Ethics And International Affairs Extent And Limits Changing Nature Of Democracy S

Jacob Dahl Rendtorff

Ethics And International Affairs Extent And Limits Changing Nature Of Democracy S:

Democratic Sovereignty Matthew S. Weinert, 2007-02-12 This new book argues that sovereignty generally defined as the supreme authority in a political community has a neglected democratic dimension that highlights the expansion of substantive individual rights and freedoms at home and abroad Offering an historically based assessment of sovereignty that neither reifies the state nor argues sovereignty and the state are eroding under globalizing processes the book maintains that sovereignty norms have continually changed throughout the history of the sovereign state Matthew Weinert links international legal developments that restrict and coordinate sovereignty practices with an ethical undercurrent in International Relations one such example is the creation of the International Criminal Court in 2002 Drawing on seven additional historical case studies he outlines how campaigns informed by a commitment to the common good or at the very least by opposition to harmful state policies can be and have been efficacious in transforming the normative basis of sovereignty Democratic Sovereignty will be of great interest to students working in the fields of sovereignty international history ethics globalization and international relations

Legitimacy and Politics Jean-Marc Coicaud, 2002-10-31 The increase in cases of political corruption the loss of politicians credibility the development of social and political forms of pathology notably the rise of the extreme right along with exclusionist ideologies and the role of the State have been at the center of political debates In one way or another these problems raise the question of the legitimacy of the established powers The result is that legitimacy a key notion of political thought in general has today become a burning issue Coicaud examines all these issues and proffers insightful answers to questions such as the connections between morality and politics how rulers acquire or lose the right to govern and how one can become the advocate of a theory of political justice that while establishing limits respects and even ensures the promotion of plurality within societies *HMSO Agency Catalogue* Great Britain. Her Majesty's Stationery Office, 2002

International Law Jan Wouters, Cedric Ryngaert, Tom Ruys, Geert De Baere, 2018-12-13 This textbook offers for the first time a comprehensive analysis of the classic doctrines and main areas of international law from a European perspective meeting the needs of the many European law schools teaching public international law in English Special attention is devoted to the practice of the European Union the Council of Europe and European States both civil law and common law countries with regard to international law In particular the book analyses the interplay between international law EU law and national law in the case law of the Court of Justice of the EU the European Court of Human Rights and national jurisdictions in Europe It provides the reader with insights into how the international legal practice of the EU and its Member States impacts the development of international law both in terms of doctrines such as treaty making and customary law the exercise of extraterritorial jurisdiction state responsibility and the settlement of disputes as well as particular sub fields of international law such as human rights law and international economic law In addition the book covers other important areas such as the use of force and collective security the law of armed conflict and

global and regional international organisations It provides European perspectives on all these issues and will be of great value to students scholars and practitioners

Ethics and International Relations Joel H. Rosenthal, 2017-03-02 This volume offers a new dimension to realist theories about world politics It questions both the theoretical and empirical foundations of much of traditional realist thought by offering realist oriented analyses that emphasize the possibilities of cooperation and accommodation through agreement over common motivations and concerns The articles in this volume demonstrate that moral considerations can and do play a significant role in shaping state behavior and that despair about the possibility of improving the systems and institutions within which we live is unwarranted Specific points of normative convergence are raised in some detail especially on issues of war membership and authority humanitarian concern and the social consequences of globalization Three ethical concepts form the core of the realism reconsidered argued for here namely the ideas of pluralism rights and fairness

Japan's Aging Peace Tom Phuong Le, 2021-06-22 Since the end of World War II Japan has not sought to remilitarize and its postwar constitution commits to renouncing aggressive warfare Yet many inside and outside Japan have asked whether the country should or will return to commanding armed forces amid an increasingly challenging regional and global context and as domestic politics have shifted in favor of demonstrations of national strength Tom Phuong Le offers a novel explanation of Japan's reluctance to remilitarize that foregrounds the relationship between demographics and security Japan's Aging Peace demonstrates how changing perceptions of security across generations have culminated in a culture of antimilitarism that constrains the government's efforts to pursue a more martial foreign policy Le challenges a simple opposition between militarism and pacifism arguing that Japanese security discourse should be understood in terms of multiple militarisms which can legitimate choices such as the mobilization of the Japan Self Defense Forces for peacekeeping operations and humanitarian relief missions Le highlights how factors that are not typically linked to security policy such as aging and declining populations and gender inequality have played crucial roles He contends that the case of Japan challenges the presumption in international relations scholarship that states must pursue the use of force or be punished showing how widespread normative beliefs have restrained Japanese policy makers Drawing on interviews with policy makers military personnel atomic bomb survivors museum coordinators grassroots activists and other stakeholders as well as analysis of peace museums and social movements Japan's Aging Peace provides new insights for scholars of Asian politics international relations and Japanese foreign policy

