# Ethics And Personality Essays In Moral Psychology

**Heidi Maibom**

## **Ethics And Personality Essays In Moral Psychology:**

**Ethics and Personality** John Deigh, 1992 Attachment trust respect integrity conscience guilt shame revenge depravity gratitude and forgiveness are among the topics discussed in this broad ranging volume This collection of thirteen essays focuses on emotions and motives that relate to our status as moral agents our capacity for moral judgment and the practices that help to define our social lives Some of the authors develop new lines of thought within a recognized school of philosophy or a well established program of research Others present novel conceptions of their subject independently of any single school or program Collectively each essay in *Ethics and Personality* represents a time honored tradition in ethics studies designed to throw light on fundamental questions within the discipline through investigation of the complexities of the human soul *Ethics and Personality* is a suitable text for advanced level courses and graduate seminars in ethics and philosophical psychology

**Character Trouble** John M. Doris, 2021-11-11 John M Doris has been a leading proponent of interdisciplinary approaches to moral psychology since their rise to prominence in the 1990 s His work has helped foster a methodological reorientation in the field and has had a transformative effect on the way philosophers approach questions of character virtue and agency This volume collects a selection of Doris work spanning 20 years focusing on the ways in which human personality orders and fails to order moral cognition and behaviour It also presents two new chapters which together form an in depth assessment of recent developments in the moral psychology of character as well as a closing commentary outlining methodological recommendations for those aspiring to do empirically responsible moral psychology Together these works present a distinctive vision of moral psychology which will engage both philosophers and psychologists

**Responsibility, Character, and the Emotions** Ferdinand David Schoeman, 1987 An examination of the responsibility individuals have for their actions and characters

**Moral Psychology and Human Agency** Justin D'Arms, Daniel Jacobson, 2014-11-06 These ten original essays examine the moral and philosophical implications of developments in the science of ethics the growing movement that seeks to use recent empirical findings to answer long standing ethical questions Efforts to make moral psychology a thoroughly empirical discipline have divided philosophers along methodological fault lines isolating discussions that will profit more from intellectual exchange This volume takes an even handed approach including essays from advocates of empirical ethics as well as those who are sceptical of some of its central claims Some of these essays make novel use of empirical findings to develop philosophical research programs regarding such crucial moral phenomena as desire emotion and memory Others bring new critical scrutiny to bear on some of the most influential proposals of the empirical ethics movement including the claim that evolution undermines moral realism the effort to recruit a dual process model of the mind to support consequentialism against other moral theories and the claim that ordinary evaluative judgments are seldom if ever sensitive to reasons because moral reasoning is merely the post hoc rationalization of unthinking emotional response

*Identity, Character, and Morality* Owen Flanagan, Amelie Oksenberg Rorty, 1993-08-26

Many philosophers believe that normative ethics is in principle independent of psychology. By contrast, the authors of these essays explore the interconnections between psychology and moral theory. They investigate the psychological constraints on realizable ethical ideals and articulate the psychological assumptions behind traditional ethics. They also examine the ways in which the basic architecture of the mind, core emotions, patterns of individual development, social psychology, and the limits on human capacities for rational deliberation affect morality.

**Character Trouble** John Michael Doris, 2021 John M. Doris has been a leading proponent of interdisciplinary approaches to moral psychology for decades. His work has transformed the way in which philosophers approach questions of character, virtue, and agency. This selection of his work focuses on the ways in which human personality orders or fails to order moral cognition and behaviour.

**The MIT Encyclopedia of the Cognitive Sciences (MITECS)** Robert A. Wilson, Frank C. Keil, 2001-09-04 Since the 1970s, the cognitive sciences have offered multidisciplinary ways of understanding the mind and cognition. The MIT Encyclopedia of the Cognitive Sciences (MITECS) is a landmark comprehensive reference work that represents the methodological and theoretical diversity of this changing field. At the core of the encyclopedia are 471 concise entries from Acquisition and Adaptationism to Wundt and X-bar Theory. Each article, written by a leading researcher in the field, provides an accessible introduction to an important concept in the cognitive sciences, as well as references or further readings. Six extended essays, which collectively serve as a roadmap to the articles, provide overviews of each of six major areas of cognitive science: Philosophy, Psychology, Neurosciences, Computational Intelligence, Linguistics and Language, and Culture, Cognition, and Evolution. For both students and researchers, MITECS will be an indispensable guide to the current state of the cognitive sciences.

