The Ethics of Our Climate William R. O'Neill, 1994 The three parts of the book treat the eclipse of the classical Aristotelian conception of practical reason the Kantian heritage in the modern moral theories of John Rawls and R M Hare and the hermeneutical retrieval of a moral interpretation of the world **Thiselton on Hermeneutics** Anthony C. Thiselton, 2017-05-15 Hermeneutics is an interdisciplinary study of how we interpret texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton's *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author's later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton's more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments **T&T Clark Handbook of Christian Ethics** Tobias Winright, 2020-12-10 The T T Clark Handbook of Christian Ethics provides an ecumenical introduction to Christian ethics its sources methods and applications With contributions by theological ethicists known for their excellence in scholarship and teaching the essays in this volume offer fresh purchase on and an agenda for the discipline of Christian ethics in the 21st century The essays are organized in three sections following an introduction that presents the four font approach and elucidates why it is critically employed through these subsequent sections The first section explores the sources of Christian ethics including each of the four fonts scripture tradition experience and reason The second section examines fundamental or basic elements of Christian ethics and covers different methods approaches and voices in doing Christian ethics such as natural law virtue ethics conscience responsibility narrative worship and engagement with other religions The third section addresses current moral issues in politics medicine economics ecology criminal justice and other related spheres from the perspective of Christian ethics including war genetics neuroethics end of life decisions marriage family work sexuality nonhuman animals migration aging policing incarceration capital punishment and more **For the Love of Children** Ted Peters, 1996-01-01 Examines the ethics of new reproductive technologies **Jürgen Habermas** Luca Corchia, 2010 **Becoming Nonviolent Peacemakers** Eli Sasaran McCarthy, 2012-07-11 Why do many U S residents Catholics and Catholic leaders among them too often fall short of adequately challenging the use of violence in U S policy The opportunities and developments in approaches to peacemaking have been growing at a significant rate However violent methods continue to hold significant sway in U S policy and society as the commonly assumed way to peace Even when community organizers policymakers members of Catholic leadership and academics sincerely search for alternatives to violence they too often think about nonviolence as primarily a rule or a strategy Catholic Social Teaching has been moving

toward transcending the limits of these approaches but it still has significant room for growth In order to contribute to this growth and to impact U S policy McCarthy draws on Jesus Gandhi Ghaffar Khan and King to offer a virtue based approach to nonviolent peacemaking with a corresponding set of core practices This approach is also set in conversation with aspects of human rights discourse to increase its possible impact on U S policy As a whole *Becoming Nonviolent Peacemakers* offers an important challenge to contemporary accounts of peacemaking in the U S

Surprise of Reconciliation in the Catholic Tradition, The Carney, J. J., Johnston, Laurie, 2018 An examination of the contribution that could be made by the Catholic historical tradition to Christian social reconciliation The authors hope that their work will result in fruitful Christian peacebuilding

O'Neill, 2021-01-07 In *Reimagining Human Rights* William O'Neill presents an interpretation of human rights from below showing how victims of atrocity can embrace the rhetoric of human rights to dismantle old narratives of power and advance new ones Topics covered include race and mass incarceration immigration and refugee policy and ecological responsibility

The New Testament and Bioethics R. Dennis Macaleer, 2014-01-01 Beauchamp and Childress's *Principles of Biomedical Ethics* is a well accepted approach to contemporary bioethics Those principles are based on what Beauchamp and Childress call the common morality This book employs New Testament theological themes to enhance the meaning of those principles of bioethics The primary New Testament text for this study is the twin commands from Jesus to love God and love one's neighbor The three theological themes developed from this study the image of God the covenant and the pursuit of healing are deeply embedded in the New Testament and in the ministry of Jesus Three contemporary bioethics principles are used for this dissertation based on The Belmont Report They are the principles of respect for persons justice and beneficence In each case the theological themes are shown to enhance the meaning of these bioethics principles Each of the three principles as understood through the three theological themes is applied to a current bioethics issue to demonstrate the efficacy of this approach The three current issues addressed are the withdrawal or withholding of life sustaining treatment the distribution of health care in the United States and the use of palliative care