Routledge Handbook of Ethics and International Relations Brent J. Steele, Eric Heinze, 2018-06-14 Ethics and International Relations IR once considered along the margins of the IR field has emerged as one of the most eclectic and interdisciplinary research areas today Yet the same diversity that enriches this field also makes it a difficult one to characterize Is it or should it only be the social scientific pursuit of explaining and understanding how ethics influences the behaviours of actors in international relations Or should it be a field characterized by what the world should be like based on philosophical normative and policy based arguments This

Handbook suggests that it can actually be both as the contributions contained therein demonstrate how those two conceptions of Ethics and International Relations are inherently linked Seeking to both provide an overview of the field and to drive debates forward this Handbook is framed by an opening chapter providing a concise and accessible overview of the complex history of the field of Ethics and IR and a conclusion that discusses how the field may progress in the future and what subjects are likely to rise to prominence Within are 44 distinct and original contributions from scholars teaching and researching in the field which are structured around 8 key thematic sections Philosophical Resources International Relations Theory Religious Traditions International Security and Just War Justice Rights and Global Governance International Intervention Global Economics Environment Health and Migration Drawing together a diverse range of scholars the Routledge Handbook of Ethics and International Relations provides a cutting edge overview of the field by bringing together these eclectic albeit dynamic themes and topics It will be an essential resource for students and scholars alike

Global Ethics and Environment Nicholas Low, 2002-09-11 As global capitalism expands and reaches ever further corners of the world practical problems continue to escalate and repercussions become increasingly serious and irreversible These practical problems carry with them equally important and ethical issues Global Ethics and Environment explores these ethical issues from a range of perspectives and using a wide range of case studies Chapters focus on the impact of development in new industrial regions the ethical relationship between human and non human nature the application of ethics in different cultural and institutional contexts environmental injustice in the location of hazardous materials and processes the ethics of the impact of a single event Chernobyl on the global community the ethics of transitional institutions This collection will both stimulate debate and provide an excellent resource for wide ranging case study material and solid academic context

Ethics, Justice, and International Relations Peter Sutch, 2001 This topical and timely book critically explores contemporary liberal international relations theory In the fifty years since the declaration of human rights the language of international relations has come to incorporate the language of justice and injustice The book argues that if justice is to become the governing principle of international politics then liberals must recognise that their political preferences cannot be the preconditions of global ethics The hierarchy of international political ethics must be constructed afresh so that the first principles of justice are accessible to all agents as political and ethical equals This book will be essential reading for students and scholars in politics international relations political theory and ethics

Annual Report United Nations University, 2001

The Concise Oxford Dictionary of Politics and International Relations Garrett W Brown, Iain McLean, Alistair McMillan, 2018-01-06 This bestselling dictionary contains over 1 700 entries on all aspects of politics and international relations Written by a leading team of political scientists it embraces the multi disciplinary spectrum of political theory including political thinkers history institutions theories and schools of thought as well as notable current affairs that have shaped attitudes to politics Fully updated for its fourth edition the dictionary has had its coverage of international