**Character and Moral Psychology** Christian B. Miller, 2014-01-09 Philosophers and psychologists have been hard at work trying to unlock the mysteries of our characters. Unfortunately, their answers have been all over the map. According to one position, every single person has all of the moral virtues, such as modesty and compassion, although to varying degrees. Yet, according to another position, no one has any character traits at all, since they are simply illusions and do not exist. Hence, not one person is honest or compassionate or courageous. And between these extremes, there are plenty of intermediate views. Christian B. Miller argues that not one of these leading positions accurately reflects what most of us are like today. He explores the implications of the Mixed Trait framework, a theory of moral character developed in his previous book, *Moral Character: An Empirical Theory*. Mixed traits have both morally positive aspects; hence, they are not vices along with morally negative aspects; hence, they are not virtues. Miller engages with the other leading positions on the empirical nature of character: situationism, the CAPS model, the Big Five model, and the local trait model. He goes on to apply the Mixed Trait framework to several important topics in ethics, especially the development of an error theory about judgments of character and the challenge faced by virtue ethics from the widespread lack of virtue.

**From Personality to Virtue** Alberto Masala, Jonathan Webber, 2016-02-25 Character plays a central role in our everyday understanding and evaluation of

ourselves and one another It informs the expectations that ground our plans and projects our moral responses to other people's behaviour and to opportunities we ourselves face and our political decisions concerning formal education criminal punishment and other aspects of social organisation The very idea that people have persisting character traits that explain their behaviour is woven throughout the fabric of our culture These philosophical essays clarify this idea of character analyse its relation with the findings of experimental psychology and draw out the implications of this for education and for criminal punishment They bring together a range of issues in contemporary philosophy including the nature of agency the modelling of behavioural cognition ethical implications of personal necessity moral responsibility for implicit bias the prospects for character education and the nature of rightful criminal punishment The essays emphasise that character is inherently dynamic challenging the tendency among personality psychologists and virtue ethicists alike to focus on static snapshots of traits and they emphasise the close integration of character with the individual's social context seeking to accommodate the situationist experimental findings within a picture of behaviour as manifesting stable character traits The volume is intended to demonstrate the deep conceptual affinity of moral philosophy and social psychology and the consequent potential for each to benefit from the other

*The Ethics of Nature* Celia Deane-Drummond, 2008-04-15 This accessible and timely book uses a Christian perspective to explore ethical debates about nature A detailed exploration of humanity's treatment of the natural world from a Christian perspective Covers a range of ethical debates including current controversies about the environment animal rights biotechnology consciousness and cloning Sets the immediate issues in the context of underlying theological and philosophical assumptions Complex scientific issues are explained in clear student friendly language The author develops her own distinctive ethical approach centred on the practice of wisdom Discusses key figures in the field including Peter Singer Aldo Leopold Tom Regan Andrew Linzey James Lovelock Anne Primavesi Rosemary Radford Ruether and Michael Northcott The author has held academic posts in both theology and plant science

**The Routledge Handbook of Philosophy of Empathy** Heidi Maibom, 2017-02-03 Empathy plays a central role in the history and contemporary study of ethics interpersonal understanding and the emotions yet until now has been relatively underexplored The Routledge Handbook of Philosophy of Empathy is an outstanding reference source to the key topics problems and debates in this exciting field and is the first collection of its kind Comprising over thirty chapters by a team of international contributors the Handbook is divided into six parts Core issues History of empathy Empathy and understanding Empathy and morals Empathy in art and aesthetics Empathy and individual differences Within these sections central topics and problems are examined including empathy and imagination neuroscience David Hume and Adam Smith understanding evolution altruism moral responsibility art aesthetics and literature gender empathy and related disciplines such as anthropology Essential reading for students and researchers in philosophy particularly ethics and philosophy of mind and psychology the Handbook will also be of interest to those in related fields such as anthropology and social psychology

