun reading Yoder alongside figures most often associated with post structuralism neo Nietzscheanism and post colonialism resulting in original and productive new readings of his work At the same time scholars from outside of theology and ethics departments indeed outside of Christianity itself like Romand Coles and Daniel Boyarin have discovered in Yoder a significant conversation partner for their own work This volume collects some of the best of those essays in hope of encouraging more such work from readers of Yoder and in hopes of attracting others to his important work Practicing Medicine and Ethics Lauris Christopher Kaldjian, 2014-05-26 This book explores medicine ethics and the challenge of moral diversity in health care It explores how a health professional's moral beliefs and values influence the care he or she provides It focuses on the need for a physician's wisdom goals to guide patient care and respect for conscience and integrity The book culminates in a framework for practical wisdom in medicine that reflects the importance of integration of an individual's beliefs values reasoning actions and identity moral dialogue humility and professionals obligations to patients themselves and society Life Interpretation and the Sense of Illness within the Human Condition Anna-Teresa Tymieniecka, E. Agazzi, 2012-12-06 In medicine the understanding and interpretation of the complex reality of illness currently refers either to an organismic approach that focuses on the physical or to a holistic approach that takes into account the patient's human sociocultural

involvement Yet as the papers of this collection show the suffering human person refers ultimately to his her existential sphere Hence praxis is supplemented by still other perspectives for valuation and interpretation ethical spiritual and religious Can medicine ignore these considerations or push them to the side as being subjective and arbitrary Phenomenology philosophy of life recognizes all of the above approaches to be essential facets of the Human Condition Tymieniecka This approach holds that all the facets of the Human Condition have equal objectivity and legitimacy It completes the accepted medical outlook and points the way toward a new medical humanism

Casuistry and Modern Ethics Richard B. Miller, 1996-11 Did the Gulf War defend moral principle or Western oil interests Is violent pornography an act of free speech or an act of violence against women In *Casuistry and Modern Ethics* Richard B Miller sheds new light on the potential of casuistry case based reasoning for resolving these and other questions of conscience raised by the practical quandaries of modern life Rejecting the packaging of moral experience within simple descriptions and inflexible principles Miller argues instead for identifying and making sense of the ethically salient features of individual cases Because this practical approach must cope with a diverse array of experiences Miller draws on a wide variety of diagnostic tools from such fields as philosophy of science legal reasoning theology literary theory hermeneutics and moral philosophy Opening new avenues for practical reasoning Miller s interdisciplinary work will challenge scholars who are interested in the intersections of ethics and political philosophy cultural criticism and debates about method in religion and morality

Contexts for Amos Mark Daniel Carroll R., 1992-02-01 This learned volume offers a close reading of chapters 3 to 6 of the book of Amos and attempts to locate biblical study and theological reflection within the complex cultural context of Latin America The author prefaces his study with a wide ranging survey of the continuing debate over the proper use of the Bible as a model for the structures of society The author s particular focus is Latin America and through sociological and textual analysis he seeks to define the role of the prophetic biblical voice in this society and presses for a recognition of moral complexities and a constant questioning and self evaluation from those who would claim to speak for God in society

Exiles from Eden Mark R. Schwehn, 2005-02-24 In this thoughtful and literate study Schwehn argues that Max Weber and several of his contemporaries led higher education astray by stressing research the making and transmitting of knowledge at the expense of shaping moral character Schwehn sees an urgent need for a change in orientation and calls for a spiritually grounded education in and for thoughtfulness The reforms he endorses would replace individualistic behavior the doing my own work syndrome derived from the Enlightenment with a communitarian ethic grounded in Judeo Christian spirituality Schwehn critiques philosophies of higher education he considers misguided from Weber and Henry Adams to Derek Bok Allan Bloom and William G Perry Jr He draws out valid insights always showing the theological underpinnings of the so called secular thinkers He emphasizes the importance of community drawing on both the secular communitarian theory of Richard Rorty and that of the Christian theorist Parker Palmer Finally he outlines his own prescription for a classroom centered spiritual

