Morality, Rationality and Efficiency Richard M. Coughlin,2016-09-16 The papers in this collection were selected from nearly 200 that were presented at the 50 sessions of the second annual International Conference on Socio Economics held at The George Washington University in Washington D C March 1990 They reflect the great interest that socio economics has inspired in the few years since the Society for the Advancement of Socio Economics was founded in 1989 The papers represent the stimulating dialogue among psychologists sociologists political scientists philosophers economists and students of finance and business administration The authors are communicating across the frontiers of established disciplines to address enduring questions on economic theory and policy and they aim to liberate the study of economics from the straitjacket of the neoclassical approach

New Perspectives on Technology, Values, and Ethics Wenceslao J. Gonzalez,2015-10-08 This book focuses on a key issue today the role of values in technology with special emphasis on ethical values This topic involves the analysis of internal values in technology as they affect objectives processes and outcomes and the study of external values in technology social cultural economic ecological etc These values internal and external are crucial to the decision making of engineers In addition they have increasing relevance for citizens concerned with the present and future state of technology which gives society a leading position in technological issues The book follows three main lines of research 1 new perspectives on technology values and ethics 2 rationality and responsibility in technology and 3 technology and risks This volume analyzes the two main sides involved here the theoretical basis for the role of values in technology and a practical discussion on how to implement them in our society Thus the book is of interest for philosophers engineers academics of different fields and policy makers The style used lends itself to broad audience

The Humanist Imperative in South Africa John W. De Gruchy,2011-08-01 This book is an outcome of the conversation that occurred during the five days of intense discussion at two symposia initiated by the New Humanism Project The struggle for a more humane society is both local and universal and increasingly these are connected in our time So while the conversation focused specifically on South Africa the discussion was neither parochial nor insular in its scope and character Hopefully then people beyond South Africa will find the contents of this book of value for them in terms of their own contexts

Explorations in Global Media Ethics Muhammad Ayish,Shakuntala Rao,2013-09-13 Studies of global media and journalism have repeatedly returned to discussions of ethics This book highlights the difficulty that journalists encounter when establishing appropriate ethical practices and marks the pressing importance of global media ethics as a subject of current debate A wide range of contributors both scholars and practitioners of journalism identify how changes in journalism practice developments in new media technologies legal regulations and shifting patterns of ownership all play a role in creating ethical tensions for

journalists with some chapters in the book suggesting practical solutions to this pertinent issue The growing need to faithfully represent other diverse cultural groups is also considered with certain chapters discussing the impact that human rights freedom and justice have upon journalistic decision making Explorations in Global Media Ethics recognises that with the escalation of globalisation and a public striving for honest quality media journalists around the world face an increasing pressure to comply with and simultaneously satisfy diverse ethical practices at both a local and a more global level The book sympathises with the position of the journalist and calls for greater consideration of his ambiguous role This book was originally published as a special issue of Journalism Studies

The New Public Health Theodore H. Tulchinsky, Elena A. Varavikova, 2009 Linking classical public health and intervention with evolving healthcare strategies and policies for the 21st century The New Public Health provides a broad perspective on current issues the kinds of solutions expectations needed in the future

Applied Ethics in a Digital World Vasiliu-Feltes, Ingrid, Thomason, Jane, 2021-11-19 As advances in disruptive technologies transform politics and increase the velocity of information and policy flows worldwide the public is being confronted with changes that move faster than they can comprehend There is an urgent need to analyze and communicate the ethical issues of these advancements In a perpetually updating digital world data is becoming the dominant basis for reality This new world demands a new approach because traditional methods are not fit for a non physical space like the internet Applied Ethics in a Digital World provides an analysis of the ethical questions raised by modern science technological advancements and the fourth industrial revolution and explores how to harness the speed accuracy and power of emerging technologies in policy research and public engagement to help leaders policymakers and the public understand the impact that these technologies will have on economies legal and political systems and the way of life Covering topics such as artificial intelligence AI ethics digital equity and translational ethics this book is a dynamic resource for policymakers civil society CEOs ethicists technologists security advisors sociologists cyber behavior specialists criminologists data scientists global governments students researchers professors academicians and professionals