**Historical Dictionary of Ethics** Daniel Bonevac, 2023-10-15 Ethics

the practical part of philosophy tries to answer three questions central to human life What kind of person should I be What should I do How should I decide It defines describes and explains the important terms concepts theories and thinkers from all areas and eras of the history of ethics from Abba Mika el to Zhuangzi from the Abilene Paradox to Zen Buddhism including such central figures as Aristotle Hegel Kant and Plato as well as lesser known thinkers such as Clarke Fichte Meinong and Xenophon It covers Western and non Western traditions and presents detailed treatments of ancient and medieval ethics including discussions of each of Plato s dialogues that concerns ethical topics It covers both analytic and continental approaches to contemporary moral thinking Historical Dictionary of Ethics Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on the important terms concepts theories and thinkers from all areas and eras of the history of ethics This book is an excellent resource for students researchers and anyone wanting to know more about ethics The Moral Skeptic Anita M.

Superson,2009-03-13 Anita Superson challenges the traditional picture of the skeptic who asks Why be moral While holding that the skeptic s position is important she builds an argument against it by understanding it more deeply and then shows what it would take to successfully defeat it Superson argues that we must defeat not only the action skeptic but the disposition skeptic who denies that being morally disposed is rationally required and the motive skeptic who believes that merely going through the motions in acting morally is rationally permissible We also have to address the amoralist who is not moved by moral reasons he recognizes Superson argues for expanding the skeptic s position from self interest to privilege to include morally unjustified behavior targeting disenfranchised social groups as well as revising the traditional expected utility model to exclude desires deformed by patriarchy as irrational Lastly she argues that the challenge can be answered if it can be shown that it is in an important way inconsistent and therefore irrational to privilege oneself over others The Moral Skeptic makes an important contribution to both metaethics moral theory and feminist philosophy and brings feminist thinking into the larger discussion of the skeptical challenge Responsibility and Christian Ethics William

Schweiker,1999-03-11 Schweiker develops a powerful new theory of responsibility articulated in terms of Christian faith Moral Aims Cheshire Calhoun,2016 Moral Aims brings together nine previously published essays that focus on the significance of the social practice of morality for what we say as moral theorists the plurality of moral aims that agents are trying to realize and that sometimes come into tension and the special difficulties that conventionalized wrongdoing poses

*Criticism and Defense of Rationality in Contemporary Philosophy* ,2022-07-25 This book engages in critical discussion of the role of reason and rationality in philosophy the human mind ethics science and the social sciences Philosophers from Poland Germany and the United States examine reason in the light of emotion doubt absolutes implementation and interpretation They throw new light on old values *Law and Ethics in Coaching* Patrick Williams,Sharon K.

Anderson,2012-07-05 This book provides an easy to read introduction to the core ethical and professional issues faced by all

coaches irrespective of length of coaching experience The case studies and guidelines in this book will help coaches constructively reflect on their coaching practice and will help build the solid ethical foundation that professional coaching practice demands A very useful text for both the beginning and experienced coach Anthony M Grant PhD Director Coaching Psychology Unit University of Sydney Pat Williams is quickly becoming the authority on the ethics of the coaching profession He brings his full integrity and passion to this wonderful book Do not overlook the importance of this book to your success Laura Berman Fortgang MCC pioneer in the coaching field and author of Take Yourself to the Top and Now What 90 Days to a New Life Direction The first comprehensive book covering ethical and legal guidelines for personal and executive coaches As coaching grows into a unique and fully established profession coaches are already discovering and dealing with the special ethical and legal dilemmas that can arise in the coaching context Law and Ethics in Coaching presents the first comprehensive look at ethical and legal issues in coaching From coach client conflicts to conflicts of interest from assessments to informed consent the authors detail the breadth of ethical quandaries in coaching and provide highly practical advice for avoiding problems and for solving them With contributions from leaders in law ethics and coaching the text includes coverage of The emergence of the coaching profession and its intersection with ethics and law Foundations of ethics for professions Making ethical choices Getting growing and measuring coaching ability Developing and maintaining client trust Multiple role relationships in coaching Ethical use of assessments in coaching Legal issues and solutions for coaches The intersection of culture and ethics in organizations Coaching into the future Filled with a dynamic blend of case studies discussion questions illuminating quotes and other examples Law and Ethics in Coaching is both a trailblazing professional reference and an unparalleled textbook for coaching programs