community of scholars Schwehn's study will interest all those concerned with higher education in America today faculty students parents alumni administrators trustees and foundation officers Pragmatic Historicism Sheila Greeve Davaney, 2000-09-07 Sheila Greeve Davaney develops a bold new option in theology and religious reflection pragmatic historicism which emerges out of the historicist assumptions of human situatedness particularity and plurality that have come to characterize Western thought The major theological attempts by postliberal and revisionist theology to incorporate these insights have failed to contend fully with the historicist challenge Davaney's pragmatic historicism more clearly repudiates essentialism universalism and confessionalism The theology that emerges is constructive and critical resisting all forms of confessionalism without resorting to new forms of universalism In its academic mode it is interpreted not in opposition to religious studies but as one subdiscipline within the study of religion whose major concerns are the identification analysis and critical reconstruction of religious ideas As such it is a form of cultural analysis and criticism The work includes a detailed exploration of the thought of philosophical pragmatists Richard Rorty Cornel West and Jeffrey Stout and theologians Sallie McFague John B Cobb Jr Gordon Kaufman Delwin Brown and William Dean among others

Religious Ethics and Constructivism Kevin Jung, 2018-04-17 In metaethics there is a divide between those who believe that there exist moral facts independently of human interests and attitudes i.e. moral realists and those who don't i.e. antirealists In the last half century the field of religious ethics has been inundated with various antirealist schools of moral thought Though there is a wide spectrum of different positions within antirealism a majority of antirealist religious ethicists tend to see moral belief as an historically dependent social construction This has created an environment where doing religious ethics in any metaphysically substantial sense is often seen not only as out of fashion but also as philosophically implausible However there is a lack of clarity as to what antirealists exactly mean by construction and what arguments they would use to support their views Religious Ethics and Constructivism brings together a diverse group of scholars who represent different philosophical and theological outlooks to discuss the merits of constructivism vis vis religious ethics The essays explore four different kinds of constructivism in metaethics social or Hegelian constructivism Kantian constructivism Humean constructivism and theological constructivism The overall aim of these essays is to foster dialogue between religious ethicists and moral philosophers and to open the field religious ethics to the insights that can be provided by contemporary metaethics

Encyclopedia of Christian Theology Jean-Yves Lacoste, 2005-07-27 The Encyclopedia of Christian Theology translated from the French Dictionnaire Critique de Théologie 2nd Edition features over 530 entries contributed by 250 scholars from fifteen different countries Alphabetically arranged entries provide the reader a critical overview of the main theological questions and related topics including concepts events councils theologians philosophers movements and more Hailed as a masterpiece of scholarship this reference work will be of great interest and use for scholars students of religion and theology as well as general readers Feminist Ethics and Natural Law Cristina L. H. Traina, 1999-04-28 Heated

debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aquinas s moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas s moral vision is due to inadequate attention to feminist critical methods This highly original book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place The Oxford Handbook of Theological Ethics Gilbert Meilaender, William

Werpehowski, 2005-08-25 The Oxford Handbooks series is a major new initiative in academic publishing Each volume offers an authoritative and up to date survey of original research in a particular subject area Specially commissioned essays from leading figures in the discipline give critical examinations of the progress and direction of debates The Oxford Handbook of Theological Ethics offers the most authoritative and compelling guide to the discipline Thirty of the world s most distinguished specialists provide new essays in order to offer a survey of and analysis of the subject Ethics is first placed firmly within the Christian theological tradition from which thought and action can never be neatly separated Four sections then explore the sources of Christian moral knowledge scripture divine commands church tradition reason and natural law experience the structure of the Christian life vocation virtue rules responsibility death the spirit of the Christian life faith hope love and the spheres of the Christian life government family economy culture church The final section of the Handbook contains essays discussing and evaluating certain scholarly works that have in the past influentially offered different visions of how best to structure the field of theological ethics Unlike any other book now available the Handbook s unrivalled breadth and depth make it the definitive reference work for all students and academics who want to explore more fully essential topics in Christian ethics **Moral Thought in Educational Practice** Hugh Sockett, 2018-08-14 This book

demonstrates how pervasive moral thought can be in educational thought and practice By analyzing research on the moral and intellectual qualities in curriculum as well as the integration of personhood and citizenship development in classroom work this book demonstrates the primacy of the moral in various educational settings With an additional emphasis on morality as it pertains to teaching as a vocation Moral Thought in Educational Practice examines the objectives of teacher

education and offers an account of moral purposes within the knowledge base for teaching