Climate Crisis, Psychoanalysis, and Radical Ethics Donna M. Orange, 2016-09-13 Psychoanalysis engages with the difficult subjects in life but it has been slow to address climate change Climate Crisis Psychoanalysis and Radical Ethics draws on the latest scientific evidence to set out the likely effects of climate change on politics economics and society more generally including impacts on psychoanalysts Despite a tendency to avoid the warnings times of crisis summon clinicians to emerge from comfortable consulting rooms Daily engaged with human suffering they now face the inextricably bound together crises of global warming and massive social injustices After

considering historical and emotional causes of climate unconsciousness and of compulsive consumerism this book argues that only a radical ethics of responsibility to be my other's keeper will truly wake us up to climate change and bring psychoanalysts to actively take on responsibilities such as demanding change from governments living more simply flying less and caring for the earth and its inhabitants everywhere Linking climate justice to radical ethics by way of psychoanalysis Donna Orange explores many relevant aspects of psychoanalytic expertise referring to work on trauma mourning and the transformation of trouble into purpose Orange makes practical suggestions for action in the psychoanalytic and psychotherapeutic communities reducing air travel consolidating organizations and conferences better use of internet communication and education This book includes both philosophical considerations of egoism close to psychoanalytic narcissism as problematic together with work on shame and envy as motivating compulsive and conspicuous consumption The interweaving of climate emergency and massive social injustice presents psychoanalysts and organized psychoanalysis with a radical ethical demand and an extraordinary opportunity for leadership Climate Crisis Psychoanalysis and Radical Ethics will provide accessible and thought provoking reading for psychoanalysts and psychotherapists as well as philosophers environmental studies scholars and students studying across these fields **Refugee Rights** David Hollenbach, 2008-04-30

Of the over 33 million refugees and internally displaced people in the world today a disproportionate percentage are found in Africa Most have been driven from their homes by armed strife displacing people into settings that fail to meet standards for even basic human dignity Protection of the human rights of these people is highly uncertain and unpredictable Many refugee service agencies agree advocacy on behalf of the displaced is a key aspect of their task But those working in the field are so pressed by urgent crises that they can rarely analyze the requirements of advocacy systematically Yet advocacy must go beyond international law to human rights as an ethical standard to prevent displaced people from falling through the cracks of our conflicted world Refugee Rights Ethics Advocacy and Africa draws upon David Hollenbach SJ's work as founder and director of the Center for Human Rights and International Justice at Boston College to provide an analytical framework for vigorous advocacy on behalf of refugees and internally displaced people Representing both religious and secular perspectives the contributors are scholars practitioners and refugee advocates all of whom have spent time on the ground in Africa The book begins with the poignant narrative of Abebe Feyissa an Ethiopian refugee who has spent over fifteen years in a refugee camp from hell Other chapters identify the social and political conditions integral to the plight of refugees and displaced persons Topics discussed include the fundamental right to freedom of movement gender roles and the rights of women the effects of war and the importance of reconstruction and reintegration following armed conflict The book concludes with suggestions of how humanitarian groups and international organizations can help mitigate the problem of forced displacement and enforce the belief that all displaced people have the right to be treated as their human dignity demands Refugee Rights offers an important analytical resource for advocates and students of human rights It will be of particular

value to practitioners working in the field Journal of the Society of Christian Ethics ,2007 Updating the Interpretive Turn Michiel Meijer,2022-12-01 This book explores the meaning of the interpretive turn in the philosophy of the human sciences for a variety of contemporary philosophical debates While hermeneutics seems to be firmly established as a tradition and methodology in the human sciences interpretive philosophy seems to be under increasing pressure in recent philosophical trends such as the posthuman turn the nonhuman turn and the speculative turn Responding to this predicament this book shows how hermeneutics is gaining new force and fresh applications today by bringing together a group of leading interpretive philosophers to address such timely topics as the entanglement of social science culture and politics in liberal capitalist societies the extremism with which some identities are held within those societies the possibility of genuine non relativist dialogue in a post truth era the nature of the strong moral judgments people tend to make in that era the significance of interpretation for understanding nonhuman life forms and the inherently hermeneutic dimension of such practices as work and productive action testimony and witnessing and measurement in scientific practice Updating the Interpretive Turn will be of interest to researchers working in critical social science social philosophy ethical theory environmental philosophy philosophy of work philosophy of testimony philosophy of measurement and philosophical hermeneutics itself Arts & Humanities Citation Index ,1998 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 High-Quality Knowledge for Climate Adaptation: Revisiting Criteria of Credibility, Legitimacy, Salience, and Usability Scott Bremer,Marta Bruno Soares,Marina Baldissera Pacchetti,Arjan Wardekker,Jeroen P.