**From Morality to Mental Health** Mike W. Martin, 2006-04-20 Morality and mental health are now inseparably linked in our view of character Alcoholics are sick yet they are punished for drunk driving Drug addicts are criminals but their punishment can be court ordered therapy The line between character flaws and personality disorders has become fuzzy with even the seven deadly sins seen as mental disorders In addition to pathologizing wrong doing we also psychologize virtue self respect becomes self esteem integrity becomes psychological integration and responsibility becomes maturity Moral advice is now sought primarily from psychologists and therapists rather than philosophers or theologians In this wide ranging accessible book Mike W Martin asks are we replacing morality with therapy in potentially confused and dangerous ways or are we creatively integrating morality and mental health According to him it s a little bit of both He surveys the ways in which morality and mental health are related touching on practical concerns like love and work self respect and self fulfillment guilt and depression crime and violence and addictions Terming this integrative development the therapeutic trend in ethics Martin uses examples from popular culture various moral controversies and draws on a line of thought that includes Plato the Stoics Freud Nietzsche and contemporary psychotherapeutic theories Martin develops some interesting conclusions among them that sound morality

is indeed healthy and that moral values are inevitably embedded in our conceptions of mental health In the end he shows how both morality and mental health are inextricably intertwined in our pursuit of a meaningful life This book will be of interest to philosophers psychologists psychiatrists and sociologists as well as the general reader     **The Untold War: Inside the Hearts, Minds, and Souls of Our Soldiers** Nancy Sherman, 2011-08-23 This unique analysis of the moral weight of warfare today filters complex problems through the lenses of philosophy and psychology     *Handbook of Moral Motivation* Karin Heinrichs, Fritz Oser, Terence Lovat, 2013-06-12 The Handbook of Moral Motivation offers a contemporary and comprehensive appraisal of the age old question about motivation to do the good and to prevent the bad From a research point of view this question remains open even though we present here a rich collection of new ideas and data Two sources helped the editors to frame the chapters first they looked at an overwhelmingly fruitful research tradition on motivation in general attribution theory performance theory self determination theory etc in relationship to morality The second source refers to the tension between moral judgment feelings beliefs and the real moral act in a twofold manner a as a necessary duty and b as a social but not necessary bond In addition the handbook utilizes the latest research from a wide range of disciplinary perspectives wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone Furthermore our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse The editors and authors of the handbook commend the research contained within in the hope that it will contribute to better understanding of humanity as an inherently moral species

When somebody should go to the ebook stores, search instigation by shop, shelf by shelf, it is in fact problematic. This is why we present the books compilations in this website. It will no question ease you to see guide **Ethics And Personality Essays In Moral Psychology** as you such as.

By searching the title, publisher, or authors of guide you in reality want, you can discover them rapidly. ### **Ethics And Personality Essays In Moral Psychology Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Ethics And Personality Essays In Moral Psychology has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Ethics And Personality Essays In Moral Psychology has opened up a world of possibilities. Downloading Ethics And Personality Essays In Moral Psychology provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Ethics And Personality Essays In Moral Psychology has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Ethics And Personality Essays In Moral Psychology. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Ethics And Personality Essays In Moral Psychology. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Ethics And Personality Essays In Moral Psychology, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal

information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Ethics And Personality Essays In Moral Psychology has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Ethics And Personality Essays In Moral Psychology Books**

1. Where can I buy Ethics And Personality Essays In Moral Psychology books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