relations heavily revised and expanded reflected in its title change and it includes a wealth of new material in areas such as international institutions peace building human security security studies global governance and open economy politics It also incorporates recommended web links that can be accessed via a regularly checked and updated companion website ensuring that the links remain relevant The dictionary is international in its coverage and will prove invaluable to students and academics studying politics and related disciplines as well as politicians journalists and the general reader seeking clarification of political terms *Handbook of Critical International Relations* Steven C. Roach,2020-02-28 Comprising a plurality of perspectives this timely Handbook is an essential resource for understanding past and current challenges to democracy justice social and gender equality identity and freedom It shows how critical international relations IR theory functions as a broad based and diverse critique of society *Philosophy of Management and Sustainability* Jacob Dahl Rendtorff,2019-09-30 Using an interdisciplinary focus this book combines the research disciplines of philosophy business management and sustainability to aid and advance scholar and practitioner understanding of the United Nations Sustainable Development Goals SDGs *Russian Westernizers and Change in International Relations* Andrei P. Tsygankov,2024-06-07 Russian Westernizers and Change in International Relations summarizes the Westernizing trend in Russian thought from the early nineteenth century to the present day This book looks at Russian thinkers and politicians who have considered Western European civilization to be superior to others and who have drawn the conclusion that Russia consequently ought to align itself with the West rather than preserving certain traditional Russian values and that not doing so is an impediment to political social and economic evolution Within this trend of thought the author identifies four schools Christian Westernizers Economic Liberals Political Liberals and Social State Supporters and explores examples of each The author compares Russian thinkers from different periods finding contrasts and similarities within their political and historical settings and assessing their responses to their unique circumstances He analyzes Russian Westernizers self definition and ideas of national freedom relative to those of Western nations exploring how the West s definition of values and institutions has changed over time He shows how Western historical developments affected waves of Westernization and pro Western thinking inside Russia arguing the importance of this being grounded in national state building priorities The growing complexity of global relations the declining global influence of the West and the war in Ukraine present Russian Westernizers with new questions and challenges and this book assesses the resulting implications This book will appeal to students and scholars of Russian foreign policy Russia West relations IR theory diplomatic studies political science and European history including the history of ideas *The Politics of Leverage in International Relations* H. Friman,2015-03-18 This unique volume unpacks the concept and practice of naming and shaming by examining how governments NGOs and international organisations attempt to change the behaviour of targeted actors through public exposure of violations of normative standards and legal commitments **Systemic Governance and Accountability** Janet McIntyre-Mills,2008-01-16 The

book makes a plea for systemic governance It follows a practical approach including case studies and conceptual tools Policy makers and managers need to work with rather than within theoretical and methodological frameworks The closest we can get to truth is through compassionate dialogue that explores paradoxes and considers the rights and responsibilities of caretakers

Multidisciplinary Approaches to Ethics in the Digital Era Taskiran, Meliha Nurdan, Pinarbaşı, Fatih, 2021-03-18 The digital era has redefined our understanding of ethics as a multi disciplinary phenomenon The newness of the internet means it is still highly unregulated which allows for rampant problems encountered by countless internet users In order to establish a framework to protect digital citizenship an academic understanding of online ethics is required Multidisciplinary Approaches to Ethics in the Digital Era examines the concept of ethics in the digital environment through the framework of digitalization Covering a broad range of topics including ethics in art organizational ethics and civil engineering ethics this book is ideally designed for media professionals sociologists programmers policymakers government officials academicians researchers and students

Proceedings of the Forty-eighth Pugwash Conference on Science and World Affairs, Jurica, Mexico, 29 September-4 October 1998 Joseph Rotblat, 2001 In this book scientists who are pre eminent in their fields focus on the crucial role of science in the transition away from a culture of war towards the construction of peace based on a capacity to anticipate and prevent destructive conflicts The subject matter wide ranging and of great concern to people everywhere includes the progress and prospects for a nuclear weapon free world non nuclear threats to peace and security the building of legitimate world institutions conflict resolution and the construction of peace the local and global environmental dimensions of peace the health hazards of nuclear chemical and biological weapons and the interactions between health problems and poverty Contents Chiapas Politics or War R Benitez Manaut Nuclear Disarmament Is This as Good as It Gets M M Bosch The Future of Nuclear Weaponry and our Civilization F Calogero Nuclear Weapon Free Zones and Non Proliferation O M Sukovic Technology and the Prevention of Genocide D Andersen Asian Financial Crisis and China Z Q Xie Ethnic Identity and Border Disputes in the Balkans N Behar Water Security in Southern Africa N Dippenaar Poverty Disease and War J Avery Poverty Public Health and Peace A Southern African Perspective R A Mogotlane and other papers Readership Graduate students in social sciences