[Transdisciplinary Perspectives on Transitions to Sustainability](#) Edmond Byrne, Gerard Mullally, Colin Sage, 2016-06-17 Demonstrating how a university can in a very practical and pragmatic way be re envisioned through a transdisciplinary informed frame this book shows how through an open and collegiate spirit of inquiry the most pressing and multifaceted issue of contemporary societal un sustainability can be addressed and understood in a way that transcends narrow disciplinary work It also provides a practical exemplar of how far more meaningful deliberation understandings and options for action in relation to contemporary sustainability related crises can emerge than could otherwise be achieved Indeed it helps demonstrate how only through a transdisciplinary ethos and approach can real progress be achieved The fact that this can be done in parallel to or perhaps underneath the day to day business of the university serves to highlight how even micro seed initiatives can further the process of breaking down silos and reuniting C

P Snow's two cultures after some four centuries of the relentless project of modernity. While much has been written and talked about with respect to both sustainability and transdisciplinarity, this book offers a pragmatic example which hopefully will signpost the ways others can will and indeed must follow in our common quest for real progress. *Environmental and Natural Resources Economics* Steven Hackett, Sahan T. M. Dissanayake, 2019-07-23. This new edition of *Environmental and Natural Resources Economics* provides an accessible yet rigorous treatment of the subject including the economics of sustainability. The new edition has been updated extensively throughout. A new chapter has been added on fisheries economics and policy and the chapter on global climate change has been substantially rewritten to incorporate new scientific information and evolving public policy. Many new figures and tables have been added and the glossary has also been expanded. Readers will appreciate the balanced and accessible coverage and the integration of economics with science and public policy. *Global Issues and Ethical Considerations in Human Enhancement Technologies* Thompson, Steven John, 2014-04-30. With rapid advancements in human enhancement technologies, society struggles with many issues such as definition, effects, participation, regulation, and control. Current and future initiatives in these technologies may not be in the participants' best interests; therefore, it is imperative for research on humanitarian considerations to be available to those affiliated with this field. *Global Issues and Ethical Considerations in Human Enhancement Technologies* compiles prestigious research and provides a well-rounded composite of the field's role in emerging technologies. Addressing both present and future concerns, this publication serves as a valuable reference work for researchers, students, professionals, and practitioners involved in computer science and the humanities as well as many engaged in a humanities approach to metasystems, new artificial life, and robotics. **Cloning** United States. Congress. House. Committee on Commerce. Subcommittee on Health and the Environment, 1998. *Ethical Standards for Technological and Business Education Sustainability* Esra AlDhaen, David Gallea, Vishanth Weerakkody, Weifeng Chen, 2025-05-27. The book explores different uses of technology including revising pedagogical standards, innovative teaching methods, inclusion of technological advancement as part of lifelong learning, and use of technology as part of formative learning and assessments. *Survey of Science and Technology Issues Present and Future*, 1981. **Ethical Issues in Behavioral Neuroscience** Grace Lee, Judy Illes, Frauke Oehl, 2015-02-09. Behavioral neuroscience encompasses the disciplines of neurobiology and psychology to study mechanisms of behavior. This volume provides a contemporary overview of the current state of how ethics informs behavioral neuroscience research. There is dual emphasis on ethical challenges in experimental animal approaches and in clinical and nonclinical research involving human participants. **Readings in the Philosophy of Technology** David M. Kaplan, 2009. Collects the important works of both the forerunners and contemporary theorists of philosophy of technology, addressing a wide range of topics on technology as it relates to ethics, politics, human nature, computers, science, food, and the environment. **Human Resources and Their Development - Volume II** Michael J.