Understanding Morality Wayne Gustave Johnson, 2022-02-04 This book explains why moral systems necessarily develop and why they take the various forms that they do Johnson argues that moral systems are best understood as attempts both to seek out ways of living a fulfilling human life and also to find ways of relating to others who also seek a fulfilling life Philosophers generally agree that the moral pathway is also the fulfilling pathway However the moral pathways advocated and the kind of fulfillments envisioned depend upon beliefs about human nature as well as beliefs about the ultimate nature of things a worldview Aristotle Epicurus Saint Augustine and Friedrich Nietzsche for instance had radically varying views about what constitutes a fulfilling life Johnson argues that the moral quest involves properly arbitrating among the often competing wants needs and desires pursued by human beings Not all such wants needs and desires can be fulfilled some must necessarily go unfulfilled This implies that a vast number of human choices are moral choices For instance who eats and who does not Johnson gives no moral advice His aim is to show the reader the nature of the moral choices they necessarily make

Relativism and the Foundations of Liberalism Graham Long, 2011-10-04 Moral relativism is often regarded as both fatally flawed and incompatible with liberalism This book aims to show why such criticism is misconceived First it argues that relativism provides a plausible account of moral justification Drawing on the contemporary relativist and universalist analyses of thinkers such as Harman Nagel and Habermas it develops an alternative account of coherence relativism Turning to liberalism the book argues that moral relativism is not only consistent with the claims of contemporary liberalism but underpins those claims The political liberalism of Rawls and Barry is founded on an unacknowledged commitment to a relativist account of justification In combining these two elements the book offers a new understanding of relativism and demonstrates its relevance for contemporary liberal thought

After Heaven Robert Wuthnow, 2023-04-28 The evolution of American spirituality over the past fifty years is the subject of Robert Wuthnow's engrossing new book Wuthnow uses in depth interviews and a broad range of resource materials to show how Americans from teenagers to senior citizens define their spiritual journeys His findings are a telling reflection of the changes in beliefs and lifestyles that have occurred throughout the United States in recent decades Wuthnow reconstructs the social and cultural reasons for an emphasis on a spirituality of dwelling houses of worship denominations neighborhoods during the 1950s Then in the 1960s a spirituality of seeking began to emerge leading individuals to go beyond established religious institutions In subsequent chapters Wuthnow examines attempts to reassert spiritual discipline encounters with the sacred such as angels and near death experiences and the development of the inner self His final chapter discusses a spirituality of practice an alternative for people who are uncomfortable within a single religious community and who want more than a spirituality of endless seeking The diversity of contemporary American spirituality comes through in the voices of the interviewees Christians Jews Buddhists Muslims Hindus and Native Americans are included as are followers of occult practices New Age religions and other eclectic groups

Wuthnow also notes how politicized spirituality evangelical movements and resources such as Twelve Step programs and mental health therapy influence definitions of religious life today Wuthnow's landmark book *The Restructuring of American Religion* 1988 documented the changes in institutional religion in the United States now *After Heaven* explains the changes in personal spirituality that have come to shape our religious life Moreover it is a compelling and insightful guide to understanding American culture at century's end This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 The evolution of American spirituality over the past fifty years is the subject of Robert Wuthnow's engrossing new book Wuthnow uses in depth interviews and a broad range of resource materials to show how Americans from teenagers to senior citizens def

The Enthralling World of Kindle Books: A Thorough Guide Revealing the Advantages of E-book Books: A Realm of Convenience and Versatility E-book books, with their inherent portability and simplicity of availability, have freed readers from the limitations of physical books. Gone are the days of lugging cumbersome novels or meticulously searching for specific titles in bookstores. Kindle devices, stylish and lightweight, seamlessly store an wide library of books, allowing readers to immerse in their preferred reads whenever, anywhere.
