

# Feminist Ethics

First, what is Feminism?

According to Brannigan, p.179, its original meaning and impetus is:

... the long-standing history of control and dominance by men throughout the world, men who have not viewed women as their equals.

This suggests that Feminism is a *reaction* to a proposed injustice against women by men.

McLaren, 2012-02-01 Addressing central questions in the debate about Foucault's usefulness for politics including his rejection of universal norms his conception of power and power knowledge his seemingly contradictory position on subjectivity and his resistance to using identity as a political category McLaren argues that Foucault employs a conception of embodied subjectivity that is well suited for feminism She applies Foucault's notion of practices of the self to contemporary feminist practices such as consciousness raising and autobiography and concludes that the connection between self transformation and social transformation that Foucault theorizes as the connection between subjectivity and institutional and social norms is crucial for contemporary feminist theory and politics **Disability Rights**

Pettersen, 2008-03-11 American psychologist Carol Gilligan holds that dominant ethical theories with their strong emphasis on rights and justice fail to see how care is an indispensable part of moral life This failure weakens their credibility as adequate universal ethical theories In *Comprehending Care* Tove Pettersen investigates whether an ethics of care really does give voice to a normative perspective that traditional moral theory has disregarded More specifically she considers whether Carol Gilligan's own theoretical contribution is an ethical theory of care and if it is likely to contribute to such a revised understanding Pettersen argues that central elements in a consistent and justifiable ethics of care theory can in fact be extracted from her works and is an ethics that to some extent challenges traditional ethical theories by revealing some of their ontological and epistemological inadequacies such as tacit assumptions unforeseen disturbing implications and deficient moral categories Within Gilligan's theoretical stance Pettersen finds suggestions for necessary revisions to remedy the flawed or deficient understanding generated by traditional ethical theory She argues however that Gilligan exaggerates her general critique of Western moral philosophy and specifically of the justice tradition and she exposes how Gilligan's portrayal of this tradition is misguided in places arguing that accommodating the concerns of justice is a central challenge yet to be met for an ethics of care
